ANOTHER AMERICAN LIME AND STONE COMPANY PLANT STARTED UP .-- On Friday of last week Hon. A. G. Morris, president of the American Lime and Stone company; Hon. A. A. Stevens, vice president and general manager, and J. H. Mc-Lanahan, secretary and treasurer, held a meeting in this place and decided to put No. 17 plant on the state road in immediate operation. Men were put to work on Sunday putting things in shape and work was started in the quarry on Monday morning. The kilns were filed and fired on Tuesday evening. This plant has been idle for over four years and its resumption means steady employment for about thirty men. All the plants of the company in this section are now in operation except No. 21, at the Humes farm above Coleville, and it is in shape to start up at a day's notice whenever the demand for lime and stone will justify it.

The officers on Friday also authorized the erection at their No. 25 plant on Bellefonte Central railroad of an immense plant for grinding limestone for use on land as a fertilizer and for use in giass factories. This plant will be equipped with an Allis-Chalmers No. 6 crusher, two Jeffrey mills, two Kent mills and Mc-Lanahan rolls and will have a capacity of three hundred tons per day. All the machinery is already on the ground with the exception of the crusher and as work on the building of the same will be pushed as rapidly as possible it is expected to have it in operation in six weeks or two months. This plant when completed will give employment to from sixty to seventyfive men and will give the company a capacity of five hundred and seventy-five tons a day of 'the fine grade of ground limestone, not counting crushed stone,

The American Lime and Sfone company is the biggest industry under one management in this section. They now have in their employment here over six hundred men and this number, it is expected, will be increased to eight hundred or more before the summer is half over.

A NATIVE CENTRE COUNTIAN HONORED. -Rev. Isaac Krider, pastor of the Lutheran church at Duncansville, Blair county, has been highly honored by being elect- Tuesday morning. ed a member of the National Geograph-

"The North Pole Map," in nine colors, recognition is that it is deserved. Rev. cemetery. Krider, during his successful ministry, has kept up his studies in civil engineering taking and accurate skill.

A GENEROUS OFFER.-Hon. A. A. Stevens, of Tyrone, is one of the strongest agitators in favor of good roads and at the same time is willing to do what he can to induce the building of better highways, and to this end has made the following open offer to all the supervisors who have control of the Bald Eagle Valley road between Tyrone and Bellefonte: That he will furnish all the crushed limestone delivered on the ground and three experienced concrete men to have charge of the work if they will remove all the bridges and heaped up drains and put in concrete bridges and culverts at a grade that would give a level highway. The Rald Eagle Valley road in dry weather is a good road for automobiling, and is marred only by the numerous small bridges which are either built a foot or two above grade or that much below, so that they are an impediment and menace to comfortable driving and riding. With these out and a perfect grade made the drive from here to Tyrone would be almost like along a boulevard. It is not yet known whether the supervisors will accept Mr. Stevens' very generous offer or not, but every man who drives that road, whether in an automobile or go-cart, should bring all his influence to bear to urge them to do so.

urday evening. Last October while on his way home from work at the Pennsyldead, having expired in his wife's arms, afternoon. Death was evidently due to apoplexy.

George Fremont Dunkle was a son of Michael and Julia Carner Dunkle and was born at Hublersburg, this county, in 1851, being at the time of his death 59 years, 6 months and 14 days old. Though his occupation through life was that of a common laborer, he was a man of noble heart and disposition and was universally liked by everyone who knew him. He was a man of great energy and always industrious good neighbor and a kind and indulgent husband and father. He joined the Presbyterian church many years ago and was always a faithful member.

He is survived by his wife and five children, namely: William, Miriam, Edwin, Walter and George, the oldest being fourteen years of age. His parents are both dead but of his brothers and sisters the following survive: Frank Dunkle, land-U. S. army, now stationed on the island of Mindano in the Philippines.

The funeral took place from his late home in Beech Creek on Tuesday after- one present. noon. Rev. Hersey had charge of the services and burial was made in the Fearon cemetery.

COLDREN.-A month or six weeks ago William H. Coldren, of Pleasant Gap, underwent an operation, in the Bellefonte hospital, for appendicitis. The operation was a success and Mr. Coldren recovered sufficiently to be taken home. In fact, he felt no pain or inconvenience as a result of the operation, but shortly after going home he was attacked with rheumatism and later kidney trouble developed resulting in a complication of ailments from which he died at five o'clock on
