The passing of so many of the men who have long been honorably identified with the town's best interests impresses itself most forcibly upon us at this time. And the saddest feature of it all is that they go and the community goes on after a brief modicum of sorrow, cherishing only a memory that seems to grow more fleeting with each passing year. It is sad, but it is none the less true. However, in the absence of Frank Montgomery from the activities of Bellefonte more than the ordinary void will be occasioned. > STATE HIGHWAY THROUGH BELLE-FONTE ASSURED. - Surveyors have been at work this week surveying the line through Bellefonte for the much needed state highway and there is now every assurance that the road will be built. The road will begin at the borough line on west Linn street.connecting with the state road from Rellefonte to Milesburg, thence east on Linn street to Allegheny, south on Allegheny to Bishop, thence east to the borough line. The authorities have given assurance that work on this road will be started just as soon as possible, but even at that it will probably be six weeks or two months. The survey has to be completed and then a decision will have to be arrived at by the state and borough authorities as to what kind of a road shall be built. All this will have to be done before the authorities can even advertise for bids for building the road, and that will take a month, not counting the time which will elapse after the contract is awarded until the successful bidder starts work. So that at the very best we can only hope to have the road completed by the early fall, at heet. But even that is better than not at all, and every person in Bellefonte who can exert any influence toward hurrying the work should do so.

> WILLIAM WESTWOOD DROWNED .- In last week's issue of the WATCHMAN annonncement was made of the mysterious disappearance of William Westwood, of burg on the night of April 12th, but the mystery was cleared up on Tuesday by the finding of his dead body in the Moshannon creek, just a short distance below the Troy bridge. The body was discovered at noon by William Wright, of Philipsburg. Every indication points to the fact that the young man fell off the bridge and was drowned while on his way home from Philipsburg. When last seen it was about eleven o'clock at night and quite dark, and the fact that he had very imperfect vision would account for him falling from the bridge.
