## ADDITIONAL LOCALS.

—The old Undine fire company building on Logan street has been sold to Mrs. Frank Spicer. The price paid was \$450.

—William Gates, of Mt. Eagle, who for some time has worked as a brakeman on the Bald Eagle Valley railroad, on Monday handed in his resignation and accompanied by Joseph Palmer, of Tyrone, left for Pittsburgh to undergo a physical examination for enlistment in the United States navy.

—Because he was unable to secure a supply of natural ice William Doll, the baker, has decided to build an artificial ice plant. He expects to erect one that will have a capacity of four tons every twenty-four hours. As he does not use near that amount himself he will be in shape to supply ice to other parties if desired.

—An entertainment, the nature of which has not yet been made public, will be held in the opera house the first week in May, the proceeds of which will go toward purchasing a modern rubber tired ambulance for the Bellefonte hospital. The object is a very good one and the entertainment should be liberally patronized.

—David Chambers, of Clarence, and James Uzzie, of Snow Shoe, have purchased the meat market of the late John Heiser, in the latter place, and will conduct the same in the future. Mrs. Reiser also sold her residence to Dr. Edward Harris and with her children will come to Bellefonte to make their future home, having rented one of the Rhoads houses on east Lamb street.

—At the saw mill of Harter and McCormick, located on Marsh Creek about four miles north of Blanchard, fire broke out among the lumber piles on Monday afternoon and burned all of the sawed lumber, amounting to about 250,000 feet. The loss is estimated at four thousand dollars with no insurance. The fire is believed to have originated from a spark from the saw mill engine.

—Charles Koozitz has leased the small strip of ground between Henry Kline's new shoe store and Dr. Feid's residence from Mitchell I. Gardner and will have erected thereon a small building in which he will conduct a cigar and tobacco store. Mr. Koozitz, it will be remembered, is the man who was suddenly stricken blind several years ago and never recovered his eyesight and his proposition now to go into business is a laudable one.

—The Phillipsburg Journal says: Isaac Underwood, of Bellefonte, is a visitor to town. He is engaged in the sale of implements of all kinds, and makes frequent trips to this section. It is a fair inference that there must be some good business inducements in his line which attract him to these parts so often, and would be pleased to have them assume such proportions as would warrant him in settling down among us, a thing he is contemplating doing. Every town is made better by gaining as residents such men of lofty character and high ideals.

—The Lutherans, who are noted for giving the most enjoyable of entertainments, will hold a box social under the auspices of the Luther League, this (Friday) evening, April 23rd, at the home of Mrs. Kate Kline, on Curtin street. A program consisting of vocal and instrumental music interspersed with recitations will be rendered during the evening. The boxes, of course, will contain the daintiest of lunches and will be sold at auction. The man who buys one will hunt the girl who bought it and share it with her. Everybody is invited to attend.

—Almost a year ago at a meeting of the Country club a committee was appointed to install a light plant of some kind for the purpose of lighting the club house and grounds. The plan was to be installed within sixty days but not being able to get together on the kind of a plant the project was never put through. But now it has been decided to install a small hydro-electric plant at the old mill dam and put in electric light. The water power has been tested and found sufficient to generate enough power to furnish light for the house and grounds and light the walk to the depot. The dam and race are now being cleaned out and put in shape and the plant will be installed as soon as possible.

—Rev. J. Allison Platts, pastor of the Presbyterian church, is not only a good preacher and ardent enthusiast on all kinds of athletics but is a great chicken fancier and every spring incubates a whole lot of little chicks some of which he grows to eat and others for egg producing purposes. But this year he will have just one incubator full less than he counted on because on Wednesday night shortly after midnight his brooder caught fire and was burned with one hundred little chickens. The growing machine stood in the rear yard and the conflagration looked dangerous enough to send in a fire alarm, but the fire was finally extinguished without doing further damage than destroying the brooder.

In the course of a year or so his health became bad from such close confinement indoors and he returned to Pittsburgh and engaged in the manufacture of glass, a business he followed for years and in which he amassed a large fortune.
