CHRISTIAN SCIENCE SOCIETY.
Service Sunday 10:45 a. m. Wednesday 8 p. m., 9 1/2 E. High street.

SUNDAY SCHOOL INSTITUTE.
A Sunday school institute will be held in the chapel of the Presbyterian church, Monday afternoon and evening, March 23rd. All the districts bordering on Bellefonte are urged to send their pastors, superintendents and teachers as delegates. The afternoon session will be opened at 2 o'clock with an address by the Rev. W. M. B. Glandon on the subject "The Sunday School the Doorway to the Church." Mrs. Maude J. Baldwin, State Superintendent of Primary Work, will make the second address. This will be followed with an open conference. In the evening at 7:30 Mrs. Baldwin will make the first address. The Rev. Dr. Geo. E. Hawes will discuss "Temperance Work in the Sunday School." Visiting delegates will be provided with entertainment by applying to the proper committee at the close of the afternoon meeting. The public is cordially invited to attend both of these sessions.

It is the plan to close the special services now in progress at the Presbyterian church with the Lord's Supper which will be held Sunday night. The attendance at these services has been excellent, and the preaching of Dr. Edgar has been edifying. It is the expectation that the communion service of Sunday night will be the climax of the services.

SUPERIOR COURT DECISION.—Among the decisions handed down by the Superior court last Thursday was that of the contested will case of D. Miles Buck, of Warriorsmark, who left all of his property to John P. Sebring, of Bellefonte. Mrs. Anna Stevens contested the will on the grounds that Mr. Buck was weak-minded when the will was made. When the case was tried Judge Bridgman decided that there was not sufficient evidence of a weak mind to submit the case to a jury and upheld the will. The Superior court affirmed the decision of the lower court.

—The large transom above the door in Hazel Bros. grocery was mysteriously broken on Saturday night. At first it was thought a stone or snow ball had been thrown through it, but a close examination inside the store failed to disclose anything. Any person contemplating robbery would hardly have broken the transom with intent to climb over the door, and the only explanation arrived at is that the glass became sprung and broke of its own accord.

PINE GROVE MENTION.

John Grove is a victim of the grip. Our supervisors are busy making the roads passable.

Last Wednesday evening the William Spotts home at Krumrine was the scene of a taffy birthday surprise party for Mrs. Spotts.

Wm. Grob Runkle, of Bellefonte, has been a bidder at public sales hereabouts buying stock for his new farm. Mr. H. M. Horner, will be his farmer.

Last week a forty foot flag staff was erected at the White Hall school house and now Old Glory flutters to the breeze. Ed. Martz is the teacher and is to be commended for his zeal and patriotism.

Wednesday evening a host of old and young folks assembled at the William Lytle home at White Hall as a farewell party. After April 1st the Lytle's will tenant the Dr. Fry farm at Rock Springs.

Last Saturday at a regular meeting of Washington Grange at Pine Hall fifteen members took the 4th degree. After the regular exercises were gone through with, all were ordered to the dining room where refreshments were served.

Monday evening the Peter Cori home at Struble was thronged with friends and neighbors, who gathered to congratulate Mrs. Barbara Cori on reaching the 72nd mile stone in life's journey. The good woman's heart was gladdened with many splendid gifts. A splendid supper was served and everybody was happy.

BOOKS, MAGAZINES, Etc.

The April number of *Popular Mechanics* contains 344 articles and 350 illustrations, many of the latter being full-page photographs of incidents of universal interest. In "A Trip across the Atlantic" the story of what happens on a voyage on board the "Imperator" is told in picture form. In "Artificial Waterways in Many Lands" full-page views are given of the Gota Canal in Sweden, a typical Japanese canal crowded with shipping, a canal in the Dutch colony of Java, and the "Great Canal" in Lawrence, Mass. In the continuation of the series, "Curious Vehicles in Use the World Over," an Indian bullock cart with canopy embroidered in solid gold, and used by a high-caste lady of Ulwar, is shown in contrast with the three-horse "troika" of Russia. A curious and interesting feature, made possible by an electrically operated camera that obtains several thousand views to the second, is the series of photographs showing the flight of a shell fired from one of the coast-defense mortars at Fort Monroe. Among the other interesting features of the April magazine are such articles as "Revenue Cutters for Ohio and Mississippi Rivers," "Finding and Destroying Derelicts at Sea," "Destructive Eruption of Japanese Volcano," accompanied by illustrations of the eruption.

One article telling how to make a basement hotbed will prove of particular interest at this time of the year, while much information of value to motorists is contained in the article entitled "Under-Inflation of Automobile Tires."

Freight Shipments Tell the Story. Read Letter from the Citrus Fruit Agent of the A. C. L. Railroad.

Leesburg, Fla., January 2, 1914.

Lake County Land Owners' Association,
Fruitland Park, Fla.

GENTLEMEN:
The A. C. L. Railroad is interested in the development of the best lands in Florida, because genuine development means additional traffic for our road.

For transportation, excellent quality of soil and opportunities for the newcomer to make good, there is no section in this State that surpasses that in which your lands are located. In my judgment, your properties lie in the best melon district in the South, because the earliest melons come from here, and the earliest melons always bring the highest prices.

For seven years the territory in which your lands are located, between Leesburg and Lake Weir, have shipped the first cars of standard melons that have left the State, and throughout the shipping season our road runs daily watermelon specials. The early cars in this district sometimes bring as much as \$500 per car.

There is no finer citrus fruit grown than that from this section, and its carrying qualities are of unusual order.

With the excellent proximity of such enormous bodies of water as Lake Weir and Griffin, etc., I consider your frost protection good. In my judgment, any cold that would seriously affect this district would affect almost the entire State.

Knowing as I do the principal members of your Company, I can commend you favorably, and wish you success in your operations.

(Signed) ROBERT TAYLOR,
