Several committees were appointed to look after preliminary arrangements. A canvass of the borough of State College is being made by two persons, one appointed by the County Grange, and one by the authorities of Pennsylvania State College, to secure lodging for the delegates and visitors.

State College will be an ideal place for holding the annual session, so far as the meetings are concerned, but conditions as to rooming and boarding will be entirely different from any place the State Grange ever met, there being no large hotels.

A list of places and rooms, together with rates, will be forwarded in the near future to each subordinate Grange, together with a request that each Grange will give the exact numbers wishing entertainment. This will give the local committee an opportunity to make definite arrangements for rooms and accommodations.
