MOTHERSBAUGH - HOMAN .- A quiet wedding took place at the Mr. and Mrs. B. F. Homan home near State College, at noon on Wednesday, when their daughter, Miss Gertrude Homan, became the bride of Charles Mothersbaugh, son of Mr. and Mrs. Owen Mothersbaugh, of near Boalsburg. Only the immediate members of the two families were present to witness the ceremony which was performed by Rev. Ira M. Sasserman, of the Lutheran church, and there were no attendants. Following the ceremony a wedding breakfast was served and later the young couple left on a wedding trip to Pittsburgh and other towns. The bride is a professional nurse and an excellent young woman. The bridegroom is a farmer by occupation and when his father retires on April first he and his bride will locate on the well known Mothersbaugh farm in Harris township and start right in tilling the soil. May success attend their efforts in every walk of life.

# A Fair Deal to All Nations.

Editor Watchman: DEAR SIR: Every American citizen should demand of his Government, that it deal, and treat fairly all nations with which it does business. This could be largely obtained by requiring all outgoing or all incoming merchandise to be distinctly marked just what it really is, and where there is more than one ingredient in a commercial package give plainly the proportionate amount of each. If this policy was enforced our people would know exactly what they were purchasing and would have an opportunity to obtain their choice.

In the matter of sugar they would to learn the difference in the processes resorted to in its manufacture. The first through rollers for the juice, then boiled down and refined by charcoal filter and granulated by vacuum fan-a clean, chemical procedure of manufacturing beet sugar. This, it is alleged, is so chemicalized that its iron causes the teeth to decay, and other complications, sometimes ending in premature death.

We even rob our tropical republics by the levy of an import tax on their rock candy sugar-a quality of which juice of the cane will cure consumption and reduce the cost of living by its healthfulness as food. The cane grows above the soil and having the same nutriment qualities as peas, beans and cauliflower, is free from the malaria that is produced by the starch in potatoes and beets. To obtain sugar from the latter requires, I think, similar treatment to that of obtaining glucose and so called grape sugar by the little known chemical process, which process should have the attention of our pure food commissioners and State College experts, as well as some publicity showing our policy of taxing health food products like cane sugar equally high with the chemically produced beet sugar. Let us all demand a just and fair policy toward our neighboring countries, and we will be doing only justice to ourselves as well as to them.

Yours faithfully, JAMES WOLFENDEN. Lamar, Pa., Feb. 19th, 1913.

THE ROSARY .- Seldom does an author portray such an important character as that of a Catholic priest, and have it meet with approval from the clergy. But this is just what has happened to Edward She was a daughter of Jonathan and E. Rose, author of "The Rosary," which Margaret Bennison, and was born at Mill will be seen at Garman's next Friday,

STILL CONTESTING MILES BUCK'S WILL. The fight over the estate of the late Miles Buck, of Halfmoon township, goes merrily on as is evidenced from the following item taken from last Friday's Altoona Times:

Testimony was taken yesterday afternoon before Judge Thomas J. Baldrige in the contested will case of D. Miles Buck,

a Snyder township recluse, who before know whether it was cane or beet sugar his death a few years ago willed his farm they were buying and would possibly seek to his brother-in-law, John C. Sebring, of Bellefonte. Buck was a bachelor, and his relatives who were cut out of his will declare that he was eccentric, and not of sound is accomplished by squeezing the cane mind. The witnesses to Buck's signature testified that they regarded him as men-tally sound, the cause for his alleged ec-centricities being that neighbors teased him a great deal because Miss Lela Basor, simple process, differing greatly from the chemical procedure of manufacturing proposal to him, which he refused. Testimony had previously been taken in the case, and the deposition of a witness re-siding in Erie (C. P. Hewes Esq.,) is yet to be taken before arguments can made on the legal phases of the case.
