FARM NOTES.

Water is the first great need of every animal.
Every kind of word you say to a dumb animal or bird will make you happier.
Turkeys should not be housed with chickens, as they require different conditions.
For experiments made by the Missouri State Board of Agriculture, it was decided that it costs \$12.26 to grow an acre of corn.
It is reported that no evergreen trees have ever been struck by lightning, and some people are advocating the planting of them for protection.
The average ewe requires from three to five pounds of salt a year, the variation depending largely upon the amounts of natural salts contained in the pastures.
The greatest dog owner in the world is Gustav Jovanovich, the cattle king of the Russian steppes. For the protection of his 1,500,000 sheep he employs no less than thirty-five thousand shepherd dogs of various breeds.
Examine the horse's teeth frequently and find if they are in a good condition for grinding the feed. Many horses lose flesh and are in poor health simply because their teeth are too uneven for proper grinding of their feed. A veterinarian can file them to the proper shape.
A stock man says he has saved several valuable calves that were down with the scours by taking a teaspoonful of wheat flour and giving a tablespoonful every minute. He repeated this two or three times a day before feeding, and diminished the feed one half until the calf got well.
The Cornell Experiment Station found that two tons of horse manure in an exposed place in five months lost five per cent. in gross weight, 60 per cent. of nitrogen, 47 per cent. of its phosphorus and 76 per cent. of its potash. The total loss of plant food was 61 per cent.
A fruit professor says that the pear came into this world before the apple. To this a wit adds that the professor's theory is, presumably, that the first pair ate the first apple. But going back still further, it is agreed that Eve was a perfect peach, and there was no pair until this peach had come into the world.
The Journal of the New York Zoological Society gives a census of American bison, according to which, in place of all the hundreds of thousands of these animals which formerly roved the plains, only 2,047 were known to be in existence on January 1, 1908. Of these, 969 were in captivity in the United States and forty-one in Canada. Since that date the Pablo herd has been sold to Canada.
The bees should have plenty of water. They consume a great deal, and will travel a long distance to get it. Should there be no running stream or lake of pure water near, it is well to place a pail of fresh water near the apiary every day. Water is used by the bees to dilute the heavy thick honey left over from winter to make it suitable for the young larvae, and also to make the cell wax pliable.
The Government statistics show that on May 1 1909, there were 10,130,000 tons of cotton, equivalent to 10,130,000 tons, of the total hay crop, it is estimated that 77.8 per cent., or 55,079,000 tons, will be fed on the farm where produced, and about 22.2 per cent., or about 16,719,000 tons, will be moved off the farm. These estimates are the first of the kind made by the Bureau of Statistics.
The milk goat, like all goats, can make a living on brushy and hilly land, where most other animals would starve. They are very beneficial to land in clearing it of weeds, sprouts and brush. They cannot endure low, wet land, but thrive perfectly on rough, hilly land. Those giving milk should be fed on good grass, hay, fodder and wheat bran, but no grain of any kind. The cost of maintaining a goat in milk is about five cents a day, and she will give from one to two quarts of milk a day.
The Ohio Experiment Station recommends as a treatment for killing peach and plum tree borers, three pounds of naphtha soap emulsified by boiling in three gallons of water; while hot add one gallon of carbolineum avarianus, which can be obtained through dealers in market gardeners' and fruit growers' supplies. This can be best mixed by the use of a force pump. When the soap solution and carbolineum are thoroughly mixed add four gallons of water and apply with a spray pump, being careful to protect hands and face when using.
A cow with her second or third calf is the most desirable all, and this is undoubtedly the most profitable age to buy them. As milkers and breeders, they have all their best days in front of them, and with sufficient time to pay handsomely. Young and old cows are very distinct in appearance. The former have an unattractive appearance of fullness of flesh and coat, while the old ones are more or less shrunk. The teeth give an indication of age, and the horns are often looked to as a guide, the young having smooth horns while those of the aged are wrinkled. If cross-breeds are bought, get them with the greatest tendency toward the best breed the cross has been secured from. Cows with a male or bull type of head are rarely good milkers. The head should be refined, neck thin, fore-quarters wide, square and robust, with deep, broad thighs.
In a recent number of a Japanese journal is described a process for the manufacture of a vegetable milk, the properties of which would render it highly suitable for use in tropical countries. The preparation is obtained from a well-known member of the leguminous family of plants—namely, the Soja bean—which is a very popular article of food among the Chinese. The beans are, first of all, softened by soaking, and are then pressed and boiled in water. The resulting liquid is exactly similar to cow's milk in appearance, but it is entirely different in its composition. This Soja bean milk contains 92.5 per cent. water, 3.02 per cent. protein, 1.23 per cent. fat, 0.03 per cent. fibre, 1.88 per cent. non-nitrogenous substances, and 0.41 per cent. ash. The writer in the aforesaid journal states that some sugar and a little phosphate of potassium are added in order to prevent the elimination of the albumen, and then the mixture is boiled down until a substance like condensed milk is obtained. This "condensed vegetable milk" is of a yellowish color, and has a very pleasant taste, hardly to be distinguished from that of real cow's milk. However, it still retains the aroma of the Soja bean.

The Descending Scale.
The first letter John ever wrote to me," said a married woman to her friend, "was shortly after we had become acquainted and before there was really anything like an understanding between us. This is the way he signed it:
"Yours, my dear Miss Weston, most sincerely,
JOHN HAMILTON EASTON."
"There, you see, were ten words—enough for a telegram—just to bring a commonplace friendly letter to an end. But after we became engaged his first letter to me was signed in this way:
"Yours, my darling, affectionately,
JOHN."
"That, you will observe, was a reduction of 50 per cent from his conclusion as a mere friend. The first letter he ever wrote to me after we were married was signed:
"Yours,
JOHN."
She stopped for a moment and sighed and then continued:
"We have been married seventeen years now. Yesterday I received a letter from him. Here is the way it was signed:
"Yours,
JOHN."

Settled the Dual.
Lord March, afterward the Marquis of Queensberry, was not accustomed to view a duel with unbecoming apprehension and usually attended an affair with an air of enjoyment that often was decidedly displeasing and embarrassing to his adversary. But he was served at last with that saucer which the proverb explains is for the gander as well as for the goose. It was when he was challenged to fight an Irish sportsman. Lord March appeared on the ground accompanied by a second, surgeon and other witnesses. His opponent arrived soon afterward with a similar retinue, but added to a person who staggered under the weight of a polished oak coffin, which he deposited on the ground, and up with its lid facing Lord March and his party. Lord March became decidedly uncomfortable when he read the inscription plate, engraved with his own name and title and the date and year of death, and peace was patched up.

Scaring the Conscience.
Of all her curious customs London cannot boast of a more singular one than that formerly so strictly adhered to at Holland House, one of the most historic old mansions in the British capital. The last of the Lords Holland shot himself during a fit of despondency. Everything pointing to a clear case of self murder, yet the Holland family could never be dissuaded from the notion that the old man had been murdered by some unknown assassin. Accordingly every night for years it was the custom for one of the family to go to the rear of the house punctually at 11 o'clock and fire a gun for the purpose, it is said, of "scaring the conscience" of the murderer. This curious practice is a relic of mediæval days in continental Europe, and the case in point is probably the only instance where it has been noticed since the days of the crusades.

Pigeons' Air Sacks.
The air sacks of the pigeon, says Bruno Muller, constitute a system of interspaces the value of which lies in their emptiness—that is, absence of weight and resistance. Flying is possible only to a body of high mechanical efficiency, and we attain this with machines divested of all superfluous material. Just so the original reptiles, which by evolution became birds, were divested of superfluous material, and the body spaces thus obtained were filled with air sacks. The body wall, serving as a support for the organs of movement, the mobility of whose parts was assured by the surrounding air sacks. The air cavities in the bones of birds are similarly explained.

Tonsorial Triumph.
"What was the best job you ever did?" inquired the first barber.
"I once shaved a man," replied the second ditto.
"Well?"
"Well, then I persuaded him to have a hair cut, singe, shampoo, face massage, sea foam, electric buzz, tar spray and finally a tonic rub."
"What then?"
"By that time," concluded barber No. 2, "he needed another shave."

Live Spiders Food for Young Wasps.
The young of some wasps can live only on live spiders, and the mother wasp therefore renders the spider powerless by her sting, after which it can live a month, and then deposits it in the cocoon where she has laid her egg. On hatching out of the living spider, another wasp deposits her egg in the body of the spider, which is then buried alive and is fed upon by the wasp grub.—London Standard.

On the Fence.
"That woman won't take either side of the social dispute until she is reasonably sure which one is going to win. She's a cat!"
"Ah, then that accounts for her being on the fence!"—Baltimore American.

The Drawback.
"Elsie says there was only one drawback to her wedding."
"What was that?"
"She says her father looked too cheerful when he gave her away."
—His Provisions.
Bootmaker: "For arctic explorer just returned"—How did you like those boots I made for you, sir? Arctic Explorer: "Excellent! Best I ever tasted."—London Tatler.

The story of Tantalus mocked by the food he could not touch, the foundation he could not taste, is the story of every dyspeptic. Life to him must be an endless fast, a ceaseless mortification of the flesh. Dyspepsia can be cured. It is being cured every day by the use of Dr. Pierce's Golden Medical Discovery. Cases of the most complicated character and of long standing have yielded to this medicine, when every other means had been tried in vain. "Golden Medical Discovery" cures 98 per cent. of all those who give it a fair and faithful trial.

The symptoms of Kidney trouble are so unmistakable that they leave no ground for doubt. Such kidneys excrete a thick, cloudy, offensive urine, full of sediment, irregular of passage or attended by a sensation of astringent heat, such as occurs constantly, headaches and dizzy spells may occur and the victim is often weighed down by a feeling of languor and fatigue. Neglect these warnings and there is danger of dropsy, Bright's disease, or diabetes. Any one of these symptoms is warning enough to begin treating the kidneys at once. Delay often proves fatal. Try Doan's Kidney Pills. Here's Bellefonte proof. Mrs. L. P. Lonsbury, 125 S. Spring St., Bellefonte, Pa., says: "I can recommend Doan's Kidney Pills as a cure for backache and pains in the kidneys. I suffered so severely from these troubles that at times I could hardly get around. A friend advised me to try Doan's Kidney Pills and I procured a box at Green's Pharmacy. You can get this medicine in any drug store and I feel better in every way. I do not hesitate to advise you to try Doan's Kidney Pills." For sale in all cities. Price 50 cents. PROPOSED AMENDMENTS TO THE CONSTITUTION SUBMITTED TO THE CITIZENS OF THIS COMMONWEALTH FOR THEIR APPROVAL OR REJECTION. BY THE GENERAL ASSEMBLY OF THE COMMONWEALTH OF PENNSYLVANIA. AND PUBLISHED BY ORDER OF THE SECRETARY OF THE COMMONWEALTH, IN PURSUANCE OF ARTICLE XVIII OF THE CONSTITUTION.
A JOINT RESOLUTION.
Proposing amendments to sections eight and twenty-one of article four, sections eleven and twelve of article five, sections two, three, and fourteen of article eight, section one of article twelve, and sections two and seven of article fourteen, of the Constitution of Pennsylvania, and providing a schedule for carrying the amendments into effect.
Section 1. Be it resolved by the Senate and House of Representatives of the Commonwealth of Pennsylvania, that the following are proposed as amendments to the Constitution of the Commonwealth of Pennsylvania, in accordance with the provisions of the eighth article thereof:—
Amendment One—To Article Four, Section Eight.
Section 2. Amend section eight of article four of the Constitution of Pennsylvania, which reads as follows:—
"He shall nominate and, by and with the advice and consent of the Senate, appoint a Secretary of the Commonwealth, an Attorney General during pleasure, a Superintendent of Public Instruction, a Treasurer, Secretary of Internal Affairs, a Superintendent of Public Instruction, in a judicial office, or in any other elective office which he is or may be authorized to fill; and such appointments shall be made during the session of the Senate, the Governor shall nominate to the Senate, before their final adjournment, the proper person to fill said vacancy; but in any such case of vacancy, in an elective office, a person shall be chosen to fill said office at the next general election, unless the vacancy shall happen within three calendar months immediately preceding such election, in which case the election for said office shall be held the second succeeding general election. In acting on executive nominations the Senate shall sit with open doors, and, in confirming or rejecting the nominations of the Governor, the vote shall be taken by yeas and nays, and shall be entered on the Journal," so as to read as follows:—
"He shall nominate and, by and with the advice and consent of two-thirds of all the members of the Senate, appoint a Secretary of the Commonwealth and an Attorney General during pleasure, a Superintendent of Public Instruction, in a judicial office, or in any other elective office which he is or may be authorized to fill; and such appointments shall be made during the session of the Senate, the Governor shall nominate to the Senate, before their final adjournment, the proper person to fill said vacancy; but in any such case of vacancy, in an elective office, a person shall be chosen to fill said office at the next election day appropriate to such office, according to the provisions of this Constitution, unless the vacancy shall happen within two calendar months immediately preceding such election day, in which case the election for said office shall be held on the second succeeding

election day appropriate to such office. In acting on executive nominations the Senate shall sit with open doors, and, in confirming or rejecting the nominations of the Governor, the vote shall be taken by yeas and nays, and shall be entered on the Journal.

Amendment Two—To Article Four, Section 3. Amend section twenty-one of article four, which reads as follows:—
"The term of the Secretary of Internal Affairs shall be four years; of the Auditor General three years; and of the State Treasurer two years. These officers shall be chosen by the qualified electors of the State at general elections. No person elected to the office of Auditor General or State Treasurer shall be capable of holding the same office for two consecutive terms," so as to read:—
"The terms of the Secretary of Internal Affairs, the Auditor General, and the State Treasurer shall each be four years; and they shall be chosen by the qualified electors of the State at general elections; but a State Treasurer, elected in the year one thousand nine hundred and eleven, shall serve for three years, and his successors shall be elected at the general election in the year one thousand nine hundred and twelve, and in every fourth year thereafter. No person elected to the office of Auditor General or State Treasurer shall be capable of holding the same office for two consecutive terms."

Section 4. Amend section eleven of article five, which reads as follows:—
"They shall be chosen by the qualified electors of the State at general elections; but a State Treasurer, elected in the year one thousand nine hundred and eleven, shall serve for three years, and his successors shall be elected at the general election in the year one thousand nine hundred and twelve, and in every fourth year thereafter. No person elected to the office of Auditor General or State Treasurer shall be capable of holding the same office for two consecutive terms."

Section 5. Amend section twelve of article five of the Constitution, which reads as follows:—
"Philadelphia there shall be established, one court, not of record, of police and civil causes, with jurisdiction not exceeding one hundred dollars; such courts shall be held by magistrates whose term of office shall be six years, and in the election of the said magistrates no more than one shall be elected in each ward or district, and the qualified voters at large; and in the election of the said magistrates no voter shall vote for more than two; they shall be compensated only by fixed salaries, to be paid by said county; and shall exercise such jurisdiction, civil and criminal, except as herein provided, as is now exercised by aldermen, subject to such changes, not involving an increase of duties, as may be made by law. In Philadelphia the office of alderman is abolished."

Section 6. Amend section two of article eight, which reads as follows:—
"The general election shall be held annually on the Tuesday next following the first Monday of November, but the General Assembly may by law fix a different day, provided that all the members of each House consenting thereto," so as to read:—
"The general election shall be held biennially on the Tuesday next following the first Monday of November in each even-numbered year, but the General Assembly may by law fix a different day of each House consenting thereto: Provided, That such election shall always be held in an even-numbered year."

Section 7. Amend section three of article eight, which reads as follows:—
"All elections for city, ward, borough and township officers, for regular terms of service, shall be held on the third Tuesday of February," so as to read:—
"All elections for the electors of the State at large may be elected at either a general or municipal election, as circumstances may require. All elections for judges of the courts for the several judicial districts, and for county, city, ward, borough, and township officers for regular terms of service, shall be held on the Tuesday next following the first Monday of November in each odd-numbered year, but the General Assembly may by law fix a different day, provided that all the members of each House consenting thereto: Provided, That such election shall always be held in an odd-numbered year."

Section 8. Amend section fourteen of article eight, which reads as follows:—
"District election boards shall consist of a judge and two inspectors, who shall be chosen annually by the citizens. Each elector shall have the right to vote for the judge and one inspector, and each inspector shall appoint one clerk. The first election board for any new district shall be appointed on the first Monday of December, and thereafter the election boards shall be appointed on the first Monday of January, one thousand nine hundred and twelve, and thereafter on the first Monday of January, one thousand nine hundred and thirteen, and thereafter on the first Monday of January, one thousand nine hundred and fourteen, and thereafter on the first Monday of January, one thousand nine hundred and fifteen, and thereafter on the first Monday of January, one thousand nine hundred and sixteen, and thereafter on the first
