LUTHERAN CHURCH, BOALSBURG.
Repairs are being made on the Lutheran church at Boalsburg. A new roof has recently been put on, and frescoers are now at work on the interior beautifying the walls. The old pews have been removed and new ones will be placed. Leaded glass windows and new carpet are also on the list of improvements. The pulpit and choir platforms are being remodeled. This, with paint and some minor changes to be added will make the building more churchly than ever in its appointments, and greatly minister to the long felt needs of the congregation.

The annual Roll Call services will be held in the Baptist church at Milesburg on Sunday morning at eleven o'clock, and Harvest Home services in the evening at seven o'clock. All those who are willing to contribute of the fruits of the field or garden as a decoration for the latter services and contribution to the Baptist orphanage are requested to take them to the church on Saturday, when some one will be there to receive them.

The Funeral of Billy Rugh.
The People of Gary Did Honor to the Memory of Young Hero.

GARY, Ind., Oct. 20.—The funeral of Billy Rugh, the newsboy, who gave his crippled leg that skin might be grafted on to the body of Miss Ethel Smith thereby saving her life, was held here today and practically all Gary and many from surrounding towns attended. No building was large enough to accommodate the crowd and the services were held in the street.

Four brass bands played funeral dirges, six uniformed policemen were pall-bearers and a fire department automobile was the funeral car, while a company of firemen carried the flowers. Mayor T. E. Knotts and the councilmen with bared heads, walked at the head of the procession which conveyed the body to the railway depot where it was put aboard a train for Rock Island, Illinois.

Many women were in the line, which required more than an hour to pass the bier, which had been placed in the middle of the street.

Miss Smith was not able to attend but her father and brothers were in the audience.

The Gospel of Scarcity.
From the Winnipeg Grain Growers' Life.

The purpose of protective tariffs is to make scarce the necessities of life. This enables the protected manufacturers to put up the price. Yet they tell us that protection is a scheme to bring plenty within reach of all. Surely this is one of the wonders of the age. According to the gospel of scarcity high prices are low, and the less we can buy the more we really have. Truly this is a tangle which only the protectionists and the subsidized press can explain.

Roosevelt Must Rest a Week

Entrance to Grounds at Sagamore Hill Forbidden to All But Physicians and Friends of the Colonel.

"It's mighty good to be home again," said Colonel Roosevelt when he arrived at Sagamore Hill, Oyster Bay, N. Y., from Chicago.

A week of absolute rest is all that is required, in the opinion of his physicians, to put Colonel Roosevelt in the best of condition. At the end of that time, if he follows the strict regime which has been planned for him, it is expected that he will be able to take up the campaign in its closing days.

While a week has been set as the period of absolute rest, it was explained that for a considerably longer time Colonel Roosevelt must avoid hard work and that it will be impossible for him to attempt to make any speeches. Several weeks will be required for the complete healing of the wound and the knitting of the fractured ribs.

A bulletin from the former president's condition given out at the Progressive headquarters in New York said: "Rest and quiet are essential to him to avoid the possibility of wound infection. While Colonel Roosevelt is extremely anxious to take up the work of the campaign at the end of the week we are unable at this time to say that this will be possible."

The bulletin was signed by Dr. Joseph A. Blake, Dr. George A. Brewer, Dr. Alexander Lambert and Dr. S. Ury L. Terrell. The calling in of Drs. Blake and Brewer after the arrival of the Roosevelt party at Sagamore Hill caused reports to be circulated that the colonel's condition was not all that had been hoped for.

Six guards were stationed on the Roosevelt grounds and entrance to the property was forbidden to all persons except members of the medical staff caring for Colonel Roosevelt or friends who had made appointments by telephone. The guards were armed in the garb of workmen, and a significant bulge in the clothing of each one indicated that he was armed. No explanation was given out.

When he arrived at Sagamore Hill the colonel's wound was dressed and he went to bed immediately, with instructions to remain quiet all day. The physicians said the wound showed no ill effects from the trip.

Arrived at home, the colonel, spying William E. Baylis, one of his gardeners, saluted him with: "Hello, there, Billy." Ralph Amos, the negro butler, met the party at the door and the colonel smiled a "Hello, Ralph," to him. "Say, it's good to get home after that stay in the hospital," the colonel remarked to one of the doctors.

Scores of school children had "chipped" in their pennies and bought a big wreath of flowers to be placed in the colonel's room. The Oyster Bay children all know and like Colonel Roosevelt, and some of them played "hooky" so as to be on the ground when the colonel arrived. The Oyster Bay children were not the only ones who sent flowers to the colonel. The home-coming was a gala event at Oyster Bay. A number of store keepers closed up shop, so they could give their entire time to the celebration of the safe arrival of their distinguished neighbor.

The witness produced a contract agreement dated Aug. 13, 1902, providing for the deposit of certificates with the Morgan firm by Charles Deering, Cyrus H. McCormick, Harold F. McCormick, James Deering, Richard F. Howe, W. H. Jones and John J. Hesser.

BOOKS, MAGAZINES, ETC.

THE NOVEMBER WOMAN'S HOME COMPANION.—Woodrow Wilson, Democratic candidate for the Presidency, contributes to the November Woman's Home Companion an interesting article which is really a message to women. In it he develops the idea that those with whom we entrust our government at Washington ought, as he expresses it, to "keep house" for the whole people. Our revenues, he says, should not be put at the disposal of a governing class or of any limited set of governing influences. As he goes along Mr. Wilson illustrates his points with specific suggestions.

The November Companion contains many other entertaining special articles, among which are: "Women of the Campaign"; "The Girl in the Small Town"; "A Successful Stepmother"; "A Patient's Account of Days in the Hospital"; and "The Training of a Child."

Fiction is contributed by Justice Miles Forman, Kathleen Norris, Isabel Gordon Curtis, Beulah Marie Dix, Ward Muir and others.

In the "Ideas" department of the November Woman's Home Companion appears the following: "A good way to teach children housework and also give yourself a rest is to let them draw slips on which is written some duty to perform. Call it a new game."

POPULAR MECHANICS MAGAZINE FOR NOVEMBER.—Like the magic story book for which children are wont to long, each number of Popular Mechanics Magazine contains a complete new set of articles, all more marvelous than the last, but, unlike the story book, every one authentic. In the November magazine there are 308 articles and 266 illustrations, the range of topics being limited only by the achievements and developments of the period. The recent Bennett aviation contest is discussed by A. H. Zahm, who describes Ved. rines' thrilling challenge to American airmen with unmistakable import.

"Motorboating in Winter" is a backyard sport exploited in humorous style by George Fitch. "Electrifying in Airships," "Cl. Incess Poor Soldiers," "A Scrap-Iron Story," "Revival of the Bicycle," and "A Motion Picture Story" are subjects discussed editorially by H. H. Windsor. The cover design for November is developed from a railroad builder's scheme to construct monorails in Alaskan regions. Also, a proposed suspended monorail system for Chicago is described.

"The Rise of Photography" is traced by J. Gordon Ogden, in the ninth article of his interesting series on "The Wonders of Light." Among the other features for the month are: "Bird-Shaped Wings to Keep Aeroplanes from Upsetting"; "Model Shoe Designed for American Army"; "A Tornado Which Hurled a Ship"; "The Electrical Culture of Chickens"; "Completed Portions of the Panama Canal Cuts"; "Spraying Plants with Electrified Water"; "New Transport Ship for Submarines"; "Telephoning with Searchlights"; "Photographing the Curvature of the Earth"; and others. Practically all these articles are illustrated.

The November Short Notes and Amateur Mechanics Departments are full of Practical material. Of special interest in the Amateur Mechanics department are articles on: "How to Make a Candy-Pulling Machine"; "An Electric Shaving Mug"; and Remodeling a Talking Machine."
