KILLED ON THE RAILBOAD. - David F. McMonigal, of Worth township, was run train on the Bald Eagle railroad on Satur day evening, at the crossing, at Gamble, Gheen & Co's mill, but how the fatal accident occurred is not known. The train pulled into the station as usual without any of the crew having knowledge of having hit a man. In backing out the brakeman always rides the rear platform and keeps a close lookout for any person or obstruction on the track. On pearing the mill crossing he saw the body of a man lying alongside the track, close to the rail, and with one arm thrown over the rail.

He signaled the engineer to stop the train and as soon as this was done hurried to where the figure lay and was shocked to find the dead and badly crushed body of a man. It was plainly evident that he had been struck by the locomotive on the way in to the station but as he was not seen by either the engineer or fireman at that time it is not known whether he was walking on the railroad or had attempted to cross the track in front of the moving rain. It was sometime before the body was identified as that of James McMonigal, but his identity was finally established beyond question by persons who knew making his home with his nephew, Robert Laird and family, of south Allegheny
