

**TWO RAILROAD WRECKS.**—A bad wreck occurred on the Tyrone and Clearfield railroad near Sandy Ridge, last Saturday afternoon, when the local freight ran into the rear end of the work train. The freight engine was badly damaged and the two rear cars on the work train demolished, while four Italian laborers sustained minor injuries. They were taken to the Cottage hospital, Philipsburg, for treatment. Both the engineer and fireman of the freight train escaped without injury.

On Sunday morning about 9.15 o'clock an extra No. 1745, known as P-G-13, carrying high class freight, was wrecked about a quarter of a mile west of Mt. Eagle, on the Bald Eagle Valley railroad, piling up three cars of flour and two of apples. A new tower, that had just been completed but not yet occupied, was struck by the wrecked cars and demolished. Fortunately nobody was hurt. The wreck occurred after the passenger train west had passed but before the train east had passed, and naturally it was delayed until the track could be cleared, which was over two hours. The cause of the wreck has not yet been determined. On its way to Bellefonte the eastbound train struck and killed a cow near the bridge at Milesburg but fortunately the train was not derailed, and of course nobody hurt.

**Some Questions for Mr. Patton.**

HOWARD, PA., Oct. 28, 1912.

DEAR WATCHMAN:—The following questions are formulated and asked of Mr. Patton, that he may have the opportunity of answering the inquiries of voters, that are being made every day. Will that gentleman give us the information desired?

1. In the 62nd Congress, how did you vote on the bill called the Farmer's Free List? For the farmer or in favor of the trusts? Your record shows that you dodged the first vote but afterwards voted to sustain the veto of Mr. Taft in favor of the trust and against the farmer. Congressional Record Pages 1121-1174.

2. How did you vote on the resolution to investigate the Money Trust? Is it not a fact that you dodged this vote? The Congressional Record, page 5626 shows that you dodged this vote.

3. How did you vote on the Conference Report to the Sherwood Pension Bill, which gave the old soldier the most magnanimous pension yet granted by a government on earth to its aged defenders? Your record shows that you dodged this vote. Page 6545.

4. When the Childs' Bureau Bill, to conserve the lives of helpless little children obliged to work, was before the House, how did you vote? Dodged it as usual. Didn't vote. Page 4421.

5. How did you vote on the bill taxing white phosphorus matches so as to put a prohibitive tariff upon them to protect the dippers from the spread of that malignant disease known as fussy jaw? If you were for protection why did you not vote for that measure instead of dodging it? Page 4161.

6. Why did you dodge the vote on bill reducing duties on wool, as also the bill reducing duties on cotton, when you knew that woolen workers were so underpaid that they themselves could not even afford to wear woolen clothing?

7. Why didn't you vote to reduce the duties on chemicals, especially the duties on quebracho, an imported chemical largely used in tanneries. Would you please advise the voters how the duty on quebracho will protect either the tanner or laborers employed in tanneries. Page 2406.

8. Why did you vote against the passage of the free sugar bill? This tariff protects no laborer neither does it protect the farmer. It does, however, protect the trust and taxes the helpless consumer.

9. Why did you vote to sustain President Taft in the passage of the Iron and Steel Bill over his veto? Page 11797.

10. Why did you dodge voting on Rule providing for Discussion of Steel Trust Investigation?

11. Would you also further advise the voters what beneficial laws referred to in your printed letter of October 20th, received your support?

12. How do you expect Taftites to vote for you when you have repudiated Mr. Taft and his principles by a position of neutrality and how can honest Bull Moosers support you when you have failed to contribute to their campaign fund and refuse to come out for Teddy or any of his principles.

—Whatever else is in doubt with respect to the impending election it may be set down as certain that the third term ghost will be laid for all time.

**Vice President Sherman Dead.**

UTICA, N. Y., Oct. 30—After a long illness, James Schoolcraft Sherman, died at his home in this city, at 9.42 o'clock to-night, of uremic poison caused by Bright's disease.

He had been sinking ever since early morning, and it was realized that death was a question only of a few hours.

There was slight relief shortly after 7 o'clock, caused by an apparent improvement in the condition of the kidneys, but it did not prove real or lasting, and at best gave only temporary hope.

At 9 o'clock the patient's temperature rose to 106. From that time his condition rapidly passed from bad to worse until the end. Mr. Sherman was unconscious when the end came, and had been in that condition for hours.

All the members of the immediate family were witnesses to the final scene. In addition to Mrs. Sherman, there were in the death chamber their three sons, Sherill, Richard U. and Thomas M. Sherman and their respective wives; R. M. and Sanford Sherman, brothers of Mr. Sherman and Mrs. L. B. Moore and Mrs. H. J. Cookinham, sisters of Mr. Sherman.

Soon after Mr. Sherman's death Dr. Fayette H. Peck, the attending physician, issued the following statement: "The Vice President died at 9.42 p. m., without regaining consciousness for a moment. He was perfectly quiet. He died in the presence of his wife, her brother and sister, his two brothers and his three sons and their wives. He had been entirely unconscious since 7 o'clock when he had a period of partial consciousness lasting about 15 minutes. He died in a uremic coma as a result of Bright's disease, heart disease and arterio-sclerosis."

—As soon as possible after the small grain is harvested turn the stock into the fields to glean the waste grain and clean up the fence rows. A part of the money the land has produced still remains in the field after the grain has been harvested and removed. Animals can make available cash out of the waste crops.

—Briggs—"I have made a will leaving my brain to the hospital, and just got an acknowledgement from the authorities."

Lofty—"Were they pleased?"

—Briggs—"They wrote that every little helps."

**Boy Saved by Misplaced Heart.**

Because his heart is on the right side, little David Krunish left the Fordham hospital in New York well on the road to recovery.

If the heart had been normal, the physicians say, he probably would have been carried out in a coffin several days ago.

David, who is eleven years old, fell on a picket fence last Monday, and one of the spikes penetrated his breast three inches directly over the place where his heart should be.

**Try to Shoot General Menocal.**

An attempt was made to assassinate General Menocal, Conservative candidate for president of Cuba, as his special train was pulling in at Sabanilla.

Several shots were fired from rifles. Conservatives rushed from the train with revolvers in their hands, but rurales and guards interfered and General Menocal restrained the Conservatives from seeking revenge. One bullet struck the step on which Menocal was standing.

**Roosevelt Sues For Libel.**

A suit for \$10,000 for libel has been brought in Marquette, Mich., by a Detroit attorney, acting for Theodore Roosevelt, against George A. Newell, editor of the Iron Ore, of Ishpeming, Mich. The praecipe alleges libel in that Newell printed an article in his paper charging that Colonel Roosevelt was temperate in the use of language and liquor.

**"The Bible of the Body."**

That title has been aptly given to Dr. Pierce's Common Sense Medical Adviser, because to the physical nature it is a "light unto the path and lamp unto the feet." In this book the physical life and its mysteries are dealt with in the plainest English. From life's Genesis, wandering humanity is followed through desert and wilderness, and before it is always set the Promised Land of perfect health and happiness.
