Such a Thoughtful Woman. When the man and woman started down the subway stairs the man felt in his pockets for tickets.

"By George!" he said. "Isn't that a shame? I've got to stop in all this mob and buy tickets."

"Oh. no. you haven't," said the woman. "I have them. When I came downtown I remembered what you said about those people who buy only one ticket at a time making such a nuisance of themselves, so, as I had 15 cents to spare. I bought three tickets. I have two left. We can go right on through.'

So the man and the woman drifted along with the pushing crowd to the point where the ticket chopper held them up and demanded tribute. Then the woman looked in her purse for the tickets. Suddenly her face assumed a painful blankness.

"I-I haven't got them," she faltered. "I was in such a hurry when I came through that I must have dropped all three tickets into the uptown box."-New York Herald.

A Note That Was Paid.

History is constantly repeating itself. Once upon a time a landlady in Washington called on President Andrew Jackson and told of a government clerk who owed her a big bill for board. In those days it was easy to have access to the White House. President Jackson listened to her story and advised her to get a promissory note from the clerk and put it in bank. She replied:

"I've done that twice, general, and he won't pay even then."

"Is that so?" said the president in surprise. "Now you go and get his note and bring it to me. I simply want to see it, and I'm sure that the clerk will pay that note. Go and bring it to me.

The landlady did so, and soon returned with the promissory note. The president turned it over and wrote across the back of it his own indorsement: "A. Jackson."

That note was paid at maturity .-Cincinnati Commercial Tribune.

Waves In Solid Metal. As illustrating the advances in metallurgy and engineering it has been demonstrated that solid metals may reveal by their structure the vibrations to which they have been subjected. In explaining this phenomenon experiments have been shown proving that a beautiful wave structure can be imparted to the surface of mercury by the vibrations of a tuning fork, and that even the surface of solid lead which had been subjected to similar vibrations possesses a structure re-

#### Old Time Strawberries.

Strawberries have improved very much in flavor since the fifteenth century. Until then the only strawberries eaten were wild strawberries of a kind which would never find a market nowadays. By 1480, however, they were beginning to be cultivated, for Holinshed records under that date a particularly fine crop grown by the bishop of Ely in the grounds of his palace, now covered by Hatton garden. He quotes the Duke of Gloucester as

saying to the bishop: "My lord, you have very good strawberries in your garden in Holborn. I require you to let us have a mess of them." This speech was copied almost verbatim by Shakespeare in "Richard III." Still, even the bishop's fruit would not appeal much to modern connoisseurs, for

the garden strawberries at that period were only transplanted wildlings, the plants being sold at about fourpence a bushel.-London Standard.

Origin of the Piano.

The planoforte was directly evolved from the clavichord and the harpsi-

chord. In 1711 Scipione Maffel gave a detailed account of the first four instruments, which were constructed by Bartolommeo Chrustofori. It was no other. named by him the pianoforte and was first exhibited in 1709. Marius, in France, exhibited harpsichords, with hammer action, in 1716, and Schroter, in Germany, claimed to have invented the planoforte between 1717 and 1720. Marius was at first generally credited with the invention. Pianos of that period were shaped very much **New Departure** like the modern grand variety. The first square plano was constructed by sembling that of a vibrating surface in Business Frederica, an organ manufacturer of of mercury. UNTIL IT IS TOO LATE.

The appalling death-rate from kidney lisease is due in most cases to the fact that the little kidney troubles are usually neglected until they become serious. The slightsymptoms give place to chronic disorders and the sufferer goes gradually into the grasp of diabetes, dropsy, Bright'e disease, gravel or some other serious form of kidney complaint. If you suffer from backache, headache, dizzy spells; if the kidney secretions are irregular of passage and unnatural in ap-pearance, do not delay. Help the kidneys at once.

Doan's Kidney Pills are especially for kidney disorders-they cure where others fail. Over one hundred thousand people have recommended them. Here's a case at home:

Mrs. John Fisher, 51 S. Water Street. Bellefonte, Pa., says: "I can recommend Doan's Kidney Pills just as highly today as I did three years ago, I gave a public statement in their favor. A member of my family procured Doan's Kidney Pills from Green's Pharmacy Co. and received prompt and permanent relief through their use from an attack of kidney complaint. I have also taken Doan's Kidney Pills for backache and pains through my kidneys and they have always had the desired effect. You are welcome to publish this statement."

striking out the said section, and inserting in place thereof the following: Section 6. In the county of Philadelphia all the jurisdiction and powers now vested in the dis-trict courts and courts of Common Pleas, subject to such changes as may be made by this Constitu-tion or by law, shall be in Philadelphia vested in five distinct and separate courts of equal and co-ordinate jurisdiction, composed of three judges each. The said courts in Philadelphia shall be designated respectively as the court of Common Pleas number one, number two, number three, number four and number five, but the number of said courts may be by law increased, from time to time, and shall be in like manner designated by successive numbers. The number of judges in any of said courts, or in any county where the es-tablishment of an additional court may be author-ized by law, may be increased, from time to time, and whenever such increase shall amount: in the whole to three, such three judges shall compose a distinct and separate court as aforesaid, which shall be numbered as aforesaid. In Philadelphia all suits shall be instituted in the said courts of Common Pleas without designating the aumber of the said court, and the several courts shall dis-tribute and apportion the business among them in such manner as shall be provided by rules of court, and each court, to which any suit shall be thus assigned, shall have exclusive jurisdiction thereof, subject to change of venue, as shall be provided by law.

In the county of Allegheny all the jurisdiction and powers now vested in the several numbered courts of Common Pleas, composed of all the judges in commission in said courts. Such juris-diction and powers shall extend to all proceedings at law and in equity which shall have been insti-tuted in the several numbered courts, and shall be subject to such change of venue as provided by law. The president judge of said court shall be selected as provided by law. The number of judges in said court may be by law increased from time to time. This amendment shall take effect on the first day of January succeeding its adop-tion.

out of any durable substance that came to hand, such as leather, iron, tin, bronze and even the hard bark of the trees and stones of the fields. The Hollander, so late as the middle of the sixteenth century, made money of
