The Rittersville Hospital Scandal.

The Philadelphia architect who was employed by the State to investigate the Rittersville hospital scandal is at obvious pains to be as lenient as possible. He couldn't help reporting irregularities and graft. The evidence was so abundant that a blind man could see and one didn't need the technical knowledge of an architect to discover the bad work which is apparent everywhere. Nearly \$2,000,000 have been expended in the nine years since the enterprise was begun and not a patient has been accommodated and no part of the work is sufficiently advanced toward completion to make it available for patients in the near future. But even in the face of these facts no suggestion of graft is made.

The architect does admit that one firm of contractors was favored, that inferior materials were used and that the buildings have been practically ruined by exposure before they have been completed. He "owns the soft impeachment" that the site was badly chosen and cost vastly more than it was worth and he acknowledges that the architectural work is atrocious. But he doesn't intimate that any of those responsible for these things is culpable, though he might easily have made a "goat" of former Auditor General SNYDER, who is yet a member of the commission, though he is in the penitentiary for other grafting operations. He was probably afraid that such aspersions might involve some who are not yet convicted and inculpate some favorites of the machine.

The truth of the matter is that grafters are shielded by the machine and will continue to be until the machine is voted out of power entirely. Four years ago Governor STUART promised a vigorous prosecution of the capitol grafters but he has done nothing to fulfill his promise, for the conviction and sentence of Dr. SNYDER and SHUMAKER was merely a subterfuge. If STUART had been defeated for Governor half a dozen distinguished politicians would now be languishing in prison and grafting would have been made so odious and hazardous that no criminal impulse would have dared venture it. The Rittersville operations have not been as extensive as those in the construction of the capitol but they are quite as venal and if GRIM is elected Governor there will be a cleaning up.

Another Rebuke for Roosevelt.

The New York Republicans have declined to commission THEODORE ROOSE-VELT as political dictator. At a meeting of the State committee of that party for Mary and Elizabeth. The funeral was a clothing and gents furnishing store in that State, the other day, Mr. LLOYD C. GRISCOM proposed the ex-President for temporary chairman of the coming Republican State convention. All the federal office holders in the body voted for him but he was defeated by a large majority and Vice President SHERMAN was designated for the honor. Under the shadow of scandal in connection with the Indian land frauds, the selection was eminently fit. Yet we cannot withhold an expression of admiration for the spirit that opposed ROOSEVELT.

The plain inference is that the Republican party of New York is hopelessly divided. During the closing months of his own administration and thus far during the administration of TAFT, an alien element, that is a non-resident contingent, has undertaken to manage the Republican party of New York. Young GRISCOM, conspicuous in the shipbuilding trust but a citizen of Philadelphia, was made president of the New York city organization, recently, in opposition to the wishes of the local voters of that faith, but in the interest of the ROOSEVELT propaganda. The vote adverse to ROOSEVELT for President of the coming convention, is an expression of resentment against this ac-

Of course ROOSEVELT will not tamely submit to the humiliation of defeat. He is not used to being thus flouted. But we believe that an appeal to the Republi-can electorate will confirm the action of the committee. Manly men do not yield ssism. Upon his return from the jungle ROOSEVELT at once assumed the role of party dictator and issued orders to the Legislature to enact a particular law. The Legislature refused to obey and the "Aristocratic Order of Office Holders," was greatly outraged. This second rebuke, however, will probably open the eyes of the autocrats to the fact that all the people are not slaves.

An Honest Confession.

It is a mistake to surmise that the Keystone arty was launched to elect BERRY or anyone else o office.—Centre Democrat.

Right you are brother KURTZ. "The Keystone party was not launched to elect BERRY or any one else." It was started to divide, distract and discourage the Democracy and to corral Republican votes, that but for it, would be cast for the Democratic nominee-thus aiding the Machine in the most effectual way possible. And it is doing exactly what it was launched to do.

He is a queer Democrat who is willing to do-and is proud of doing-this kind of work, and our neighbor of the Democrat seems not only anxious, but actually aching to do as much of the discreditable job as is possible for him to accomplish.

ADDITIONAL LOCAL NEWS.
