The meetings still hold the interest of many people, because they are profitable. Mrs. A. H. Sloop will present the subject for discussion. Everybody is invited.

—George T. Bush has just received notice that he has been selected for the twenty-second time as delegate from Pennsylvania to the national assembly League of American Wheelmen which meets in Boston next September. Though this once strong organization has dwindled in numbers there are still enough left to keep alive the wheelmen spirit.

—Mr. Geo. H. Smull, of Smullton, Pa., with other prominent and influential citizens of Brush and Penns valleys are making an effort to get a Young Men's Christian Association at Millheim. Mr. Smull has been working to this end, most energetically, for some time and was in great hopes, when in town on Wednesday last, that success was about to crown his efforts.

—"The Third Degree", while a little over a year old, has already taken a firm hold on the public and bids fair to exceed the marvelous record of Mr. Klein's former work, "The Lion and the Mouse," on which the producer is said to have made a million dollars. "The Third Degree" is announced for production here on Monday evening, April 14th, at Garman's opera house.

One Killed, Three Hurt in Fatal Auto Accident.

Randolph Daggett Instantly Killed when Machine Plunged Into Post. Accident Happened when Party Was Returning from Hecla Park.

Randolph Daggett, the third son of landlord and Mrs. W. L. Daggett, of the Bush house, was almost instantly killed, and Charles Chandler, Frank Thomas and Joseph Knisely injured on Tuesday night in the first fatal automobile accident to a Bellefonte party. The stories of the unfortunate affair are rather conflicting and it is just possible that the exact truth has not yet been divulged.

The party was gotten up by Robert Cole Jr. It appears that last Saturday evening he came down from State College and hired a car at Keichline's garage to take a party down to Hecla park. When they returned and paid for the car he engaged it for the next night, paying in advance. For some reason he was unable to take the trip at that time but on Tuesday came to Bellefonte and that evening arranged for the trip to the park, inviting Randolph Daggett, Frank Thomas and Joseph Knisely, a son of Mr. and Mrs. George Knisely, to go along as his guests. When the car was ordered at Keichline's garage Will Keichline asked his taxi driver, Charles Chandler, to make the trip. The latter at first demurred but upon being urged to do so finally consented, and took a new Ford touring car received only a week or two ago with which to make the trip. They left Bellefonte about 8.30 o'clock in the evening and got to the park without any difficulty. They left the park on the return trip about 10.30 o'clock.

On the hill beyond the John Hines place the car was stopped and while there Thomas H. Harter's car, containing himself, Dr. George P. Bible and Mrs. R. Russell Blair, and driven by John P. Lyon, passed by. While none of the party have so far admitted the fact it is the general belief that the party undertook to catch up with the Harter car and were running at a high rate of speed when they came down the hill near the Hines home. At the foot of the hill there is a fairly sharp reverse curve.

The driver made one left right but in taking the other he got off the macadam into the soft mud at the left of the road. The car ran for a distance of from fifty to sixty feet then side-swiped a telephone pole with such a terrific impact that the top was torn off, the tonneau knocked out of position and the rear end of the car thrown around to the right so that the car plunged into the bank and broke off a large fence post twenty feet from the telephone pole. All the occupants of the car were thrown out, Daggett being thrown a distance of twelve feet and apparently alighting on his head. So far as can be learned Chandler was the first one to recover his wits. He went to Daggett and raised his head and his first story was that the young man said "leave me alone," but later he stated that Daggett did not speak, only groaned. Cole, who escaped injury, started on a run toward Bellefonte to the Lutz house for the purpose of telephoning for help. In the meantime Chandler got Thomas and Knisely into the car and in attempting to start it discovered that his left arm was crushed between the wrist and the elbow. By that time two men from Zion, on their way home, arrived upon the scene and Chandler asked them where he could get to a telephone. They accompanied him to the Cornan farm house a third of a mile away, and from there he telephoned to the Bellefonte club for help.

Dr. Dale was the first to go down and he picked up Cole at the Lutz home from where he had telephoned. When the doctor got there he found Daggett lying on the ground and an examination revealed the fact that he was dead, and had probably been killed instantly, though the exact cause has not been definitely determined. Finding Chandler and Thomas' injuries the most serious the doctor got them in the machine and brought them to Bellefonte, leaving Chandler at the Bellefonte club and taking Thomas to the hospital. In the meantime Dr. Hayes had been notified and he also went down. William Keichline went down in another car and Hard P. Harris also went down, the latter bringing Randolph's body home and Keichline bringing Cole and Knisely.

In the excitement that night it was feared some of the other young men were fatally injured but fortunately this is not the case. Chandler has a crushed left arm, a bad bruise across the abdomen and a few scratches and bruises. Thomas' left wrist is fractured, three fingers on the right hand smashed, three ribs fractured and slight cuts and bruises. Knisely has a deep gash under the chin, one on the forehead, a number of teeth knocked loose and bad bruises on the face. All will recover. The only mark on Daggett, who was killed, was a slight cut on the top of the head.

Hundreds of people motored to the scene of the accident on Wednesday in order to get a better impression of how it happened. The car, of course, was badly damaged but not put out of business entirely as it was brought to Bellefonte Wednesday afternoon under its own power. The unfortunate accident has cast a gloom all over Bellefonte. Randolph Daggett, who was killed, was the third son of Mr. and Mrs. Wells L. Daggett and was born in this place on June 12th,

1896, so that he was not yet seventeen years of age. In addition to attending the public school and Bellefonte Academy he spent a year at Staunton, Va., at school, and a short time at Mercersburg. In addition to his parents he is survived by three brothers, Lewis, Boynton and Frederick. Mrs. Daggett was in New York at the time of the accident undergoing treatment for her health and did not arrive home until Wednesday evening. She was completely prostrated over the sad news. The funeral will take place this (Friday) afternoon at 2.30 o'clock, burial to be made in the Union cemetery.

—The three weeks special services held in the Presbyterian church were attended with very good results, as forty-one new members were taken into the church on Sunday evening. A few of this number were by letter but the great majority was by profession of faith. Dr. Hawes and the entire church body are deeply rejoiced over the result of the work done.

—The Undine fire company celebrated the anniversary of its organization on the evening of St. Patrick's day (Monday) with a smoker and Dutch lunch in the rooms on the second floor of their building on Bishop street. When everybody had been filled to overflowing John McSuley was selected toastmaster and toasts were responded to by P. H. Gherrity, John J. Bower, Col. H. S. Taylor, James Schofield and George T. Bush.

—George A. Beizer recently placed orders for three Chalmers touring cars. One for Lawrence Redding, of the Mountain house, Snow Shoe; one for M. D. Kelley and one for John Kelley, also of Snow Shoe, the cars to be delivered as soon as possible. From present indications the year 1913 will be a good one in the automobile line in Bellefonte, as there are a number of prospective buyers of cars. The high price of gasoline is the only drawback.

—The Woman's Foreign Missionary society of Huntingdon Presbytery will meet in Huntingdon on March 26th and 27th. Dr. Frank S. Dobbin will address the meeting Wednesday evening on "Changing China," illustrating with one hundred lantern slides which he took when out to the very heart of China to study conditions there. Miss Charlotte Hawes, also, will speak in the interest of the True China Movement, and Mrs. W. O. Johnson will speak for Korea.

—The deal was closed yesterday whereby James R. Hughes became the purchaser of the Philip Beizer home on south Spring street, the price paid being \$9,000. Mr. Beizer reserving the barn which he will remove from the premises. For a number of years past Mr. Hughes has endeavored to secure this property in order to carry to a successful completion his plans for a greater Academy and now that he has been successful there is likelihood of some very decided improvements at the institution on the hill.

—Announcement was made in Tyrone on Saturday of the engagement of Miss Anne Stevenson Cass, daughter of Mr. and Mrs. Joseph Kerr Cass, of that place, to Bernon Tisdale Woodie, of Narberth, Pa. The prospective bride is quite well known in Bellefonte, having frequently visited here. Mr. Woodie is a son of Rev. and Mrs. Allen Sheldon Woodie, of Narberth, graduated from Princeton University in the class of 1911 and is now employed in the construction department of the Pennsylvania railroad company with headquarters in Philadelphia. The date of the wedding has not been announced.

—Mr. Tom Fleming, who, with the exception of Mr. Louis Doll, is the oldest shoemaker in town, has purchased the repair department of the Yeager shoe store, and will hereafter carry on the business in his own name. For over thirty years, or ever since the late John Powers established the shoe store in the Bush Arcade, Mr. Fleming had charge of the repair work, and everyone of its many customers know how well he has filled the place. The fact that he is now doing business in his own name will neither lessen nor better the character of the work that will be turned out for Tom always did the best job that could be turned out, and he can't do better than that now.

—Miss Harriet Elizabeth Ray's card party last Friday evening was made the occasion of the announcement of her engagement to Raymond Harold Smith, of Reading. Fourteen young ladies were at the gathering and it was after most of the refreshments were served when the announcement was made by distributing to the guests pink carnations, to the stem of each one being knotted two tiny pink hearts, on one of which was the name of Miss Ray and on the other the name of Mr. Smith. Following the announcement heart-shaped, strawberry colored ice cream was served. The prospective bride is the youngest daughter of Mr. and Mrs. Sylvester D. Ray, is a graduate of the Bellefonte High school and has a wide circle of friends. Her fiance is a graduate of State College class of 1910, in the civil engineering course. For a year following his graduation he was in the United States railway service at Lake City, Montana, but is now employed by the Lehigh Valley Traction company and is in charge of some work at Allentown, Pa. The date for the wedding has not been made public.

BOROUGH COUNCIL INCREASES WATER TAX.

—If you are a big user of water, and are on a meter, you will pay the same rate this year that you paid last; but if you are an ordinary or a small consumer you will have to pay fifty per cent. more this year than last. This was the decision of borough council at a regular meeting Monday evening. That being the time for fixing the water rate for the ensuing year the Water committee, after a lengthy consultation, recommended the same rate as last year. Dr. Brockerhoff stated that he was in favor of increasing the rate on everything but meters. In explanation he said that the borough's yearly expenses were about three thousand dollars in excess of its receipts; that all other taxes were about up to the limit and the only place an increase of receipts could be made would be on the water tax. Five or six years ago a schedule of rates was fixed for the water tax and the rate since has been sixty per cent. of the maximum. Dr. Brockerhoff made a motion that the rate be made ninety per cent. of the maximum. Messrs. Yeager and Judge contended that the increase was likely to prove a hardship to the small consumer. After some discussion, however, Dr. Brockerhoff's motion prevailed and the increase was sanctioned.

Dr. A. W. Hafner was present and made complaint about not having proper water facilities at his home in the Sands block on High street, alleging that the water was wasted by those living on the lower floor. Borough engineer Wetzel stated that there is poor and leaky plumbing and it is up to the landlord to remedy the trouble.

William Beizer tendered his resignation as a policeman and upon recommendation of the Fire and Police committee Jacob S. Knisely was elected as his successor, as long as his services prove satisfactory.

The Pennsylvania Match company, in a written communication, stated that they had just installed a one thousand gallon a minute pump for fire protection purposes and asked permission to lay a twelve inch pipe from the spring to their pumping plant to be used only for fire protection and when an insufficient supply can be secured from the borough mains. Permission was granted on condition that the same be removed at any time upon the request of council.

The Street Committee reported that the creek had been cleaned from the spring around to the S. D. Ray property, and asked that written notice be served on all residents in that section to desist from making it a dumping ground for refuse.

The Special committee reported that the Green mill property had been leased to J. A. Whiteman.

The Water committee reported that the pump at the Phoenix pumping station needed repair. That its normal average was 1,144,000 gallons every twenty-four hours, when in good condition, while now they weren't able to get much over 800,000 gallons in that time. The committee also stated that there ought to be a larger gate at the spring in order to keep it properly clean of moss, and there should be a curb around it to keep stone and dirt from rolling in. The estimated cost of the improvements to the spring was given as \$120. The committee was authorized to have the matter attended to.

A note of \$800 was increased to \$1,200 and with one of \$500 and one of \$2,000 renewed for one year; notes of \$800 \$5,000 and \$1,200 were renewed for six months and one for \$4,000 renewed for four months. Bills to the amount of \$1,523.30 were approved and ordered paid and council adjourned.

J. MAC CURTIN'S SUCCESS.—It is a pleasure to note the success that has attended J. Mac Curtin, eldest son of the late Hon. H. R. Curtin, of Curtin. Ever since his graduation from The Pennsylvania State College in 1898 he has been with the Westinghouse Co., and going up steadily until he now occupies the important position of general manager of the industrial and power department of that great corporation. There are only three department managers in it and they rank next to the general officers, so that it is not a great step from Mack's present position to that of the highest office, which we should not be surprised at all to see him occupy some day.

HIGH SCHOOL BASEBALL SCHEDULE.—Following is the schedule arranged by the management of the Bellefonte High school baseball team for the coming season:

- March 29—Millheim High school at Bellefonte.
April 19—State College High at State College.
April 26—Lock Haven Normal Reserves at Bellefonte.
May 3—Lock Haven Normal Reserves at Lock Haven.
May 10—Lock Haven High at Bellefonte.
May 17—Lock Haven High at Lock Haven.
May 24—State College High at Bellefonte.

A GREAT STORY.—Do not fail to read the first chapters of "Shenandoah," the great story begun in this issue of the WATCHMAN. It is the most interesting war story written in fifty years, and we know you will be reading and talking about the important events of which it is made up, and the Generals and others taking part in these events, long before it is ended, and you will want to know all that appear in the first part, given this week. So don't overlook it.
