The sale of western horses at the Haag house last Saturday was not as successful as some of the former sales, the highest price realized for one animal being seventy-one dollars, while the most of them went for considerably less.

Tomorrow will be the last day of the open season for wild turkeys and if you have not been able to bag one of the birds up until this time you will only have one more day in which to do it. Pheasant season continues until December first.

The Ithaca Concert company, the second on the list of the Y. M. C. A. star course entertainments, gave a concert in Petriken hall on Monday evening, to a small audience; accounted for in part by the inclement weather. But at that, they deserved a better house.

Last Friday afternoon a tenant house on the Charles E. Yearick farm three miles east of Jacksonville was entirely destroyed by fire. The house was occupied by Samuel Fravel and family who succeeded in saving most of their household goods. The loss on the property is about five hundred dollars, with no insurance.

One of the best football games of the season at State College will undoubtedly be the game tomorrow between State and University of West Virginia. The latter team last Saturday played the University of Pittsburgh a tie game after the latter a week previous had defeated the Carlisle Indians by a decisive score. So don't fail to see it.

Mrs. Spangler's card party Tuesday afternoon was given in honor of Mrs. Powers, who is visiting her sister, Mrs. Kistler, of Lock Haven. Mr. and Mrs. A. G. Morris and Miss Morris entertained with bridge and six hand euchre Wednesday evening. Thursday evening Judge and Mrs. Ellis L. During the past ten days or two weeks a half dozen or more big trout have been making spawning beds in Spring creek opposite the WATCHMAN office, and not over fifty feet from the editor's desk. As the trout range in size from a foot to eighteen inches in length it is not difficult for an enthusiastic angler to appreciate the temptation that daily assails us; but the ten dollars per fish always acted as a stimulant to our conscience to be law-abiding, even to the trout.

The Tyrone Country club have taken possession of their recently acquired property, the old Lyon homestead at Pennsylvania Furnace, and are now engaged in making a few necessary repairs and improvements which will add considerable to the attractiveness of the place. At a well attended meeting of the club last Thursday evening the following officers were elected for the ensuing year: President, A. G. Morris, of Bellefonte; vice president, George C. Wilson; secretary, A. M. Laporte; treasurer, H. Himmelwright; executive committee, Dr. John B. Nason, H. A. Zentmeyer, Richard Beaton, Claude Jones, all of Tyrone, and R. J. Maters, of Huntingdon.

Contractor John Noll and his force of stonemasons have the walls for the new addition to the court house about completed for the basement and first story, so that now the public can have some idea regarding the plans of those two stories. Work on the upper story will be pushed as fast as possible and with reasonably fair weather the building will be ready for the roof by the first of December. The remodeling of the old court house is not progressing very fast and unless the contractors get a hustle on the building will not be in shape for holding the December term of court. The plasterers are now at work on the new ceiling and after it is on the entire interior is to be calomined and painted.

On Thursday of last week Clark Grazer, of Warriorsburg, accompanied by three friends, were at State College in the former's automobile, a Lambert roadster. From the college they came to Bellefonte and had supper, leaving late in the evening for the run home by way of the Bald Eagle valley. In the neighborhood of Unionville they were running along at a fair rate of speed when something broke about the steering gear and in an instant the machine swerved to the left and ran into a bank. The occupants all jumped from the car and escaped injury. The left front wheel of the machine was smashed and all of the machinery so badly deranged that there was no hope of getting it fixed by the roadside so Mr. Grazer hired a farmer to haul it to Tyrone, which he did, loading it in the hay ladders on his wagon and thus making the trip. The machine is being put in repair at the Tyrone Motor club's garage and machine shops.

SCHAEFFER.—Mrs. Sophia C. Schaeffer, wife of ex-sheriff Benjamin F. Schaeffer, died at her home at Nittany at noon on Tuesday at the advanced age of eighty-one years. In May, 1884, or over twenty-five years ago, she was stricken with paralysis and rendered partially helpless. At the time it was believed she could not survive long but she was possessed of such wonderful vitality that she lived to reach out her four score years and over.

Her maiden name was Miss Sophia Barger and she was born in Nippenose valley, Lycoming county. She was married to Mr. Schaeffer fifty-seven years ago on the 13th of last January, and most of the time since they have lived on a farm near Nittany, where she raised her family and was one of the most esteemed women of that community. She was good, kind and thoughtful for others, and in her own home was always an open-hearted, lovable hostess. When a young girl she became a member of the Lutheran church and her faith was religiously kept all through her long life.

Surviving her are her husband, who during her invalidism was her constant companion, two sons and three daughters, namely: L. A., of Bellefonte; W. E., of Millburg; Mrs. Knecht, of Cedar Springs; Mrs. L. E. Swartz, of Hubersburg, and Miss Kate A., at home. She also leaves three sisters, Mrs. Margaret Wagner, of Nippenose valley, 85 years old; Mrs. Anna Raoh, of Illinois, 83, and Mrs. Mary Maxwell, of Lewisburg, 79.

The funeral will be held from her late home at ten o'clock this morning, interment to be made in the Soydetown cemetery.

He followed farming until twenty years ago when he retired and

has since made his home in Springdale and Pittsburg. His wife has been dead for a number of years but surviving him are five children, all living in the western part of the State. A number of relatives of the deceased still live in Centre county.

A lamp fell from the hands of Miss Nellie Solt, at the home of her parents, Mr. and Mrs. Cyrus Solt, on south Spring street, Monday evening and exploded setting fire to the carpet. Fortunately the blaze was smothered out before it had done any other damage than burn a hole in the carpet.

Rev. R. W. Illingsworth, well known throughout Centre county and who is now located at Marietta, is not only a fisher for men but an accomplished angler for the real fish. Dr. T. C. Van Tries is very enthusiastic over the reception attended his recital at Indiana, Pa. The Second United Presbyterian church was filled with the best and most intelligent people of the town. The Bellefonte Lodge of Elks charity and hospital entertainment, "The County Fair," which was to have been given in the opera house next Friday and Saturday evenings, has been postponed until Friday and Saturday evenings, December 3rd and 4th. This will give everybody an opportunity to make better preparations for the big event and will presage for it a greater success. Miss Book, of the Book Entertainment bureau, is now in Bellefonte directing the preliminary work and the way the people are taking hold of the matter justifies the prediction that it will be an affair well worth seeing.

Just what the county commissioners are going to do with the stone they will have on hand after the new court house is completed is a question that is causing considerable wonderment. From the appearance now they have stone enough up in the park back of the court house to build two or three such buildings, all of which were taken by contractor R. B. Taylor from the foundation for the new building. A fair estimate places the number of stone they will have left at from three hundred perch up. Of course they have a monetary value of one dollar a perch, but to leave them lying where they now are for an indefinite time, or until they can all be disposed of will not make a very good setting for the new court house.

A number of the executive committee of the Road Supervisor's association of Centre county met in the arbitration room in the court house last Saturday morning but as the committee having in charge the preparation of a constitution and by laws was not ready to report little business of consequence was transacted and the committee adjourned to meet at the same place at 10 o'clock on Saturday morning, December 6th, at which time it is hoped everything will be in shape to complete the organization. The committee who has in charge the above work is composed of John A. Dally, chairman; Amos Garbriek and Frank Wian, and all suggestions from any person or persons interested in the matter of good roads and the Supervisor's association will be thankfully received by them.

Miss Norton, the new singer at the Scenic, is captivating Bellefonte people with her fine voice and good singing and her appearance in Bellefonte is another bit of evidence of the persistency of manager T. Clayton Brown in giving the people of Bellefonte only the very best obtainable in his motion picture entertainments. This fact he exemplifies right along in the high class of pictures shown. No old or stale subjects, but everything of the newest and best films obtainable. The pictures of the world's championship baseball series are about due and will be shown at the Scenic in the near future, the only time and only place in Bellefonte where it will be possible for you to see them. And at that given as an extra attraction to the regular show, all for five cents. Don't miss an evening, or you will miss something worth seeing.

This is the busy season of the year at the Bellefonte fish hatchery, taking the spaw and setting them in the hatching troughs. With the increased equipment this year over former years superintendent Buller anticipates a hatch this winter of from four to five million fry. The Bellefonte hatchery is now the biggest in the State for hatching trout fry and naturally keeps the superintendent and his assistants quite busy. The fish have not only got to be fed and the ponds kept in the right condition but every day, and especially during spawning time at this season of the year, a certain percentage of fish die and these have to be removed at once with nets and disposed of. This mortality at the Bellefonte hatchery is now especially noticeable though it is not unusual and not to an extent to cause any alarm.

NO COURT IN DECEMBER.—Last Saturday the jury commissioners drew the jury for the regular term of quarter sessions court to be held the week beginning December 6th, but after the jury was drawn Judge Orvis instructed the sheriff not to notify the traverse jurors to appear, as the court house will not be in shape for holding court. It is likely, however, that the grand jury will be called together to make inquiry into any quarter sessions cases on the list and any that can be disposed of without a trial will be given attention. List of grand jurors drawn is as follows:

Table listing Grand Jurors for the week beginning December 6th, including names like W. A. Hoy, R. F. Welty, J. C. Cori, and others.

CENTRE COUNTY'S OFFICIAL VOTE.—The return judges last Thursday made the official count of the vote polled at the election on November 2nd and the same differed very little from the total vote as published last week, so far as the various candidates are concerned. On the amendments the vote was unusually light, and all were defeated by good, substantial majorities. The vote on the seventh amendment was particularly decisive against it, it being defeated by one thousand majority over any of the others. The vote as returned by the official count is as follows:

Table showing the official count of the vote for various candidates and amendments, including names like J. A. Stober, Geo. W. Kipp, and others.

BRICK WORKS DOING BIG BUSINESS.—The Carwensville fire brick plant is now so crowded with orders that it has been decided to increase the size of the plant to double its present capacity. This decision was made at the annual meeting of the directors of the company held in Pittsburg on Monday. The present capacity of the plant is fifty thousand brick per day and notwithstanding the fact that they have been running night and day all summer they have unfilled orders on their books for two million brick, and enough available orders in view to bring the aggregate up to six million. This is the company in which a number of Bellefonters are interested as stockholders.

THEODORE ROOSEVELT is hunting in Africa and for the story of his hunt he is to receive a dollar a word, pictures included, from the Outing magazine. PEARY went hunting for the North pole, returned many days, notwithstanding the fact that now dispute his having found it, it is reported that he has sold the story of his hunt—forty-two thousand words with fifteen hundred pictures—to Hampton's Magazine for forty-five thousand dollars. From which it can be seen that while he has never posed as much of a writer he has never seven cents a word more than TEDDY.

As usual at the recent election the Democrat received a black eye. The truth of the matter is that it was their own fault. The stay at home Democrats did the business, and they all deserve a leather medal.

It looked like a pugilistic encounter at the postoffice here last week between two gentlemen (1) of our town. The quarrel is an old affair about a fifty dollar operation, and frequently breaks out when the two meet in a party of a dozen or more persons. Of course there is never any fight because one is afraid and the other begs to be excused. It is only a war of billingsgate.

Editor DEMOCRAT WATCHMAN: In your valuable paper of the 31st ult., a letter of appeal from "A Looker On" exactly stated our case, but have the good people of Bellefonte become so wrapped up in their own little concerns that they cannot see the "Lazarus lying at their very gate." We sincerely hope not, although the facts certainly look that way. See now! At the beginning of October you published our long letter appealing for names of kind patrons who would promise monthly subscriptions toward our Rent League, so that many might bear the burden instead of the very few; but hard as it is to credit the fact, no responses were received although the facts were published in later issues.

So now we must again appeal to your sympathy and love to God's cause in this town that you will knock out the possibility of a repetition of the story: "Too religious to be able to do good to one in need." Do you need a rescue home for men and women too poor (many of them) for church, or are they not of your caste and must needs die?

Are you aware we have paid out fifty-six dollars for rents the past three months, which has been awfully hard to get, and only taken a weekly average wage of three dollars. We can go on this way no longer and so make this final appeal for help. Will you respond according to your pocketbook or bank account? To those kind friends who have contributed food and those new subscribers to our Rent League we tender our heart-felt thanks and say, God bless you.

Awaiting your kind response, RESSAY AND MRS. HARTY, Officers in charge Salvation Army.

An English Author Wrote. "No shade, no shine, no fruit, no flowers, no leaves,—November!" Many Americans would add no freedom from catarrh, which is so aggravated during this month that it becomes constantly troublesome. There is abundant proof that catarrh is a constitutional disease. It is related to scrofula and consumption, being one of the wasting diseases. Hood's Sarsaparilla has shown that what is capable of radiating scrofula, completely cures catarrh, and taken in time prevents consumption. We cannot see how any sufferer can put off taking this medicine, in view of the widely published record of its radical and permanent cures. It is undoubtedly America's Greatest Medicine for America's Greatest Disease—Catarrh.

You miss a good thing if you don't take the WATCHMAN.
