thanks to all those who so generously contributed toward the success of the sale. A most gratifying feature of the undertaking was the perfect accord and good purpose with which every one worked. The result of over a thousand dollars must certainly be gratifying to Mrs. Joseph Ceader and Mrs. D. H. Hastings under whose direction the sale was conducted. The fact that there was not a cent of expense attached to it is the lend a hand to so worthy a cause. It so far exceeded all expectations that there can be no no question of the endorsement that has been given through it of

the splendid work that is being done at Among those who contributed to the

The liberality with which the people everywhere helped toward the stupendous success of this sale has led the Ladies Auxiliary to establish a "hospital week" to be held every year about the last week in September and to this end ask the aid of the people all over Centre county. A good way to do will be to secure a box now and during the year when you have anything you don't want or are willing to contribute toward the rummage sale pack it in the box, and when it is time for the sale next year send in

your box. In addition to those who contributed articles of various kinds for the sale the Buckingham Cigar company, of York, gave five hundred cigars which were sold for \$24.00; in their penny collection the public schools of Bellefonte gave \$16.75; the primary school of the Bellefonte Academy eighty cents and the parochial school \$1.50. STREAMS ARE LOW -Notwithstanding the fact that last month was one of the rainiest Septembers we have had in years, the rainfall in Centre county being considerably above normal, all the streams in Centre county are unusually low. In fact they have almost the appearance of a prolonged drought. This is especially the case with Spring creek right here in Bellefonte. During the day when the flouring mill of Gamble, Gheen & Co. is

in operation very little water comes over the falls above the WATCHMAN office. And at night the flow is small owing to the fact that Mr. Wagner is compelled to confine all the water possible in the dam above Roopsburg in order to have power enough to operate the Brockerhoff mill during the day. Of course if Spring

creek was not exceptionally low it would not so easily show the effect of the water used by the above two mills. And what is true of Spring creek is the case to a others are not suffering for the lack of ularly. water.

with his neighbor Geo. Hazel, and actually George was looking as orthodox as Jake. It was Rash Hashana, you know, the Jewish New year, and a very religious day among them, and George was so unusually minus that "cut up" disposition of his that we came to the conclusion that if there has been any proselyting done on Willowbank street Finklestine has been doing it and not his
