Ancient King a Terror.

Mithridates, king of Pontius, is rarely mentioned nowadays, but in the year 88 B. C. he was the terror of the world. He killed his own family, slaughtered seven different kings and their courts, marched through Asia and left everywhere trails of dead. He invaded Greece and there slaughtered nearly half a million human beings, then he marched against Rome with awful carnage. In his own army he lost only 85,000 men, but he is thought to have killed at least twenty times that number of his enemies.

Languages of the World.

Strange as it may seem, there are more than four thousand languages spoken by mankind, while the number of dialects exceeds this. There are more than sixty vocabularies in Brazil and in Mexico the Nahuia is broken up into some seven hundred dialects. There are hundreds in Borneo, while in Australia there is no classifying the complexities. Assuming that 50 dialects on the average belong to each language, we have the colossal total of 250,000 linguistic varieties.

Various Seats of Memory.

It is seriously doubted, from recent researches, that the memory resides in any particular tissue such as the brain, the ganglion cells or the nerves. It has been proved experimentally by a host of laboratory scientists that any kind of human tissue, such as skin, muscles, stomach, kidneys or any part of the fabric of life, retains and is able to repeat an impression once received.—Dr. Leonard Keene Hirschberg.

First English Newspaper.

The first newspaper printed in the English language, with its old English type and its quaint account of events in foreign countries, was a pamphlet issued in 1621. Its title, "Corrant or Nevves From Italie, Germanie, France and Other Places," is as curious as its contents. For many years it had been supposed that no copy of the Corrant was in existence but recently a copy of this interesting document was discovered.—Exchange.

Consoling Philosophy.

Perhaps if one were browsing around, amusing himself trying to hit upon the most consoling bit of philosophy ever written, this of Socrates would be easy to surpass. "If all our misfortunes were laid in one heap, whence every one must take an equal portion, most people would be content to take their own and depart."

Now, Jasper!

"There is one thing that has always refused to ooze through my noodle," remarked Jasper Knox, the sage of Pikestown-on-the-Blink, "and that is this: If, as the newspapers would have us believe, all brides are beautiful, where in Sam Hill do all the home-married women come from?"—Judge.

Just and Calm Manner.

Nothing can be a better influence for any child than a just and calm manner of elders in the family, and a reasonable regularity of life. Such examples breed followers of like qualities and habits which are healthful in the highest degree.—Exchange.

Heat in Wood and Coal.

It takes a cord and a half of short-leaf pine, hemlock, red gum, Douglas fir, sycamore and soft maple to equal a ton of coal, and two cords of cedar, redwood, poplar, catalpa, Norway pine, cypress, basswood, spruce and white pine.

"Rose of Hell."

The "Rose of Hell" is the name given to a flower that blooms on a tree of great size and strength growing on the sides of Mount Agua—a high peak among the rugged mountains of Central America.

Will Prove It Himself.

There is no excuse for using abrupt and inelegant language in accusing a man of deliberate mendacity. Let him go on talking and if he is what you think he is he will tell it on himself.

What is Real?

The professor who went five days without eating says the pain caused by starvation is almost purely imaginary. Maybe so, but the pleasure of eating is real.

Without Exception.
Every normal girl passes through a period when she wishes her name were Celeste or something of the kind.—Columbus (O.) Journal.

Doing Well on Small Means.
It is no small commendation to manage a little well. He is a good wagoner that can turn in a little room.—Bishop Hall.

And Deserves Them.
Then, again, it is the fellow who goes fishing for compliments who gets the most rebuffs.—Pittsburgh Sun.

To Prevent Cheese Molding.
A good way to prevent cheese from molding is to wrap it in a cloth wrung out in vinegar and then in paper.

SPRING MILLS.

C. P. Long and family spent Sunday in Rebersburg.

T. M. Gramley has purchased a new Reo touring car.

The Summer Normal opened Monday, with a large attendance.

Mrs. John Musser, of Millheim, attended the commencement exercises Friday evening.

Mr. and Mrs. A. W. Rokenbrod, of Laurelton, will take charge of the hotel when vacated.

James Musser, of State College, was a visitor at the home of R. D. Musser for a few days.

Perry Kries will make sale of household goods at the hotel, Saturday, and will move to Pleasant Gap.

A special program is being prepared in the Reformed Sunday school for the observance of Mother's day, May the 9th.

E. P. Shook and employees are busily engaged in crushing stone for the purpose of making a foundation of concrete for the garage and repair shop which will be erected near the hotel.

Last Friday evening commencement exercises were held in the Grange hall. The room was beautifully decorated with roses, evergreens, pennants, and the class colors, black and orange, the class flower being a pink tea rose. The personnel of the class was pleasing. Music was furnished by the Spring Mills orchestra. Each of the class delivered

A BELLEFONTE CITIZEN TELLS OF HIS EXPERIENCE.

You have a right to doubt statements of people living far away but can you doubt Bellefonte endorsement?

Read it:
John H. Klinger, 220 E. Lamb St., Bellefonte, says: "I was annoyed by weak kidneys most all the time. At night my rest was broken by having to pass the kidney secretions too frequently and in the morning I felt tired. Doan's Kidney Pills were so highly recommended that I got a box at Krumrine's Drug Store and began using them. They relieved the backache and strengthened my kidneys."
