Bellefonte, Pa., May 15, 1914.

NEW LINE OF CRIMINALITY Fraudulent Identification Has Been Taken Up as a Means of Gaining Dishonest Living.

John Thompson of Hamilton, Ontario walked into the parlor of his home one night recently and found his family mourning around a coffin in which they supposed his body was lying. There had been a storm on the Great lakes, and when Thompson's father read of the finding of the body of John Thompson, fireman of a lost lake steamer, he went to Kettle Point and identified the body as that of his son. The coffin had just arrived, and Thompson's mother had just advanced to look at the body enclosed when her son entered. Thompson senior could not explain the iden-

tification. But there have been many cases like his in the way of mistaken identification. Every day at the morgues in the large cities there are cases of fathers, mothers, sisters and brothers identifying bodies as those of relatives. Some know them by this mark and some by that, but they are absolutely certain. In some instances coroners have had to prevent rival identifiers coming to blows.

Fraudulent identification has got to be a regular trade. Inquiry is made at the morgue for a fictitious relative by a member of an identifying gang. The dead are closely observed. Incidents of their history and information as to what was found on them are gathered carefully. Then when another member of the gang has learned these facts he goes to the morgue and identifies the body that will yield the most profitable return.

ALL THE NEWS OF THE DAY Chiefly as Understood by the Man Who Does Not Have Time to

"I am glad to hear," said the Man Who Does Not Have Time to Read the Papers, "that this income tax will apply to interblocking directors.

Read the Papers.

"I wonder when they're going to start running trains in this new Catskill aqueduct, now that it's finished. "I don't believe Wilson will ever

elected emperor of Mexico even if he does speak Latin. "I knew the telephone company

cel-post company got to competing with it. "It seems to me that this paying of \$5 a day to automobile inventors as a Christian in spirit, but with Hinduism anarchy or even to sociology. But that Old Testament.—Christian Herald. ain't any worse than paying \$12,000 a year to the city chambermaid, as

they do right here in New York. "Were you to the auto show at the Garden? Who won the races?" "It wasn't at the Garden," said the Man with the Newspaper, "and they

didn't have any races." "Didn't, eh?" snorted the Man Who Doesn't. "Police stopt 'em, I suppose. More of this impuritanism."—New York Press.

Russia's National Debt.

For several years Russia has been increasing its national debt, and figures show that over 45 per cent. of loans emitting in the course of the last five years were subscribed in foreign countries.

The Russian government is anxious to get money from other lands and is expected to seek further safety in European markets very shortly with which to meet requirements for the present year.

Statistics show that during the past five years 5169.6 million rubles were raised by Russia, 3657.1 millions in the country, and 1059.3 abroad. The value of a ruble is about 51 cents.

Very striking is the manner in which the Russian national debt has been increased in the course of the last two years, as also the additional amount of money borrowed on foreign markets in the year 1912, which jumped from 256.0 million in 1911 to 448.3 millions last year.

Historic London Building. The Inns of Court hotel, London, which is to become the telephone exchange for Holborn, began life as the Blue Boar tavern in Plantagenet times, taking its name from the crest of the De Veres, who owned the land thereabouts. When its neighbor and rival, the George inn, was demolished under Queen Anne, the Blue Boar annexed the name George as its subtitle. It was at the Blue Board that Cromwell, disguished as a trooper, stopped a man about to set out for Dover. In his saddle he found a letter from Charles I. which determined him on the king's execution.

Emerson Was a Prophet. Emerson lived before the days of the Frisco receivership and the bankrupting of the New Haven road, yet one may read in an 1857 entry of his

newly published "Journal:" "I took much pains not to keep my money in the house, but to put it out of the reach of burglars by buying stock, and had no guess that I was putting it into the hands of the very burglars now grown wiser and standing dressed as railway directors."-Collier's Weekly.

The charity that begins at home and MONEY TO LOAN on good security and houses to rent. remains there is anaemic. An occasional outing will do it good.—Judge.

WILL UTILIZE COAL WASTE

Gigantic Central Power Plant Is New Under Construction at Hauto, Pa.

What is believed to be the largest central power plant in any coal field in the United States is now being constructed by the Lehigh Navigation

Electric company, at Hauto, Pa. As is well known, the fine sizes of anthracite, such as buckwheat No. 3 and smaller, although containing a high heat content, possess but little present value at the mines. The fundamental idea in building this power plant at Hauto, says Coal Age, is to convert this low-priced and, from the monetary standpoint, comparatively worthless fuel into commercially valuable electric current.

A considerable proportion of the fuel mined in the country today is used in the generation of electricity. Particularly during the past few years the idea has been gaining force that it is cheaper to manufacture power at the mine and transmit it to the point of application than it is to ship the coal over an equal distance and there convert it into electric energy in a

small and isolated plant. One of the unique features of the plant is the fact that the ashes from the furnaces can be discharged direct into air-dump ash cars of standard gauge and run into the building below the boiler room floor. The expense of ash disposal is thus greatly

RELIGIOUS CHANGE IN INDIA Influence of the West Is Being Strongly Felt Throughout the

Country.

India's religious and social progress is undergoing important reshapement. Caste is loosening. Adherents of Hinduism are divided at present into three camps; the ceremonalists, or those who in orthodox faith adhere to the traditional rites of worship and sacrifice to the ancient gods; the reformists, who, holding to the main tenets of Hinduism, are breaking away from caste and idolatry, and the educated Hindus, whose views are being highly colored by influences from the West and whose religion, as far as any one can perceive, is often little more

than a name. Christianity is adding not less than 1,000,000 converts during the past year, but almost entirely from the lowest Hindu society, which has little insucceed in having this James Lind fluence upon the educated communities. The Indian tendency seems to be to retain the main principles and forms of Hinduism, but to revivify would have to cut rates when the par- them with the more generous and altruistic spirit of Western religion. As one missionary teacher expressed it, the future religion of Indina will be millenium wage is going to lead to and the Indian sacred books as the

> Prolific River Nile. It is believed that the river Nile contains more kinds of fish than any other river in the world.

It is more true in repairing the health to smore true in repairing the health to n in repairing clothes, that "a stitch in time saves nine." The timely use of Dr. Pierce's Favorite Prescription before the strength is run down, before the hole in the health has grown so big by neglect would save many a woman from lect, would save many a woman from periods of suffering. But whether used soon or late, "Favorite Prescription" is the one remedy for the ailments of women which can be always relied upon to soothe the nerves, strengthen the body, brighten the mind, and build up the health. It contains no opium, cocaine or other narcotic, and is free from alcohol.

Hood's Sarsaparilla.

When Run Down

HOOD'S SARSAPARILLA, THE RELIABLE TONIC MEDICINE, BUILDS UP.

The reason why you feel so tired all the time at this season is that your blood is impure and impoverished. It lacks vitality. It is not the rich, red blood that gives

life to the whole body, perfects digestion and enables all the organs to perform their functions as they should. From any druggist get Hood's Sarsaparilla. It will make you feel better, look better, eat and sleep better. It is the old reliable tried and true all-the-yearround blood purifier and enricher, tonic and appetizer. It revitalizes the blood,

debilitated and run-down. Hood's Sarsaparilla is helping thousands at this time of year. Let it help you. Get a bottle today and begin taking it at once. Be sure to get Hood's. 59-18

BIG LAND OPENING.

LAND OPENING

TWELVE HUNDRED AND FIFTY TRACTS of five and ten acres each to be granted to prospective settlers in throwing open Twenty Thousand Acres of Rich, Southern Georgia Land, which is admirably adapted to the growing of celery, sweet and Irish potatoes, canteloupes, water melons, corn, oats, cotton, hay—in fact, all staple crops grown in this fertile section, as well as a large variety of semi-tropical fruits, and the famous immensely profitable paper-shell pecans.

Providing you are eligible under the classifications prescribed by us, you are now offered an excellent opportunity to break away from the drudgery and toil of a small wage, or working for the benefit of landlords, and go back to a land of plenty, to which, if granted, you will hold a warranty deed and abstract.

The best security on earth is the earth itself, and land is the basis of all wealth. Owners of productive lands are benefiting by the increasing high cost of living, while others are suffering from it.

An Opportunity to Secure Rich Productive Land Without Capital. You will not be required to leave your present surround-Northern Pacific and other railroads when they granted their lands, and we expect to benefit thereby, as well as the

that they plant, or arrange to have planted, a crop of one of the above-mentioned products within three years, after which we will have it operated (harvested and replanted) for grantees, in consideration of 25 per cent. of the net profits derived from the sale of the crops, thereby allowing the grantee to pursue his or her present occupation until such time as they determine just what the yield of their acres amounts to. Consider what this may mean as a source of income, when statistics show that the yield of one acre of celery amounted to \$1,268.45, and that one acre of well-cared for paper shell pecans, in full bearing, should net its owner as high as \$500.00 per year. We are of the opinion that after it is proven by actual results obtained in operating the land that they will need no further urging, and waste no time in locating in this land of plenty. We also require grantees to occupy the land with in ten years, or sell it to some one who will occupy it;

otherwise it reverts back to the grantor. The land included in this opening is located directly on and adjoining the Atlanta, Burlington and Atlantic Railroad, about twenty-five miles west of Brunswick, a thriving city of fifteen thousand, having direct steamship service to New York and Boston, and excellent railroad transportation facilities to all points. The average temperature for six months of the year, fron April to October, is 77 degrees; the climate is most healtnful, delightful, and invigorating, and there is an ample rainfall of 51 inches per year

OUR AIM IS FOR MUTUALLY BENEFICIAL RESULTS As we are extremely desirous of having settlers locate on this property, and assist in its development, and thereby greatly increase the value of surrounding and intervening property, which we will hold, and to increase the traffic along the Atlanta, Birmingham and Atlantic Railroad, and thus facilitate the service, we feel warranted in granting these tracts to those who register with us. We also have in mind business and residence plots which we will offer for sale after the opening, but which will not be included in it. We have "money-making afterward" considerations in this liberal-minded opening, similar to those of the

ones who will receive the tracts. We have also planned to develop what is designed to be

the best equipped, most up-to-date, scientific, commercial farm and orchard in existance. It will consist of six thousand acres, and will be included in this opening. All who register and receive tracts will get the benefit of the experiments and scientific methods in vogue thereon. While we are arranging to prevent over-registration, we will avoid many disappointments, such as occurred in other land openings conducted by the United States Government and railroads, by granting those who register in excess of the number of tracts to be granted, an interest in this commercial farm and orchard enterprise, in the hope that they may later locate in one of our town sites.

Examination of the land will cheerfully be permitted' and the opening will be held at Browntown, Wayne county Georgia, one of the stations of the A. B. & A. Railroad, which is located on this property, and will occur as soon after the closing of registrations as arrangements can be made.

The presence of those registered will not be necessary at Browntown on the opening day, unless they wish to attend, for there will be no favoritism shown anyone. It will be conducted by a committee selected for the purpose, and those registered will be notified of what they have been granted, as soon as possible.

With the ever-increasing population of this country there is no corresponding increase in the era of land, and naturally as the population increases and seeks the land in pursuit of health, happiness and independence, it will continue to be harder to

The prosperous and contented class in Europe to day are the descendants of those who secured land there when it was plentiful, while the descendants of those who obtained no land are now the peasants and slaves. You must realize that this may be your last chance to secure land in this country without a large outlay of capital, so it should not be necessary to urge you to act at once by forwarding us the application for registration attached to this announcement.
