THE UNITED SPANISH WAR VETERANS. -Following the war with Spain, many societies were organized among its returning soldiers who sought to emulate the example of the Grand Army of the Republic and to perpetuate the memories of their military or naval services. Soon seeing the necessity for united action various organizations united in 1904 under the name of the United Spanish War Veterans.

They now have 50 camps in the Keystone State and several thousands of members, having added nine camps and about 750 comrades to their numbers in the last few months.

As yet no Camp of the United Spanish War Veterans has been formed in Bellefonte although many volunteers and regulars are living here. Any comrade desiring to form a camp can get all necessary information by writing to the Department Commander, Thos. M. Stalford, of Athens, Pa.

We were proud of the record of Com-pany B, of the 5th Regt., when they went to the front in 1898 and would be glad to see them united in a strong viral order. The veterans of this Regiment, the Volunteers of 1898 and the large number of men who served in Cuba, Porta Rica, the Philippines and in the Chinese Relief Expedition, now living in our midst would form in this locality one of the strongest camps of the State. Who is the man who will take the lead in this work?

THE MUSSER FARM SOLD FOR \$32,000. -On Tuesday G. The farm contained 154 acres and while it might have become very valuable as building lots, being on the border of State College borough, it had a peculiar value to the College, itself, in that it completes the great quadrangle of land acquired by the College in recent years.
