Grand Trunk Freight Tie-up Averil, dead, but still grasping the Burglar Kills Ira G. Rawn

Official Says Backbone of Strike Will Soon Be Broken, But Men Are Confident They Can Keep Traffic Tied Up.

With its more important passenger schedules fairly well maintained, the pressing problem confronting the Grand Trunk railway in Montreal, Can., lies in the continued and apparently complete paralysis of its freight traffic.

This condition the striking conductors and trainmen declare to have been precisely their objective when, to the number of 16,000 or more, they left their various posts on the comnight.

Murder Is Climax of Wave of Crime In Suburb of Chicago-Believe Dead Man Wounded Assailant.

Ira G. Rawn, president of the Chicago, Indianapolis & Louisville railroad (the Monon route), was murdered in his home at Winnetka, a suburb of Chicago.

The police authorities are searching for a wounded man as the suspected murderer.

While none in Mr. Rawn's home saw the shooting, it is believed that Mr. Rawn shot his assailant, as the police discovered a trail of blood. This was about 100 feet in length, a short dis tance east of the house.

Two shots were heard by Mr. Rawn's family, and his revolver was found with one discharged cartridge in it. Only one bullet was found. It is believed that it is the one that went through Mr. Rawn's body just below the heart.

While it is generally believed by the police that the intruder entered the wrong home to commit burglary, twenty private detectives working on the case for Mr. Rawn's family, intimate that there may have been another motive.

The private detectives declare that the work of the man who broke into the house was not that of an expert burgiar. A screen door through which he entered had been forced open by breaking off the latch. The detectives assert that a burglar could easily have cut away the screen without making the noise which must have been caused by the breaking of the latches and which is thought to have awakened Mr. Rawn.

Chicago hospitals and physicians have been asked to notify the police promptly should they be visited by any person suffering from a bullet wound

Mr. Rawn recently was a prominent witness in the Chicago & Western Indiana railroad cases, in which alleged real estate frauds aggregating \$800,-000 were charged against former officials of the road. The case against one of the men is still pending.

Mr. Wayman, the state's attorney, said that he was satisfied that Mr. Rawn's testimony in the Chicago & Western Indiana fraud proceedings had nothing to do with the murder. Mr. Wayman said he had looked over the testimony and that he thought it contained nothing by which Mr. Rawn could have incurred the enmity of any one.

The murder of Mr. Rawn is the cli max of a reign of crime that has driven the residents of the North Shore suburb almost to a frenzy.

The man who shot Mr. Rawn had forced open the basement door and was heard prowling about the first floor by Mr. Rawn, who went downstairs with a revolver to investigate. hers of the family heard him say thirty boarders, is reported by Penn-"What do you want here?" and two sylvania hospital authorities as restshots were fired immediately after ing easily.
