**Currant Bread** 

## How To Make Currant Bread

Housewives who have heard about the wholesomeness of Currant Bread and know that it is as nourishing as it is "good to eat" will appreciate these two new receipes :

No. 1.—Scald 2½ cups milk. When cool add three tablespoonsful sugar, a little sait, and butter the size of an egg. Dissolve ½ compressed yeast cake in half cup warm water and add to milk. Stir in flour enough to make a batter and add one pound of currants washed and dried. Add flour. When raised knead again and place in pans for baking. Be sure to allow enough time for bread to raise in the pans.

No. 2.—Scald (do not boil) 1½ cups sweet milk and one cup water. When tepid add ½ cake compressed yeast, two tablespoonsful of sugar and a teaspoonsful of salt Strin enough whole-wheat flour to make a stiff batter. Allow to rise. When light add one egg one tablespoonful of melted butter, 1½ cups of cleaned and drie/ currants. Beat well, then add whole-wheat flour to make a soft dough. Work well, mould into two loaves, let rajse until light, and bake throughly.

There is nothing so good as Currant Bread for growing children. It makes ideal school lunches. That no butter is needed is also worth considering. --57-7-4t\*
