

THE FORTY-FIFTH'S REUNION.—The annual reunion of the fighting Forty-fifth regiment, held in Williamsport on Wednesday and Thursday of last week, was one of the best attended in some years, veterans being there from all over the country. At the campfire on Wednesday evening Judge Rees G. Richards, of Steubenville, Ohio, presided, and the principal speakers were Gen. Beaver, of this place, and Hon. Emerson Collins, of Williamsport. In his address, in addition to recalling facts of that terrible struggle in the early sixties, Gen. Beaver told the old comrades that he has so far succeeded in gathering a great mass of historical matter for the history of the regiment which it is the purpose to publish in the near future and he requested all who might have knowledge of anything of interest to send it in. The movement for the erection of a monument to company E, at Belleville, was also spoken of and very favorably endorsed. The speech of Mr. Collins elicited considerable applause from all who were present.

DREADNAUGHT CARS.

The nub of railroading is first-class equipment and reliable service. The Pennsylvania Railroad provides this for the public. For many months big all steel coaches, built like Dreadnaughts, have been operated on all through trains. Their easy-riding qualities and steadiness of motion have been widely praised. The all-steel dining cars too have distinct advantages over the wooden ones. They are stronger and steadier, and the act of eating is made more enjoyable by the smoother movement.

There are also some steel Pullman Cars—Combined Parlor-Smokers and Baggage—in the service now. Travelers like them. They have plenty of elbow room and they glide over the rails. The Sleeping Cars are coming. Some four hundred parlor and sleeping cars will be in use by Summer.

These steel coaches and cars are the strongest vehicles ever built for passenger transportation. They are fire proof, break proof and bend proof. They represent the climax of safety and the perfection of comfort in railroad travel.

The Pennsylvania Railroad has always been the leader in all manner of improved equipment as well as in all methods of making their patrons more comfortable. This is why it is known and honored as The Standard Railroad of America.

Life Guards.

The Life Guards are two regiments of cavalry forming part of the British household troops. They are gallant soldiers, and every loyal British heart is proud of them. Not only the King's household, but yours, ours, everybody's should have its life guards. The need of them is especially great when the greatest foes of life, diseases, find allies in the very elements, as cold, influenza, catarrh, the grip, and pneumonia do in the stormy month of March. The best way that we know of to guard against these diseases is to strengthen the system with Hood's Sarsaparilla—the greatest of all life guards. It removes the conditions in which these diseases make their most successful attack, gives vigor and tone to all the vital organs and functions, and imparts a genial warmth to the blood. Remember the weaker the system the greater the exposure to disease. Hood's Sarsaparilla makes the system strong.

—If much chilled, the lamb should be taken at once to a warm room, and plunged in water as hot as the hand will stand.
