will be remembered that as late as 1902 the late Senator QUAY rejected ELKIN as a Gubernatorial candidate for the reason that his record was atrocious. "The party couldn't carry such a load." Senator QUAY is said to have declared to Justice ELKIN, and a man whose record was too bad for QUAY is hardly the sort of leader which real reformers would follow. Senator abscess on the brain. OLIVER is objectionable, no doubt, and ought to be defeated, but going from OLIVER to ELKIN is like "jumping out of the frying pan into the fire." It doesn't sound plausible.

If Senator SPROUL had announced him self as a candidate for the seat, however, things would look different. He is a capable and clean man and we can understand why the better element of his party might rally to his support for that or any other office. Such a movement will have to come sooner or later, moreover, As long as PENROSE is permitted to run things his own way there will be no place in the public life of the Commonwealth for men of a better type. He doesn't want men in office who might command the attention which he wants centred upon himself and he will not tolerate rivalry in the control of the organization. But ELKIN won't do and Senator SPROUL would better shift his energies.

It Might be Elsewhere.

with a trifle less than \$75,000 and New Jersey Democrats went down in their pockets for \$53,000 to whip the Republicans of that State. Here in Pennsylvania we gave our State committee the munificent sum of \$7,749 to fight the wealthiest, most unscrupulous and corrupt gang of political grafters that curses any of all our Commonwealths. Then after getting noon licked we stand round and wonder what

is the matter with Pennsylvania, or bleat about what might have been done "if the organization had only been all right." And it has been the same for the last dozen of years or more. Possibly if our Democratic people will look the situation squarely in the face and compare their own efforts with those of their brother Democrats in other States, they will find that the trouble here is not all chargeable to the few leaders who have tried to do their duty or to a failure of the organization to accomplish the work it might be

able to do if properly supported.

## ADDITIONAL LOCAL NEWS.

-----The people of Bellefonte and Centre county responded very liberally in the Thanksgiving donation to the Bellefonte hospital. The list of things contributed has not yet been completed but it was one of the most generous donations ever made, and included provisions and supplies of all descriptions, as well as money; for all of which the hospital authorities are truly thankful.

-A wireless telegraph station is to be erected at State College in connection with the electrical department, for demonstration and experimental purposes.
