THINGS ABOUT TOWN AND COUNTY.

—A little girl was born to Mr. and Mrs. Thomas Howley, in the Bellefonte hospital, on Tuesday morning.

—A large delegation of the Bellefonte Lodge of Rebekahs paid a fraternal visit to the Centre Hall Lodge on Tuesday evening.

—Commencement celebration at State College begins tomorrow with the ball game between State and the University of Pittsburgh.

—A telegram received in Bellefonte on Wednesday announced the arrival of a young son and heir in the home of Mr. and Mrs. Arthur Harper, of Columbus, Ohio.

—Oscar Wetzel, book-keeper for P. B. Crider & Son, underwent an operation for gall stones on Friday night of last week and has since been getting along nicely.

—The Inhof family, who occupied one of the Zimmerman houses on east Lamb street the past eight or nine months, moved back to State College last Friday.

—On Saturday the Bucknell Academy boys will be here to play the Academy champions at 2 p. m. on Hughes field. It will be a good game. Go and root for the locals.

—Commencement exercises at State College next week will likely draw a big crowd, as visitors are already gathering there for the various social functions as well as the exercises proper.

—Farmers in various sections of the county report their oats crop as not being very promising. A very hard rain just after the sowing made the ground so hard that much of it did not come up.

—After three months' trouble with a bruised leg Hiram Fetteroff, of Bishop street, is back in his place in the Centre County bank. Cheerful and obliging as ever though not quite as nimble as usual.

—It is currently reported that one of the State College water companies has purchased the Thompson spring at Centre Furnace, one-half mile east of the College. The purchase price is placed at \$10,000.

—Weather vagaries are indeed frequent this season. After the beautiful weather of Wednesday and the almost freezing temperature of that night which would have expected a violent thunderstorm early the next morning?

—The Great Indian War Fight will be a feature picture at the Lyric this (Friday) evening. It is a thrillingly enacted drama and one of historical interest. Don't fail to see it. Matinee tomorrow (Saturday) afternoon at 2.30.

—About a month ago Dr. J. M. Brockerhoff ordered a Ford car through the Keichline agency but not being able to get immediate delivery he has cancelled the order and will buy a Flanders runabout from George A. Beezer.

—A. A. Dale Esq., is going around with a limp because of having tripped on a piece of carpet in a Clearfield hotel last Sunday night, falling and badly spraining one ankle. He was on his way home from delivering the Memorial day address at Bradford.

—Miss Marie Walsh, who has been pianist with Smith's orchestra for a number of years, played for the last time with that well known musical organization on Tuesday night of last week. The orchestra management are now looking for a man to take her place.

—On Tuesday Mary Caldwell had Mary Gallagher arrested for malicious mischief, claiming that the girl deliberately threw a stone through one of her windows. At a hearing the same evening Squire Musser put the costs upon the defendant, amounting to \$4.50.

—Last Wednesday was the birthday of Mrs. Simon Harper, of Centre Hall, and although she is in the Bellefonte hospital she was very kindly remembered by her many friends at Centre Hall and in Bellefonte by a postcard shower, wishing her a happy natal day and speedy recovery to good health.

—The Bellefonte Academy baseball team played their last regularly scheduled games in Bellefonte last Friday and Saturday, the University of Pittsburgh winning on Friday by the score of 10 to 7 and the Academy defeating Juniata College on Saturday, in a ten inning contest, by the close score of 2 to 1.

—On Monday Elias Heckman, who has been in Bellefonte the past three weeks on account of the critical illness of his brother, Daniel Heckman, went over to Centre Hall for the day and while there was taken suddenly ill. His condition at first was regarded quite serious, but he was somewhat improved yesterday.

—On Wednesday, June 29th, Mr. S. A. McQuestion, the Thomas street carriage builder, will be just eighty-three years old and his health is still such that he looks after his carriage business with the same business ability he displayed a quarter of a century ago. He also takes a keen interest in all public matters and especially in political contests.

NEW COURSES TO BE ESTABLISHED IN BELLEFONTE HIGH SCHOOL.—At a meeting of the Bellefonte school board on Monday evening it was decided to establish four new courses for the next school year. These will be a commercial course, which will include stenography, typewriting and general business methods. A course in manual training; a course in agriculture in which the most modern methods of farming will be taught, though at present there will be no actual demonstrations owing to the lack of experimental grounds; and in connection with the domestic science course a course in household chemistry, by which the girls will be taught how to analyze water, milk, foodstuffs, etc. Regarding the commercial course it will be one of the compulsory studies of the High school curriculum, as every student will be obliged to take at least one year of it. Manual training is a department that has been advocated for a number of years but never established because of the lack of room. The agricultural course is one that is strongly advocated by the new school code, while the girl's household chemistry course is also considered a valuable one.

Monday night was also the night for the election of teachers for the ensuing year and all the old staff of teachers were elected with the exception of principal Irvin O. Noll, who was not an applicant, as he has a good offer to become principal of a school in the eastern part of the State. Earle C. Musser was elected principal in place of Mr. Noll, at the same salary the latter received last year. In addition to his duties as principal Mr. Musser will continue to teach history. Mr. Musser's promotion and the establishment of new courses leaves two positions in the High school faculty to be filled. They are commercial and mathematical instructors. There are a number of applicants, each one of whom will be given due consideration before a selection is made by the board. As a matter of interest and also as evidence that school teachers are not scarce in Centre county it can be stated that the school board had close to ninety applications from young men and women who want to teach in the Bellefonte schools. The only increase in salary was that of five dollars a month for Mr. Hinman.

The board also passed a resolution in effect that every teacher in the Bellefonte schools must take a six weeks summer course at some college or advanced institution of learning in the branches in which they teach, or general school work, and superintendent Jonas E. Wagner has already decided on a six week's term at Columbia University, New York.

The board also decided to open the fall term of school on Monday, September 9th, and already the promotions and applications for admission to the High school aggregate 240 students. This will be a large increase over last year's enrollment and will already crowd the new building. However some of the lower rooms that were not used last year will be utilized the coming year in caring for the increased student body and the establishment of the new courses.

MEMORIAL DAY AT CENTRE HALL.—One of the most elaborate Memorial day services in the history of Centre Hall were those of last week. The patriotic spirit was displayed on every hand. The address delivered by Rev. R. Raymond Jones, of the Reformed church, was a scholarly production. The noted Coleville band furnished a number of their finest selections to the admiration of all present. While many families are under quarantine on account of measles the band, under the direction of Philip H. Meyer, visited all "Shut-ins" and gave them a musical treat, which was greatly appreciated by all. The day was one that will be kept in memory many years. The vocal selections were of a very appropriate character and rendered by Mrs. J. H. Puff, Miss Helen Bartholomew, Mrs. L. L. Moore, Mrs. S. S. Kremer, W. H. Bartholomew, Dr. I. V. Foster, Wm. Booser and Philip H. Meyer.

SILVER AVENUE.—Our greatly esteemed friend, Mr. James Wolfenden, of Lamar, just over the line in Clinton county, has been adding greatly to the comforts, conveniences and beauty of his very pretty residence the past month. He has sent us a photo of the improvements made thereon, and while he has always had one of the prettiest and most homelike residences in the Nittany valley, we doubt if there is now a brighter looking, more convenient or attractive place in all of Clinton county than "Silver Avenue." What Mr. Wolfenden does he always does well and we congratulate him, not only on the beauty of his home, its many conveniences and comforts, but on the good judgment that induced him many years ago to locate in so healthful, and pretty a spot as he now can proudly point to as his home. Others may well envy, but there is ample room and opportunity for them all to emulate his example.

HAZEL—SCHAEFFER REUNION.—The tenth annual reunion of the Hazel—Schaeffer families will be held on Wednesday, June 19th, at Madisonburg. A most interesting program has been arranged for the affair and it is expected to be one of the largest events of the kind that will be witnessed this year. There is no question as to the fact that the opportunity for a most enjoyable day will be afforded everyone who attends.

—Another big feature film will be exhibited at the Scenic in the near future. Watch for it.

—Among the graduates at the Dana Musical Institute, at Warren, Ohio, at the annual commencement on June 11th, will be Miss Marie C. Haugh, a daughter of Mr. and Mrs. John Haugh, of Benore. The young lady is a graduate of the Bellefonte High school and has quite a number of friends among the young people of this place.

—A petition has been filed in the office of the clerk of the court asking for the appointment of a guardian to take charge of the estate of the venerable William Witmer. A bill in equity has also been filed revoking the power of attorney granted to James C. Witmer and restraining him in the management of his father's estate.

—George Doll's new International delivery truck arrived in Bellefonte Monday evening and was delivered to him the next day. The truck was shipped to Lemont to W. H. Hoy for use as a baggage transfer but as Mr. Hoy was in no great hurry and Mr. Doll was it was brought to him and when the truck comes that was ordered by Doll it will be delivered to Mr. Hoy.

—Contractor R. B. Taylor is now at work on the paving of High street between the two bridges and up to opposite the Potter—Hoy hardware store. About half the work is done and the entire job will be completed next week if the weather is favorable. It will undoubtedly be a big improvement to this part of the town, and when the new concrete pavements are laid on both sides of the street it will have a rather dignified appearance.

—The graduating class of the Bellefonte High school took a trip to Filmore, last Friday evening, to the home of Mr. and Mrs. Philip Resides, where they were entertained very hospitably. Gamble Rice drove the team and some time during the evening one of the horses had an attack of colic, which delayed their return several hours, so that it was three o'clock Saturday morning before they arrived home, a thoroughly tired out and sleepy bunch.

—In our report of the High school commencement last week, in announcing the prize winners, we stated that Dorothy R. Jenkins was awarded the Dr. and Mrs. Thomas R. Hayes "special merit" prize. This was a mistake as Miss Jenkins was awarded the prize because she had a grade of ninety or better, and this prize is open to every student who makes such a grade, be there one or a dozen. It is given especially as an incentive to hard study and good records.

—When the evenings are hot and oppressive and you feel out of sorts with yourself and the world in general try the Scenic. The big suction fan keeps the atmosphere in the room pure and comfortable and the pictures will make you forget all your ills and worries. Three thousand feet of film, a full hour's entertainment every evening, is what you get for a nickel. Can you buy that much pleasure and good entertainment anywhere else for the same amount of money? Try it once and see.

—Last Saturday P. L. Bratton, a Bradford traveling man, went to Philipsburg and decided to remain there over Sunday. He spent Saturday night in a house on Pine street and some time during the night, while he was asleep, his pockets were picked to the extent of \$160. The next morning Delroy Casker, aged sixteen years, and Bruce Nelson, aged sixteen years, were arrested and accused of the theft. They confessed and returned \$100 of the money, without accounting for the other \$60. The young men were held under \$300 bail each for trial at the next term of court.

—Three weeks ago Miss Belle Weaver, stenographer in the office of Gettig, Bower & Zerby, went to Harrisburg to visit relatives and last week she spent in the home of her niece, Mrs. Emory Wolf, who prior to her marriage was Miss Mary Weaver, a daughter of Mr. and Mrs. H. C. Weaver. Mr. Wolf is employed on the Mt. Pleasant Press but for several days during the latter part of the week he remained at home because he was not feeling well. On Saturday he grew worse and a physician was summoned who at once diagnosed his ailment as a case of malpractice. The man was at once removed to the sanitary hospital and the Wolf home, including Miss Weaver, quarantined.

—Last Thursday J. W. Stewart, of Philadelphia, who is here looking up the various water supplies throughout Centre county as well as the sewerage systems of the different towns for the State Board of Health, drove to State College with a lively rig secured at Thompson's livery stable. Returning home he had just passed through Lemont when the horse made a plunge and threw the buggy into a passing vehicle, locking the wheels. Mr. Stewart was thrown out and received several cuts on his hands and one leg and a number of bad bruises, but fortunately sustained no broken bones. The plunging horse tore the shafts loose from the buggy and ran up the road a half mile or so where the shafts caught in a wire fence and the animal was caught by a passerby. Mr. Stewart at once notified Mr. Thompson as to what had occurred and then came home by train. The horse and broken buggy were brought home the same night, the only injury the horse sustained being a slight scratch. According to report the animal has a habit of running off without any provocation, a fact Mr. Stewart did not know.

STATE TAKES OVER ROADS.—Dating from midnight last Friday night the State took over eight thousand miles of public roads throughout the Commonwealth, all of which will at some future date be converted into state highways. In the meantime the State will have to maintain all the roads taken over. In Centre county the routes are from Bellefonte to the county line in the Seven mountains on the route to Lewisport, approximately a distance of 18 miles; from Centre Hall to the line in the Narrows below Woodward, a distance of 17 miles; from Bellefonte down Nittany valley to the county line, a distance of 13 miles; from Bellefonte by way of State College to the Huntingdon county line at Pennsylvania Furnace, a distance of 24 miles; from Milesburg to the county line near Bald Eagle, a distance of 10 miles; from Milesburg to Philipsburg, a distance of 12 miles, making a total of about 119 miles of road in this county that will in the future be maintained by the State.

Naturally the public in general is anxious to know just how this will be done and for the information of everybody we publish the following facts: State Highway Commissioner Bigelow has divided the State into fifteen districts and each district will be in charge of an experienced engineer. Under him will be one or more superintendents, according to the extent of the territory. Each superintendent will have about 150 miles of highway to look after and will be supplied with sufficient men to do the work.

The improved highways will be patrolled by men who will have stretches of from one to three miles of road to maintain. This position will be a good deal like the "white wing" job in the cities. The caretaker will be supplied with crushed stone and liquid asphalt. When a hole is found in the highway it will be his duty to make the necessary repairs. He will also have to keep the weeds cut down along the roadside and see that the culverts are kept open and in repair.

The thousands of miles of dirt roads embraced in the state highways are to be kept in condition at the expense of the State. The superintendent of the district will be supplied with drags, scrapers and the necessary machinery to make these highways as smooth and durable as possible. The gutters are to be kept cleaned and the weeds and grass of the roadside are to be cut. Loose stone will not be allowed to collect in the roadways. It means that for a good portion of the year these thoroughfares are to be maintained in much better condition than they are at present because the gangs will give their constant attention to the work, and the man who fails to make good will not last long under Commissioner Bigelow and Chief Engineer Samuel D. Foster.

The work in Centre county will be under the direction of engineer J. T. Gephart, of Clearfield, and the direct supervision of superintendent W. D. Myer, of Bellefonte. To enable the engineers to cover their districts with dispatch the State Highway Department has furnished each one a new 1912 Cadillac car.

WORK ON NITTANY VALLEY ROAD TO BE STARTED AT ONCE.—Work on remodeling the Nittany valley road from Bellefonte to Cedar Springs will be started this week by the State Highway Department. On Wednesday morning the contract for all the crushed limestone which will be used on the job was awarded to the Chemical Lime and Stone company and the Whiteoak Quarries, the latter only bidding on for from three to four miles at this end of the road. The estimate is for one thousand tons of stone to the mile of road, which will mean 19,500 tons all told. The first shipment of stone was made from both plants on Wednesday afternoon. The work will be started at the borough line, connecting with the State highway, and built from this end down the valley. A force of fifty men will be put to work, enough of them practical road builders to assure the job being properly done, and the balance of the crew will be engaged here. It is estimated that three thousand feet of road can be built in a week, at which rate it will take all summer to do the work. It is possible, however, that the above force of men may be increased later so as to complete the job before cold weather in the fall. A steam roller for the work arrived here on Wednesday and is now standing at the borough line on Bishop street.

BIG SUMMER SCHOOL FOR TEACHERS AT STATE COLLEGE.—The summer school for teachers will open at State College on Monday, June 24th, and the present outlook is for a very large attendance. Already there are in the neighborhood of six hundred teachers entered for the six weeks course and this number is likely to be considerably increased, so that it would not be surprising if from seven to eight hundred teachers spent the midsummer there. In fact the number already is so large that some of the teachers have applied to the different fraternities for the use of their houses and these will be turned over to them when they arrive at the College.

NEWS PURELY PERSONAL.—Mr. and Mrs. Frank Woerner spent last week in Williamsport, where the former's father, John Woerner, is quite ill.—Mrs. William Bell left Bellefonte Sunday of last week with her son, D. Having gone up the day before Memorial day with an automobile party, John has been spending much time motoring to the different places of interest near Tyrone, in addition to being a member of a number of fishing parties.—Rev. W. P. Van Tries, of Altoona, with Mrs. Van Tries are expected in Bellefonte Monday, and while here will be guests of Mrs. Louise Harris, at her home on Allegheny street. Rev. Van Tries is attracted to Centre county at this time by a reunion of his class at State, consequently a part of the week will be spent attending commencement.—John Lawrence MacAvoy in charge of a forest reserve in Clinton county has been in Bellefonte for a short visit with his brother C. G. MacAvoy. Mr. and Mrs. MacAvoy have also been entertaining Mr. MacAvoy's mother, who came from Harrisburg last week with her grandsons Charles, who had been visiting for two weeks in Harrisburg.

—Eleanor Parker and her sister Mary Charlotte, daughters of Mr. and Mrs. G. Ross Parker, went to Somerset the fore-part of the week, where they will join their sister Emily for a visit with Mr. Parker's relatives, Eleanor and Mary will be the guests of their aunts and uncle for two or three weeks, while Emily will not return to Bellefonte until fall.

—Mr. and Mrs. George Pearson, of Pittsburgh, with their daughter Georgie, came to Bellefonte yesterday to visit with the General and Mrs. James A. Beaver until the beginning of the week. While guests of General and Mrs. Beaver, Mr. and Mrs. Pearson will during their stay, spend a part of their time attending the commencement exercises at State College.

—William Brouse left Bellefonte Monday morning for Huntington, Indiana, where the Eyre—Shoemaker Construction company has a big contract for building between fifty and sixty miles of railroad for the Pennsylvania railroad company, in the work of double tracking the Vandalia line. Mrs. Brouse did not accompany her husband but will join him later when he gets properly located on his new job.
