ALLIES BEGIN SHARP ATTACK.

1000 Turkish Soldiers Captured by Bulgarians—General Savoff Says Turks Must Be Driven Beyond Sea.

A sharp engagement began on the Tchatalja lines, according to a dispatch from Constantinople. The roar of the cannon is said to be plainly audible in the Turkish capital.

During a sortie by the Turkish troops from Adrianople 1000 of them were taken prisoners by the Bulgarians, according to a dispatch from Sofia.

The bombardment of Adrianople continues on all sides of the city. The heavy siege guns brought up by the Servian troops were trained on the principal works of the fortress.

According to a dispatch from Constantinople the bombardment has thus far resulted in only eight deaths within the city. Fifty private houses have been set on fire.

General Savoff, commander of the Bulgarian forces, has addressed an order to the army, declaring that the Turks' object throughout the negotiations was merely to gain time, but that the Bulgarians utilized that time to far greater advantage. He says:

"We are now entirely ready, in a better state of preparedness than before the declaration of war, and in order to break the enemy's resistance finally we shall have to overthrow him once more and scatter his hastily mustered and untrained hordes. We must hurl him to the ground and there on the battlefield dictate the terms of peace. The Turks must be driven beyond the seas."

Reports have been current for some time that the Turkish government purposes selling some of the crown jewels in order to supplement public subscription in aid of the imperial treasury. These reports have acquired some substantiation, owing to the presence in Constantinople of a representative of prominent French jewellers.

The grand vizier, Mahmoud Shefket Pasha, who left Constantinople, visited Hademkeul and returned to the city.

He reports that the Bulgarians have burned Izzendenkui and other villages, afterwards withdrawing from Tchatalja.

The following official dispatch has just been issued:

"The enemy, part of whose forces are concentrated in the vicinity of Gallipoli, sent a regiment Tuesday from Kadikeui to Kavak, where one of our detachments is stationed. An engagement ensued, lasting until evening and terminating to our advantage.

"When night fell, in accordance with a previous arrangement, the bulk of our troops withdrew towards Bulair, but the enemy was unable to pursue them.

"Another force of the enemy advanced and occupied Myriophyto, on the coasts of the Sea of Marmora, which is deefnded only by a few gendarmes. The sloop Zeaf has inflicted serious losses on a force of the enemy advancing in the direction of Charkeui (to the south of Myriophyto). This force was unable to advance beyond Xamilo."

Believed Millionaire's Son Fell From Cliff In a Daze.

The body of S. Homer Everett, the young society, club and business man of Cleveland, Ohio, who mysteriously disappeared last Saturday night, was found on the shore of Lake Erie in Lakewood, at the foot of a high cliff.

It is believer that Everett, who had been taken sick at a house warming, wandered out in a daze and fell over the cliff.

Everett's body was found by four young clerks, who had obtained leave of absence from work in order to look for Everett, and who probably will divide the $1000 reward offered by Sylvester Everett, the young man's millionaire father.

They spied a dark object on a narrow shelf at the base of the cliff, which is sixty feet high at this point. A rope was obtained and one of the party was lowered to the body, which was immediately identified.

Think French Motor Bandits Killed Victim High In Justice Department.

Edouard Peltier, a high official of the French department of justice, was murdered in his residence in Paris.

A woman nurse, who was attending him, also was killed.

The double murder is believed to have been committed by an uncaptured accomplice of the gang of automobile bandits, whose trial is going on in Paris. It is supposed that the crime was intended as an act of vengeance and warning.

Peltier formerly was chief of the bureau of pardons at the ministry of justice, but had been ill for some time. He was a man of considerable wealth. He was found strangled in a chair in his library. The nurse's body lay in another room, where, from all appearances, she had been hacked to death with an axe. About $1000 in cash was stolen.

Wilson Names His Secretary.

Joseph P. Tumulty, at present private secretary to Governor Wilson, will be secretary to the president after March 4, according to an announcement made by President-elect Wilson in Trenton.

This is the first announcement by Mr. Wilson of any of the many appointments that will be at his command after March 4.

The president-elect offered Tumulty the secretaryship a week ago and he accepted. He has been associated with Wilson since the gubernatorial campaign three years ago.

Entire Family Determined That Petted Sister Should Have What She Had Desired.

Clara is a north side miss who is very fond of outdoor amusements, and this means that it takes lots of toilet preparations to cure sunburn and keep her generally presentable. Clara watches the "sales" on her toilet accessories, for mother has taught her to be economical.

"Oh, dear!" exclaimed the daughter recently, "it just keeps my pocketbook flat buying stuff for my face and hands. I wish some good fairy would leave a couple of bottles of Blank's on my dresser." There was a sale on the preparation the next day and Clara got a bottle when she went downtown.

When Johnnie, who is going to high school, came home that evening he brought a bottle that he had bought with hard-earned 19 cents.

Mother came home from downtown and going up to her daughter's room she put two bottles of Blank's toilet lotion on the dresser. "There, daughter," she said, as she patted her on the back, "look what a nice mamma you have."

Big brother came home from the office, and, handing Clara a package, said: "Here, Sis, you're a pretty good sister. Here's four bottles of Blank's sunburn chaser. I braved a department store for you today."

Directly after the presentation speech of big brother, in came father, and with a father's prodigality for his only daughter, he handed her a package with the remark: "There, daughter, I know you can use Blank's toilet lotion in quantities. And, if a father can't buy his daughter eight bottles without a murmur I don't believe he thinks much of his little girl."—Indianapolis News.

VICTORY FOR ITALIAN PORTIA

Woman Lawyer in Rome Signalizes Debut by Obtaining Concession for Her Client.

After a determined fight, Signorina Teresa Labriola, professor of philosophy in the Roman university in Rome and a distinguished leader of the feminist movement in Italy, has succeeded in asserting the right of women lawyers to plead before the courts. Her debut has just taken place before the Military Tribunal, where she defended a private accused of having slapped his sergeant in the face.

The court was crowded, chiefly with officers and lawyers, who eyed the slim and attractive looking young Portia with curiosity. Signorina Lebriola wore an elegant black silk costume, trimmed with old lace, and a large picture hat. She was entirely self-possessed. Indeed, the president, Colonel Delfino, and his fellow judges, appeared far more perturbed than she.

The charge was a very serious one, and the prosecutor general asked for an exemplary sentence—four years' imprisonment. But after an impassioned address by Signorina Labriola, who was often interrupted by applause, the accused man got off with only four months. Signorina Labriola received the congratulations of the court and of all the lawyers present.

Some Fish Reports.

One thousand sword fish were caught in ten days in August by Nova Scotia fishermen, one ship bringing in five tons. As a consequence the market was glutted, and some sales were made as low as two cents a pound. Flishing is increasing in Nova Scotia waters to the extent that recently a million dollar corporation, known as the North Atlantic Fisheries, Limited, was organized. Holland is an extensive exporter of fish, especially to Belgium. The latter's total imports of fish and mussels for the first six months of 1912 aggregated $1,228,740, an increase of $86,349 over the same period last year. Imports of fish by weight in the first half of this year totaled 6,518,500 kilos (kilo, 2.2 pounds), Dutch herring figuring at 2,536,128 kilos. Mussels from Holland are also much in demand in Belgium, the imports for the month of June alone being 1,789,017 kilos.

She Says We're Much Too Slender.

A Russian princess who is now in Washington has created a commotion in social circles by criticising the American women for being much too thin. "American women of good breeding are slender to the point of emaciation," says the princess. "They hurry too much, that is the reason. Everywhere you see the American, whether she is going shopping, visiting or elsewhere, she is moving fast, as if she did not have a second to lose." The princess doesn't seem to realize that just now the one aim of the American woman is the extreme slenderness which she finds so unlovely.

He Wanted His Deserts.

Patrick, lately over, was working in the yards of a railroad. One day he happened to be in the yard office when the force was out. The telephone rang vigorously several times and he at last decided it ought to be answered. He walked over to the instrument, took down the receiver, and put his mouth to the transmitter, just as he had seen others do.

"Hillo!" he called.

"Hello!" answered the voice at the other end of the line. "Is this eight-six-one-five-nine?"

President-Elect Wilson Wants Sound Currency System to Prevent Disturbance to Business.

Information obtained from public men in Washington who recently have conferred with President-elect Wilson indicate that the legislative program to be submitted to congress at the special session will be limited to two questions:

First—A revision of the Payne-Aldrich tariff law.

Second—Amendments to the laws that will insure a sound banking and currency system.

To a recent caller at his office in Trenton the president-elect referred to the prophecies that have been made that the forthcoming revision of the tariff will result in widespread disturbance to business. He added that in his opinion a sound banking and currency system should be devised in order that such disturbance may be minimized as far as possible.

Sentiment is growing in congress that activities at the special session should be restricted. It is pointed out that the Democratic party is committed to enact legislation on four big questions: The tariff, banking and currency, supplemental laws regulating interstate corporations and Philippine independence.

For all practical purposes it has been decided there shall be no legislation at the special session bearing on corporations or the Philippines. The president-elect is understood to have made the statement recently that he will not ask congress to pass a law at the special session granting Philippine independence as authorized in the pending Jones bill.

There will be no disagreement between President Wilson and the congress leaders over the legislative program. He has been assured that the questions to be considered at the special session will be limited to those upon which he recommends action.

One prominent leader of the house advised the president-elect to recommend in his message to the special session that congress confine its labors to the tariff. Governor Wilson thereupon expressed his opinion that laws should be enacted that would prevent, if possible, disturbance to business, whether from artificial or natural causes, that might be expected to follow the enactment of a new tariff law. Later Governor Wilson expressed a like opinion to another Democratic leader who discussed the legislative program with him.

It is the opinion of the leaders, based on their knowledge of the situation and information that has come to them from Trenton, that President-elect Wilson will recommend that the business of the special session be limited to tariff revision and banking and currency legislation.

The president-elect has made it plain that he will not reach a final decision as to the extent of the legislative program until he has had an opportunity in his official capacity to confer fully with the Democratic leaders in congress.

Chooses Fifteen Lashes Rather Than Pay a Fine.

As a penalty for wife beating, Robert Phillips, a municipal employe, was given fifteen lashes in the Frederick, Md., jail.

Phillips was sentenced to sixty days in jail or allowed the privilege of paying a fine of $25. He refused both and chose to take the lashes.

It was the first public whipping in Frederick for years, and the lashing was witnessed by a large crowd. As there is no whipping post in the jail, the man was tied to a jail door, with all his couthing but a thin gauze shirt removed.

We heard a man say the other morning that the abbreviation for February—Feb.—means *Freeze everybody*, and that man looked frozen in his ulster. It was apparent that he needed the kind of warmth that stays, the warmth that reaches from head to foot, all over the body. We could have told him from personal knowledge, that Hood's Sarsaparilla gives permanent warmth, it invigorates the blood and speeds it along through artery and vein, and really fits men and women, boys and girls, to enjoy cold weather and resist the attacks of disease. It gives the right kind of warmth, stimulates and strengthens at the same time, and all its benefits are lasting. There may be a suggestion in this for you.
