The show was unusually strong in musical numbers, but lacked a sufficient amount of farce comedy to give it the real minstrel flavor. Forty-six black faced students greeted the audience when the curtain rolled up on the first part and supported by a fine orchestra Purcell Beattie, as director, led them that he will drive simply for the pleasure through the tuneful medley that made up their opening chorus. MAY MEAN STARTING OF FURNACE .-The iron market has shown some improvement the past few weeks and the result has been manifest in Bellefonte as the shipment of iron has been increased until now four cars a day are being sent out from the Nittany and Bellefonte furnaces. This means a shipment of about two hundred and forty tons daily. At this rate the stock on hand will be exhausted in six weeks or two months and it is only natural to conclude that this may mean the putting in blast of one of Franciscus, of Tyrone. the furnaces at least. Local men in charge of the company's business admit that there has been some discussion as to the advisability of putting the Bellefonte furnace in blast, but other than that there has been no decision in the matter and until there is the question of starting is an indefinite as it has been at any time in the past two years. But the very fact that the shipments of iron have been largely increased in the past ten days is at least encouraging.
