—On Wednesday of last week while the William P. Mitshell surveying corps were at work on the Washington Furnace tract of land they scared up a buck, a doe and a fawn. The buck was a monster, it is alleged. The three deer lost no time in taking to cover in the dense undergrowth.

The Academy's opponents tomorrow evening will be the Pittsburgh Collegians and game will be called at eight o'clock. Both games deserve to be well patronized.

—The entertaining in Bellefonte within the week included a dinner given by Mrs. Louisa Harris Friday in honor of her guests Mrs. McClure and Mrs. Canfield; a card party the same evening at which Mrs. Charles Munsch was hostess and where four tables of five hundred were in play. Robb was hostess at a card party last night, the guests numbering twelve of her girl friends. For the Washington birthday party to be given by Miss Winifred M. Gates at her home on east Lamb street tonight, twenty invitations have been accepted.

BRIEF MEETING OF BOROUGH COUNCIL.—Seven members were present at the regular meeting of borough council on Monday evening. The reading of the minutes of the last meeting was dispensed with because the new minute book was not received in time for the clerk to transcribe same.

John J. Fisher, of south Water street, was present and made complaint about the condition of the creek in the rear of his home, which he stated was clogged with decomposed vegetable matter and sewage drainage, owing to a large deposit of coal ashes which had been thrown there by various persons. President Keller thought the matter was up to the Board of Health so referred the same to the Sanitary committee to confer with the Board and take whatever action was deemed advisable. They were also instructed to notify all parties living in that neighborhood to desist from making the creek a depository for ashes and other refuse matter.

A communication was received from a committee of the Woman's Civic club asking that the anti-spitting law be enforced. The Fire and Police committee were instructed to have posted a number of anti-spitting signs in possession of the burgess and also admonish the police to be more particular in enforcing the law, which prohibits spitting in public places, in the halls of public buildings and on the sidewalks or pavements. (Spitting on the street is not prohibited.)

Burgess John J. Bower reported that policeman William Beizer had that evening been placed in quarantine, as it was feared he had contracted the smallpox, and asked for the appointment of a substitute to serve until he was able to resume his duties. He also stated that either Jacob Knisely or George Eberhart would serve, and suggested that he be selected for night duty only. The matter was referred to the Fire and Police committee and they recommended the selection of Mr. Knisely and council so acted, he to receive the same rate of pay as the regular policeman.

The Sanitary committee reported that the Board of Health rules and regulations adopted into an ordinance at the last meeting of council had been published and printed in pamphlet form and the borough engineer was instructed to have the latter very carefully distributed, one placed in every house and business place in the town.

There being nothing further to transact bills to the amount of \$417.76 were approved and council adjourned.

PENNSYLVANIA CORN GROWERS WIN FIRST PRIZES AT NATIONAL EXPOSITION.—The fifth national corn exposition was held at Columbia, South Carolina, January 27th to February 8th, and a large number of prizes were taken by Pennsylvania growers. Of the six zone sweepstakes Pennsylvania won four, while J. W. Moore, of Bethlehem, won the national and world's sweepstakes for his exhibition of flint corn.

This corn, together with all samples which were exhibited at the State show in Harrisburg, January 22nd to 23rd, will be on exhibition at State College, on Corn Day, February 28th. In connection with the display of corn, a program will be carried out during both the forenoon and the afternoon, consisting of practical talks on "The Care and Testing of Seed;" "Selection of Seed Corn;" "Increased Yields of Corn Per Acre;" "Corn for Silage Purposes" and "Boys' Corn Clubs." In connection with this exhibition and program farmers are not only invited to be present, but are urged to bring with them five ear lots of their corn to be added to the above mentioned exhibit. Such samples may be taken by the farmers when so desired at the close of the meeting.

The Pennsylvania Railroad will run special excursions to State College on that occasion.

FOUNDRY BUSINESS GROWING.—Mr. C. A. Roberts, president of the Bellefonte Engineering company, arrived in Bellefonte this week to remain permanently and devote his energies to the building up of the business at the old Lingle foundry plant. Mr. Roberts was for eight years with the National Transit company of Oil City, is a practical mechanical engineer and under the supervision of himself and Victor E. Rehr, the general manager, the future of the new company looks rather promising. They now employ sixteen men regularly and are sending out work every day. This work is proving so satisfactory that they will be compelled to increase their force of workmen and it is possible that it will be doubled within a month. They are now figuring on a proposition in a new line of work and if it is taken up it may mean something big in the future. Every person in Bellefonte who is in a position to do so should lend all the encouragement possible to the new company.

M'CALLISTER SCHOLARSHIPS.—The Pennsylvania State College offers five scholarships, named in honor of H. N. McAllister, valid for the Freshman year, and worth about \$85.00 each, to the five counties of the State showing the highest ratio of students to the population of the county. One scholarship will be available beginning September, 1913, for each of the following counties: Blair, Centre, Dauphin, Elk and Wyoming. The county superintendent and High School principals in each county will make the appointment by competitive examinations before June first.

—Exclusive agency for Freihofer's hard and soft baked rolls, also bread, at MORRIS & SHEPHER.

—On Saturday of last week T. B. Buddinger, of Snow Shoe, sent a wild cat by parcel post to Charles H. Eldon, the taxidermist at Williamsport, for mounting. Though not very large the animal was a fine-looking specimen and it went through the mail route in fine condition. The cat was killed on the mountain near Snow Shoe.

—The young people's society of the Milesburg Methodist church will give an entertainment in the lecture room of the Methodist church Saturday evening, March 1st, at 8 o'clock. "Holly Tree Inn," dramatized from Dickens' story, "The Holly Tree," and a laughable sketch entitled, "Scenes in a Restaurant" will be presented. Admission 15 and 25 cents. Everybody is invited.

—At the Scenic you get amusement, entertainment and sometimes instruction for the small sum of five cents, one full hour of moving pictures. The place is kept thoroughly sanitary at all times by frequent fumigation and complete ventilation. Open every evening during the week except Sunday. The pictures are as good as any to be seen on this circuit, with special features once and twice a week. Manager Brown would be pleased to have you as a regular patron.

—We have thus far omitted to mention the fact that Trood Parker, who the past year or more has been employed in the New York Central shops at Jersey Shore, has been transferred to Clearfield and promoted to chief clerk in the engine house. Trood is a hustling young man and has the energy and determination to push ahead in any line of work he undertakes and the day is likely to come when he will occupy a place of prominence among the railroad men of the country.

—The three weeks of cold weather did wonders for the ice men. R. B. Taylor last Saturday completed filling his large ice house above Roopsburg with a fine quality of eight inch ice. It took the entire product of both his ponds but the yield was over two thousand tons. Philip Beizer filled one of his houses and has the other partly filled. A large quantity of ice has been shipped here from Hecla for private individuals, so that most people who store their own ice have been able to house the usual supply.

—Rev. C. T. Aikens, president of Susquehanna University, at Selinsgrove, and his brother, James Aikens, last week purchased the Nittany Inn block at State College for \$52,000. The block belonged to a stock company of which Rev. Aikens was one of the largest shareholders. It is the intention of the new owners to build up the entire block to a height of three stories same as the present hotel property, thus giving more room for the accommodation of the public. The deal is the biggest one in real estate pulled off at the College in some years.

—Granulated sugar, \$4.60 a hundred, to-day and to-morrow, (Friday and Saturday.) MORRIS & SHEPHER.

—About two weeks ago Harry DeLong and Ray Kunes, of Eagleville, and Fred Strawcutter, of Howard, track men employed on the Bald Eagle Valley railroad, jumped a freight train in Lock Haven to ride to their homes. When the train was coming up the grade below Eagleville the men set the brakes on several cars so as to slow down the train that they could jump off with safety. They were subsequently arrested for illegal train riding and interfering with the brakes and at a hearing before Squire Brown were fined ten dollars each and costs.

—Over one thousand people attended the public sale of Ammon Gramley, at Coleville, on Tuesday, which was one of the first big sales of farm stock, household furniture, etc., to be held in Centre county. The public sale season is on and from now up to the last of March there will be one or more sales for every day in the week. This is a feature more prominent in the farm life of Centre county, perhaps, than of any other county in the State, and can probably be accounted for in the large percentage of renters. All told there are upwards of one hundred such sales in Centre county every spring and the property that changes hands will aggregate over one hundred thousand dollars.

VARIABLE AUTOGRAPH SALE.—The large and valuable autograph collection of the late John Mills Hale, of Philipsburg, was auctioned off at Freemans, in Philadelphia, last Friday and Saturday, and the amount realized was \$25,000 with a small part of the collection still unsold. The highest price was paid for a signed letter of Nathan Hale, the Revolutionary patriot who was executed as a spy. It brought \$1,500. A letter of Abraham Lincoln brought \$1,000 and a document signed by George Washington \$900. Autographs of famous poets, writers and statesmen brought as low as ten dollars. A very complete collection of coins and many curies were included in the sale.

John Mills Hale was for years a resident of Philipsburg and collecting autographs, coins and curies was his pet hobby. He died some eight or ten years ago. He was a lawyer by profession and a member of the Centre county bar association. His sisters and other relatives still reside in that town.

SMALLPOX EPIDEMIC ABATING.—Notwithstanding the fact that the public in general throughout Centre county are still fearful of what they believe to be a dreadful epidemic of smallpox in Bellefonte and vicinity, the disease is abating and there has never at any time been the cause for fear or worry that has been entertained by people in the country.

Since the last issue of the WATCHMAN there has been only one new case, that of policeman William Beizer, who was stricken on Monday, and he undoubtedly contracted the disease by handling a man who persisted in breaking quarantine. As an offset to the above two quarantines have been lifted in Bellefonte and yesterday six quarantines, for a total of ten cases were, lifted in Spring township. The quarantines lifted were as follows:

- James Kelley, near Axe Tavern, "Irish Hollow," 3 cases.
- James Miller, Sr., Prossertown, 1 case.
- James Miller, Jr., Forge, 2 cases.
- Charles Miller, Forge, 1 case.
- William Hassinger, Red Roost, 2 cases.
- Mrs. David Hendershot, Forge, 1 case.

Of the other places still in quarantine most of the cases have recovered and the quarantine will be lifted within a few days, so that by this time next week, if no new cases develop, there will not be ten cases in the entire community, and of this number very few in Bellefonte. This is the actual condition existing here at the present time and why people outside of Bellefonte should make such a bugaboo about a condition that causes no alarm here is a matter beyond explanation. The WATCHMAN has at all times told the truth about the smallpox situation, and we assure our readers now that they can come to Bellefonte at any time without any fear of contracting the disease.

—Miss Ohnmacht and Miss Jennie Morgan, who occupy apartments in Crider's Exchange, will move from there into one of the Schads houses on Lamb street. Miss Ella Gates, who will take their apartments goes from the Sebring home on Howard street. Mrs. Jackson and her daughter, Miss Lida Jackson, who have for years lived in the Reynolds apartments over Meese's store, will after the first of April live in the apartment over Schad's plumbing store on Allegheny street.

From Mr. Tibbens' looks the climate, soil and grub of Virginia must agree with him amazingly well.
