American Citizens Abroad.

Paid after expiration of year -

A great many otherwise intelligent persons have an entirely erroneous impression of the obligations of government to citizens who engage in enterprises abroad. This fact may be accounted for, in some measure at least, in the policies pursued by recent administrations in pursuance of what has come to be known as "Dollar Diplomacy." But whatever the causes for it, it is fundamentally wrong to mislead citizens into the belief that the government of the United States is morally or legally bound to protect the lives and property of citizens of the United States, who engage in business or undertake enterprises in foreign territory, to an extent beyond that of citizens

Take the case of American citizens engaged in business ventures in Mexico. for example. Many of our contemporaries expressed the greatest measure of indignation because President WILSON in his recent message to Congress recommended American citizens engaged in Mexico to come home or seek safety for their persons by leaving Mexico. That would be abandoning their property to Mexican marauders of one faction or another, these calamity howlers allege, and work a dereliction on the part of the government of the United States. It would be nothing of the sort. It would be simply the wise course to pursue and the course which any sensible citizen would adopt if his life were endangered by riot or disorder at home.

When a citizen of the United States, influenced by cupidity or ambition, engages in a hazardous undertaking abroad, he does it at his own risk, just as he engages in similar employment at home. The government is under no obligation to guarantee the safety of a man employed at hazardous work about machinery, in powder mills or other dangerous occupations. Each man enters into such work at his own risk and if it turns out bad it is his misfortune but not the fault of the government. That is equally true of undertakings abroad. The men who engage in them understand, or ought to, that there is danger to life and property. But if the worst ensues the government is not responsible and the only advice the President could give to Americans in Mexico was that that he gave.

## Bull Moose Activity.

The activity of the Bull Moosers of this State shows that though BILL FLINN may be in the hospital, his check book is always within reach. No other party is making half the effort for organization. The Republicans are moving in some sections to adjust factional differences, but doing little work preparatory for future campaigns. The Democrats, on the other hand, are doing practically nothing in any direction. GUTHRIE, PALMER, BLAKES-LEE and most of the other so-called leaders in the reorganized party having been fixed in offices, there is neither leadership nor energy in the organization. These gentlemen were essentially partisans for spoils and having reaped the fruit of their labor are content.

But the Bull Moosers are working everywhere and working hard. Clubs have been organized and are being maintained in every community of considerable population and public meetings are being held systematically throughout the State. It is true that these demonstrations reveal a subsidized enthusiasm. It can easily be seen that they represent a manufactured activity. But they show that the leaders of the party understand the importance of organization and are willing to spend money necessary to effect results. CLYDE KELLY and ARTHUR RUPLER may have to be paid for their speeches but they are making the speeches and making their hearers believe that they are in earnest.

The meeting in Galeton, Potter county, the other evening was only the beginning of a series of gatherings which Boss FLINN has financed and the party is preparing to hold in every section of the State between this time and the campaign for Governor next year. It was an ambitious and expensive affair but it served the purpose of creating a false impression of the strength of the Bull Moose party. Probably if FLINN had been at the banquet board instead of in the hospital, the mistake of naming a candidate for Governor would not have been made. But one error won't wreck a plan of campaign and it is certain that so long as the money holds out there will be people to eat and cheer.

-The session of the Sunday school of St. John's Episcopal church will be resumed Sunday September 5th.

Wonders Where He's At.

From the Dallas News. The last heard from Gen. Felix Diaz he seemed not to be certain whether he was up a tree or in a hole.

Have your Job Work done here.

### Let Common Sense Prevail.

[Continued from page 1 Col 4.]

As we said above Reorganization was effected in our party in the State and county a year ago so that it is not the issue now. Rather, ought we now to be looking for results of it. Something better than we had ever had in party organizations was promised us, something more efficient and inspiring. We are neither criticising nor endorsing it. We are stating a plain truth when we say that the results in Centre county are not such as to inspire much hope. ARTHUR KIMPORT was re-elected our county chairman because the Centre Democrat told you it was necessary for the good of our party. After the editor of the Centre Democrat had used Mr. KIMPORT as far as he needed him he cast him aside like an old shoe and the disappointed and disheartened man, that you chose to reorganize our party last year, left the county for good WITHOUT EVEN CARING ENOUGH FOR THE WELFARE OF THE PARTY, THAT HAD HONORED HIM, TO RE-SIGN or make provision for someone to succeed him. What has been the result? There has been no Democratic organization at all in Centre county for the past six months, no chairman to keep the district committeemen advised of what they should be doing and no one interested enough to get Democratic tickets named for the Primaries in many of the Precincts of the county.

All but a few of the voters who voted for Reorganization of the party were sincere. They did it because they thought the party needed reorganization, and so it may have, but common sense tells us that no Democrat would have voted for the kind of Reorganization that has left the organization in Centre county in the sorry state it is in, had he known then what he knows now.

"RAISING HELL IN THE PARTY."

After calling him "liar," "malicious liar," "traitor" and most every other name known to his vile vocabulary the editor of the Centre Democrat now accuses P. GRAY MEEK of "raising hell in the Democratic party." This reminds us of the old lawyer who once gave advice to a young lawyer who went to him to consult concerning a case that had been entrusted to him. The older attorney told the young fellow "When you have a weak case jump in and give the other side hell."

That's the way it looks to us. The Centre Democrat has a weak case and it imagines that by inflaming the feelings of some against the editor of this paper that it will be helping Mr. ZERBY. But the editor of this paper is not a candidate for anything. He never will be a candidate for anything. Why bother further about P. Gray Meek. He asks for nothing, wants nothing other than to see that the party that he has given fifty-two years of loyal support to shall continue triumphant.

The Democrat would have you believe that because Col. TAYLOR is supporting Mr. SMITH for State Committeeman Mr. SMITH should not be elected. What has Col. TAYLOR to do with it? What if he did support his brother BERT, who was the Republican nominee for Legislature against our party candidate, the late Hon. J. C. MEYER. Was it any worse for Col. TAYLOR to support his own brother for an office than it was for Col. D. F. FORTNEY, Col. JOHN A. WOODWARD, Col. J. L. SPANGLER, Mr. ZERBY'S father and many other Democratic leaders in Centre county to openly support the late DANIEL H. HASTINGS for Governor? Was it any worse than the Centre Democrat's making a vicious public attack upon MITCHELL I. GARDNER, because he wouldn't, as Prothonotary, give the Centre Democrat all the official patronage its editor impudently demanded. Was it any worse, any more disloyal or any more traitorous than this same Centre Democrat was when it refused to put up the party ticket because its editor was not nominated in 1892 for Prothonotary. And it did not put up the party ticket until it was either bought or scared into doing it.

We are not recounting these facts for the pleasure there is in the writing. We are not telling them to you to excuse or condemn Col. Taylor. Col. Fort-NEY or any of the others concerned. We are telling them to you because they are facts and facts that should help you as an intelligent, honest Democrat to make up your mind that when the Centre Democrat talks about "raising hell" in the Democratic party it is only trying to deceive you into overlooking the fact that Satan himself couldn't have "raised more hell" in the party in the county, than the little "faction" that is now in control of that paper is trying its best to do.

# Weasel Darklantern Zerby, the Political Peddler.

To the Democratic Voters of Centre County:-

This is the first article that I have penned and published in politics in more than twenty-three years of loyal, honest service to the Democracy of Centre county. But, from the fact that now I am not County Chairman; am not a candidate elf, or directing any fight, but am an individual Democrat and have the right and choice to support any candidate for any nomination or any office within the gift of the party, then to be traduced or maligned for such action by any person, persons or publication—I refer to the editorial in the Centre Democrat of Thursday, August 28th., which editorial I desire every Democrat in Centre county to read, in order that he can fully understand this article.

I have always stood squarely against personalities in party papers, and have always frowned upon quarrels in our party between Democratic organs. None tend to up-lift, build up or strengthen our breastworks, but all tend to tear down. Although I issue this article, at this time, you will bear with me, as my first and last thought is of the harmony and success of our party. My mission when County Chairman was harmony and success. To every Democrat a square deal.

The above subject of this article, with his darklantern political methods, is responsible for the editorial of the 28th, is a candidate for State Committeeman, and he favors a new policy in the political history of our party that attacks individuals in public, and in secret, to further his success, instead of making a square fight. He cries faction. We know no faction; we want no faction. But, since he has been a worker in the party,he is the primary cause of most of the factional discord. He differs from the weasel from the fact that the weasel can pass through any opening into which he gets his head; because his head is larger than any other part of his body. He cries out that I urged him to betray the Democratic party when the late Hon. J. C. MEYER was a candidate for the Legislature. He lies and he knows he lies. Taking the action of HARRY KELLER, Esq., as a precedent, who was County Chairman of the Republican party and who when his brother-in-law, Judge Ellis L. Orvis, was nominated on the Democratic ticket, resigned and then took up the Chairmanship after the election was over. I advised ZERBY to do the

The late J. C. MEYEE was my friend and teacher, was my brother's attorney for years prior to the election, during the election and afterwards until the day of his death; was one of the finest men that Centre county ever produced. A few days after that campaign was on he met me on the street, smiled and said "I am sorry, Taylor, that I do not have you with me in this fight. I know you are going to stand by your brother and I commend you for it; I could expect nothing else. I would do the same thing under the circumstances." Yet, ZERBY, like a ghoul in the night, holds up the dead before him for protection to further his cause. What do you think of it? What can you expect of a man who wears his armor on his back?

I have always been taught that the character assassin is more deadly and dangerous than he who steals into a house in the dead of night, intent on murder

The only time in my long service to the party that I ever attempted to defeat a candidate on the Democratic ticket, was for councilman in the Borough of Bellefonte; a prominent and able business man whom the leaders thought should be chastised for his actions toward the party. At their request I stood against him. He was defeated, and ZERBY was one of my first lieutenants in that election, yet holds himself out as an angel of Democracy. I could relate you more, and will if I am compelled to defend myself again.

When Zerby asks you for your support, ask him how many candidates on the Democratic ticket he has fought bitterly.

How many candidates, when County Chairman, has he attempted to defeat for the nomination, when it is the Chairman's place to keep harmony and stand

Ask him how many candidates he has secretly brought out in the party to disrupt it and break up the harmony, when the men announced did not suit him. Ask him, was the county Democratic when he received the chairmanship. Ask him what was it's complexion when he retired as Chairman.

Ask him if he has not peddled everything in sight, and made promises that were never carried out.

Ask him if he attempted to peddle wholesale and retail liquor licenses in Centre county, when he knew he was lying.

Ask him if he wasn't paid for his services to the Democracy for years.

Ask him if he did not have one of his best friends sell out a fine business promising him the the nomination and election for an office and, later, finding that it did not suit him, advised him to withdraw. There has never been in this county such base betrayal of friendship in all the political history since it was

I yield to no man my standard as a Democrat and my Democracy. I learned it at the feet of the great John H. Orvis, and the late C. M. Bower, Esq. Two hours after Bryan was nomins ted, in 1896, I made a speech on the court house steps, and during the campaign, spoke in every school house in Centre county where political meetings were held. I went with him on his special car, from the city of Pittsburgh to Madison Square Garden, New York, where he made his speech of acceptance. I have stood by him ever since, and was for Bryan from the bottom of my heart when this man Zerby was traducing him. I have always

supported him, and a few years ago I was the only Democrat from Centre county who went to Altoona where he delivered a lecture. I sat by his side at the dinner table, at the University Club. My support for the Wilson administration is stronger than this man who attempts to disrupt our party in the county. I am in favo of organization, harmony and equity in party privileges. I have no quarrel with him because he is a candidate for Committeeman; that is his right, but I think he is the last man in the county to ask for it, or receive the honor. But I have the right, and will always defend it to support W. F. Smith, ex-prothonotary, for this position, whose Democracy, honor and integrity is above reproach.

Many years ago, when a boy, "BILL" SMITH stood by me financially. He supported me in all campaigns when I was County Chairman, and was a tower of strength to the success of Democracy. My record is known in Centre county as who never deceives or deserts a true friend, and I plant my standard on that rock and there I will stay until the day of doom.

In this same article Senator P. G. MEEK and the Hon. JAMES SCHOFIELD are maligned. They are able to take care of themselves, and there are no stronger, truer, better Democrats and supporters of the administration than these two gentlemen, who have given the very best years of their life to the party.

A vote for W. F. SMITH will mean harmony in the party. Where is there in all Centre county a more noble Democrat and a man who will represent us all more carefully, considerately and to the best interests of the whole party, and the

The real reason that Zerby is antagonistic to me personally, while he would try to make you believe otherwise, is that some years ago, shortly after Zerby was chosen County Chairman, I advised a close personal friend of mine and of his, that too close a business or professional relation might be injurious in the long run. I did this with the best interests of the parties concerned, and had no thought in my heart to injure Zerby.

But, why take up your time and the space in this paper to mention the subject of this article? Why should I waste my lather to shave an ass.

Sept. 2nd, 1913.

The policy of the Republicans in Congress to put currency legislation over they have adopted that course is not could be understood. They could then hope to defeat currency reform legislacontinuance of the present system of married life was spent in that place. She without Democratic gains at the next and a woman highly esteemed by all who election both branches of Congress are knew her. secure in Democratic majorities for sev-

eral years to come. Senator WEEKS, of Massachusetts, the mits the necessity for currency legislation. "But I do not agree with the President," he adds, "that there is any emer. gency that makes revision of the currency laws essential this month or this week or next month. I can easily demonstrate that the banks of the time last year." But that is not sufficient. They ought to be in better shape now than a year ago for the guarantee that the administration will be against currency or credit manipulation ought to have a strengthening influence alike upon

the banks and the treasury. The fact that the Republican minority in Congress has set its face against currency legislation at this session ought to make the majority the more determined the country commercially and industriiously is most promising. The certainty of early tariff revision downward has inspired hope. But as the President said in his message on currency legislation financial reform is necessary to supplement the tariff legislation in order to give the people the best and speediest improvement. There should be no recess of Congress after the passage of the tariff bill. In fact there should be no recess until the work of the session is com-

Bower was thrown out and his body terribly crushed on the rocks. All the men who jumped were injured but none fatally. Bower was about thirty-eight years old and is survived by his wife and his of Mrs. W. C. Patterson, at State College. Harmother.

NEW FRATERNITY AT STATE COLLEGE. -Beta Alpha Sigma, a local fraternity of State College, has recently been granted a charter by Pi Kappa Alpha, one of the SAGER-Louise, the infant son of prominent national fraternities. Pi Kappa Alpha was founded at the University of ty. Five of her children are still living, and she died at the Bellefonte hospital on Wed- Virginia in 1868 and is particularly strong nesday of last week, aged 4 months and in the South, having been restricted to dren, 17 days. The remains were laid to rest that region until 1905. Since that time it has planted several chapters in leading

nstitutions of the North and West. It has a membership of some three thousand, among whom are many men distinguished in the educational and professional world, probably the best known being the Hon. Oscar W. Underwood, potent factor in national affairs.

The chapter at State, which is the first to be established in Pennsylvania, will be installed during the coming fall.

HUNTERS' LICENSES RECEIVED BY COUNTY TREASURER MILLER. - County treasurer John D. Miller on Monday received from the State Game Commission the hunters licenses, now required by every person who wants to hunt game of any kind, in accordance to an Act passed by the last Legislature. One thousand licenses were received by Mr. Miller and if this number is not sufficient to supply the hunters of Centre county more can be secured.

All applications for a license must state the applicants full name, residence, age, height, color of hair, color of eyes and nationality. Persons applying for a license should bear this in mind as failure to give the above facts will result in no license being granted. The fee for a license is one dollar.
