New York newsboy, Dec. 12, 1902. Death in both instances was caused by strangulation. Hickey attributed his crimes to the excessive use of liquor. When drunk, he said, he was possessed of an irresistible mania for killing boys. He denied that he had committed other similar crimes, and

said he was repentant for his deeds and expected to pay the penalty. The confession was made to Wesley C. Dudley, the district attorney. The whole tale has been reduced to a formal statement and has been signed by

Hickey. Hickey is forty-seven years old and divorced. He has a son twenty-one years old. He is a chemist by profession and is possessed of the mildest

manners and the most ingratiating personality. Previously he has admitted to the police that he is a drunkard and on several occasions was the Keswick Colony of Mercy, where drunkards are given a chance to reform. It is located near Whitings, N.
