## STAIN NOT THE SKY.

Ye gods of battle, lords of fear, ho work your iron will as well As once ve did with sword and spear. With rifled gun and rending shell-Masters of sea and land, forbear The fierce invasion of the inviolate air!

With patient daring man hath wrought A hundred years for power to fly, And shall we make his winged thought A hovering horror in the sky, Where flocks of human eagles sail, Dropping their bolts of death on hill and

Ah, no! the sunset is too pure, The dawn too fair, the noon too bright, For wings of terror to obscure Their beauty and betray the night That keeps for man, above his wars. The tranquil vision of untroubled stars.

Pass on, pass on, ye lords of fear! Your footsteps in the sea are red, And black on earth your paths appear With ruined homes and heaps of dead. Pass on, and end your transient reign, And leave the blue of heaven without stain

The wrong ye wrought will fall to dust, The right ye shielded will abide; The world at last will learn to trust . In law to guard and love to guide; The Peace of God that answers prayer Will fall like dew from the inviolate air. -Henry Van Dyke, in the Independent The Hague, Netherlands.

# RETURNING FROM INDIA.

Through Some of It's Cities.

SHANGHAI, MARCH 8th, 1914. Dear Home Folk:

A dark, rainy, sullen Sunday and I am sitting trying to imagine myself warm in an English boarding house kept for missionaries. No, not by the biggest stretch of imagination could you think yourself comfortable on such a cold, wet day without any fire, but as I am going on to Pe-Astor House, a very decent hotel.

I had intended to write you some more women are the rowers-and such nice, by Jack Frost's naughty fingers. neat looking ones, fat, happy folks, who

plain English. Its medical information Hunch Almost Justified.

'After shaking hands at the ferry dock the other day, one colored man inquired of another: "Didn't you marry de Widow Jones about de first of Jinuary?" "Dat's me-I did," was the answer; "but I've dun left her." "Why, how's that?" "Well, de fust week she called me honey; de next Following is a list of old soldiers burweek she sulked around and called ied in the cemeteries of Ferguson and me old Richards; the third week she cum for me wid a flatiron, an' I'se College townships, as furnished us by kinder got a hunch she don't like

me."-Exchange.

#### Couldn't Prove It by Him. "It-er-seems," said he, regarding the unfortunate with scientific interest, "that the attacks of fever and chills appear on alternate days. Do you think-is it your opinion-that they have, so to speak, decreased in violence, if I may use that word?" The patient smiled feebly. "Doc," said he, "on fever days my head's so hot I can't think, and on ague days I shake so I can't hold an opinion."

Botanical Divisions. A teacher in a Woodland avenue school asked the other day: "How many kinds of flowers are there?" Three pupils held up their hands. She chose one to reply. "Well, Isidore, how many kinds of flowers are there?" "Three, teacher." "Indeed? And what are they?" "Wild, tame an' collie."-Cleveland Plain Dealer.

## Toads.

There is nothing very attractive looking about toads. If you should find one of the homely little fellows hopping about among your flowers and plants do not allow anyone to disturb him, as they are invaluable to farmers and gardeners. They destroy many insects and bugs that would otherwise rain plants.

Insect Pest Causes Heavy Loss. It is reported that the blowfly causes an annual loss of more than 1,000,000 sheep in Australia. Victoria has not yet seriously suffered from this pest, owing, no doubt, to the compulsory dipping of all sheep, and to the starlings, which are here found in large numbers.

Source of Loneliness. Loneliness is one of the bugbears of

mankind. With some people, it is a "The Russian common soldier is one constant source of unhappiness. They of the most patient of creatures. He has make plans, sometimes exceedingly He complex, to keep it at bay. They think follows his officers blindly. Judged by that it lies outside. new emphasis on the old message. Marfrom the rain. They wear hats shaped shoes, for the tiny feet, so deformed that the message needed in his day and he like a parasol and covered with oil-skin; the hats wide enough to even protect ing. I must just pinch myself to remem-the that this is prophet. Later came John Calvin, who emphasized the "sovereignty of God." Then John Wesley balanced the shoulders. It really seemed as ber that this is really my own self. And up things by advocating the doctrine of "the free will of men." He was followed by Charles G Finney, who thundered "the law of God," and next came Dwight L. Moody, who pleaded "the love of God." Each became a prophet for his day, because he saw the needs of his times. Each included the messages of his predboat drew alongside and in it were little lectors of taxes in boroughs and town- ecessors, but he added a fresh emphasis. The day has arrived for the proclamation of a great new truth-the social message of the gospel as contrasted with and what looked like crackers—all chop-ty they should peruse and become con-is just a trifle blind and a good bit selfish; the other connected with all that even remotely may touch a man's life in one way or another. And here's the slogan for the new crusade: "He that saveth his life shall lose it!"

#### NOT TO BE MINISTERED UNTO

Somebody once asked Canon Wilberforce: "Wilberforce, how is it about your soul?" And the great man replied: "To tell the truth, I've been so concerned er the Kingdom of God than many a zealot who is tremendously concerned about his own soul's salvation. There's a church in an Eastern city

which has a legend carved in the stone I wonder where they would stop; ability uired in section one of this act. Such which has a legend carved in the stone book shall be kept in the office of the "This church is conducted for the heads" "This church is conducted for the benefit of the people outside." This is social service: it is forgetfulness of self.

Jesus came not to be ministered unto but to minister. He came to give his life a sacrifice for mankind. This is the basis of all his teaching. This is the philosophy of his religion; and you will recall that he said to his disciples: "As the father hath sent me, even so send I you."

Some of us have been thinking only of

what we could get out of our religion. Jesus thought only of what he could put into it. You will remember that he spent much of his time healing the sick and feeding the hungry. He was so busy way that he was over-emphasizing the social service side of his mission, just as there are some solicitous people in the church today who cannot be patient with others who serve as their Master did. and who feel that his example and his precepts are a sufficient basis of action form. for them.

"He that saveth his life shall lose it . . and he that loseth his life for my sake" (and this means for the sake of our fellow men) "shall find it." This is the fundamental principle of

the great new crusade which is, after all, the oldest religion .- The Woman's Home Companion.

# A Great Gift.

Dr. Pierce's Common Sense Medical Adviser, 1008 pages, is sent free on re-ceipt of stamps to defray cost of mailing only. This great work contains the condensed wisdom of centuries added to the latest scientific discoveries concerning the origin and development of the hu-man race. It tells the plain truth in

"I don't believe that they know much in digestive processes. why they were fighting the Japanese who were a people practically unknown to them. But the 'Germanskis,' they have been told, want to take a big slice of Holy Mother Russia.

No sacrifice is too great to prevent this. Judging from the great masses of troops I have seen, and these include regiments from the Emperor's Guard Di vision and the Siberian Fusileers, I be lieve Russia to have the finest raw material for her armies of any nation of the buving her first turkey." "She was," world.' said the dealer, "and she was greatly

The Aeroplane's Uses in War.

As the æroplane is built today, it has Journal. only two uses in war that are really material, or likely to influence the general course of a campaign. Those are as scout and as director of artillery fire. Butler (to Rev. Dr. Priestley)-No. Upon occasion, of course, it is used as a sir, Mr. Baker cannot see you today. real offensive weapon; from it aviators He's very sorry indeed, sir, but he's drop bombs and tiny steel arrows upon the enemy, or make swift dashes into too well now to see any of the clergy. the hostile territory, and there bombard an airship shed and destroy or disable -Life. the lurking monster within it. Occasionally, one of these æroplanes may meet a slower-flying craft and put it out of action, or swooping down upon the enemy, it may stampede their horses, but these services are incidental to its chief work. It is when the scouting airmen, flying ahead of an army, are able to warn its commander of some impending attack that threatens to overwhelm him, that they render a service that may alter the fortunes of a battle, or even change the whole course of a great campaign-Claude Grahame-White, on "Aircraft in War," in the Youth's Companion.

"The White Man's Burden"

Medically speaking, is dyspepsia. The hurried eating of meals, the consumption of greasy foods, and improperly prepared dishes, tend to ruin the stomach. Ill-health and unhappiness surely follow. So long as men and women eat careless ly and hurriedly so long will Nature need the assistance of Dr. Pierce's Golden Medical Discovery. This great medi-cine acting directly upon the stomach and organs of digestion and nutrition, in-creases the flow of the digestive juices, cleanses the system of clogging obstructions, stimulates the action of the bloodmaking glands, and so builds up the body with sound flesh and strong muscle. "Golden Medical Discovery" contains no whiskey, alcohol or intoxicant in any tato at the surface.

The Blood and the Brain.

Among the many important physiological facts that should be as well known by people generally as they are by physicians, is the dependence of the brain for its proper action on the vitality of the blood. If this is impaired, the blood affords an imperfect stimulus to the brain, and, as a necessary consequence, languor and inactivity of the entire nervous system follows, and a tendency to headache or faintness makes its appear

It is probable that no other medicine ever produced has done more in the way of revitaliz the blood, making it pure and rich, than Hood's tion.-Amiel. Sarsaparilla, which should certainly be given a

Secret of True Industry.

Mrs. George Glenn, of State College, How profitable is it for every one of gave a dinner party on Wednesday, for a number of commencement visitors. us to be reminded, as we are reminded when we make ourselves aware of Ralph Gregory and mother, of Petersthe derivation of diligence from "diliburg, were the guests of honor. go," to love, that the only secret or

Dr. Ray D. Gilliland, with several chums, are planning an auto trip South next week. They expect to visit some of the old battlefields-Antietam, South Mountain, Gettysburg and other places of interest, and will be gone a week or ten days.

George Roan, who has been at the Wills Eye hospital for the removal of cataracts on both eyes, which almost blinded him, returned home Tuesday with his sight restored and able to read almost any kind of print. This his many friends will be glad to learn.

Frank Strouse and family are over from Baltimore for a week's outing and attending commencement exercises at old Penn State, of which Mr. Strouse is a graduate in the class of 1892 and the family have taken refuge at the old and well known Strouse home at Pine Hall; a royal place to stop.

On Monday evening while Mable and Ruth Swabb, in company with a gentleman friend, were driving to State College, their horse fell on the railroad crossi near J. H. Strouse's place. Passersby in an automobile rendered assistance and after the animal was gotten on its feet it was found to be little injured and the young people were able to contiune their journey without further misshap.

Col. J. Miles Kephart came up from Bellefonte this week and has taken quarters for the summer at the St. Elmo hotel. The Colonel is one of the best known men in Centre county and through his eight or ten year's residence in the south has imbibed enough of the southern style and vernacular as to make him appear almost "to the manor barn." It is hoped that his sojourn in Pine Grove Mills will prove the recuperative atmosphere he so much desires.

S. E. Weber, the implement dealer of Boalsburg, was quite seriously injured while on a trip to the Major Ross farm last Friday. He had gone there on busi-ness and when his work was completed went to unhitch his horse to go home. While in the act of doing so the animal frightened at something, made a plunge forward and jammed Mr. Weber in the right side with one of the shafts. He sustained several broken ribs and was otherwise injured. He was kept at the Ross home until Sunday when he was taken home in a car and is now improving.

Couldn't See Use of It.

At a town meeting a large taxpayer rose up to protest against building & new school house in a certain part of the town. "What's the good of it? They are an ignorant set down there anyway."
