Life is a careless struggle between the bad and the good, and it must be always remembered that the good is inherently stronger than the bad. All Nature is on the side of the good and whenever a man puts himself in line with Nature to fight the bad within or without him, he is practically invincible. The struggle of health is a struggle between good blood and bad. Dr. Pierce's Golden Medical Discovery has helped thousands to health because it works with nature. It removes by supplying good blood in place of bad, the only way in which permanent benefit can be effected.

than such per centum, may be authorized by law to increase the same three per centum in the aggregate, at any one time, upon such valuation. The city of Philadelphia, upon the conditions hereinafter set forth, may increase its indebtedness to an amount exceeding three per centum in excess of seven per centum upon such assessed valuation for the specific purpose of providing for any or any of the following purposes:—

For the construction and improvement of subways, tunnels, railways, elevated railways, and other transit facilities; for the construction and improvement of wharves and docks for the reclamation of land to be used in the construction of wharves and docks, owned or to be owned by said city. Such increase, however, shall only make with the assent of the electors thereof at a public election, to be held in such manner as shall be provided by law. In ascertaining the borrowing capacity of said city of Philadelphia, at any time, there shall be excluded from the calculation a credit, where the work resulting from any previous expenditure, for any one or more of the specific purposes hereinafter enumerated, shall be yielding to said city an annual current net revenue: the amount of which credit shall be ascertained by capitalizing the annual net revenue during the year immediately preceding the time of such ascertainment. Such capitalization shall be accomplished by ascertaining the principal amount which would yield such annual current net revenue, at the average rate of interest, and sinking-fund charges payable upon the indebtedness incurred by said city for such purposes, up to the time of such ascertainment. The method of determining such amount, so to be included or allowed as a credit, may be prescribed by the General Assembly.

In incurring indebtedness, for any one, or more of said purposes of construction, improvement, or reclamation, the city of Philadelphia may issue its obligations maturing not later than fifty years from the date thereof, with provision for a sinking-fund sufficient to retire said obligations at maturity, the payments to such sinking-fund to be in equal or graded annual installments. Such obligations may be in an amount sufficient to provide for and may include the amount of the interest and sinking-fund charges accruing and which may accrue thereon throughout the period of construction and until the completion of one year after the completion of the work for which said indebtedness shall have been incurred; and said city shall not be required to levy a tax to pay said interest and sinking-fund charges, as required by section ten of article nine of the Constitution of Pennsylvania, until the expiration of said period of one year after the completion of such work.
