**Wonderful Cuban Caves.**

The wonderful caves of Bellamar, Cuba, to the east of Havana, attract the attention of the ambitious tourist. They are on a plateau as level as a table top, which presents no signs of the existence of such caves. After descending into the earth, however, a picture unfolds itself. Then come many passages, and at last the great "Gothic temple," 250 feet long and 80 feet wide.

**Skunks Enemies of Caterpillars.**

A new field of usefulness has been found for the much-ridiculed skunk in the fact that it is a vigorous enemy of the full-grown range caterpillars. Birds are of no service whatever in destroying these large caterpillars, but skunks devour quantities of them, and this is another reason why these little creatures should receive more consideration than they now do.

**Loyal to Aunt May.**

Aunt May was the favorite aunt of little Ellen. One day the former said to her, naming three other aunts, "Which do you like best, Aunt Anna, Aunt Emily or Aunt Palmer?" Little Ellen looked thoughtful a moment and then said, "Why, I like Aunt Anna better than Aunt Palmer, but I don't like anybody best what isn't you."

**Onion's Good Properties.**

From the best authorities we learn that colds are caused by three things—a chill, a germ and a uric acid tendency which provides a soil for the germ's growth. The pungent oil of the onion neutralizes and destroys the germs that infest the mouths of us all, even of those in good health.

**Invented in 1589.**

The knitting frame was invented in 1589 by William Lee, a graduate of Cambridge university and a native of Woodborough, near Nottingham, England. So perfect was the invention in every detail that to this day the essential features of the machine continue in use for the class of work to which Lee applied it.

**Fireproof Wood.**

To make wood fireproof, slack a small quantity of fresh lime and add water until it has the consistency of cream; stir well and add one pound of alum, 12 ounces of commercial potash and about one pound of salt. Stir again and apply while hot. Two or three coats will keep wood fireproof for many months.

**Greatest Poets.**

Homer, Lucretius, Dante, Shakespeare, Goethe, Milton, Shelley, Byron, Tennyson, Browning. Perhaps others might be added. It is largely a matter of taste and temperament—although there is but little room for argument about the first six names.

**Dressy Collegians.**

Patience—"An automobile repair course has been added to the curriculum of an Iowa agricultural college." Patrice—"Now, in speaking of college tops, don't forget the overalls."—Yonkers Statesman.

**To Clean Copper.**

Copper articles that have become discolored can be made to look new again by rubbing them with lemon dipped in salt and afterward rinsing in clear hot water and polishing with a soft cloth.

**Trouble.**

"Are you coming when I call you, or is there going to be trouble?" said papa to his four-year-old daughter. "I t'ink dere's goin' to be trouble, papa," replied the tot, keeping out of reach.

**Keep Up the Fight.**

This alone is thy concern, to fight manfully, and never, however manifold thy wounds, to lay down thine arms, or to take to flight.—Lorenzo Scupoli.

**Guide for Daily Life.**

"Know what you want to do, hold the thought firmly, and do every day what should be done, and every sunset will see you that much nearer the goal."

**Kilometer.**

A kilometer is a length of 1,000 meters, equal to 3,280 feet, or 0.621 of a mile. The kilometer is the chief unit for long distances in the metric system of measurement.

**The Real Thing.**

An aim in life is the only fortune worth the finding, says Stevenson; and it is not to be found in foreign lands, but in the heart itself.

**Daily Thought.**

Sympathy is the safeguard of the human soul against selfishness.—Carlyle.

**Will Not Stick.**

To prevent postage stamps from sticking together, rub them over the hair before putting them away.

**In Chicago.**

Maude—"Harriet can read her husband like a book." Marie—"He is her third volume, isn't he?"

**The Fishing Banks.**

Newfoundland would be nothing without the great submarine plateau known as the "banks," on which all the fishing is done. At a small station within the edges of the great bank that the cod loves so well the sea is quite smooth. It is usual for vessels fishing on the banks to inquire from those that have arrived from the open sea as to what sort of weather it is.—Exchange.

**Quiet Shoes.**

To make nice sick-room shoes in which you can step about softly, cut from old felt hats sole and heel pieces. Glue these on and you have a quieter shoe than those sold as nurses' shoes. The pitter of little feet, so hard on some people's nerves, is easily deadened by the same method, also helping to keep the little feet warm when playing on a cold floor.

**Finest Dates Grow There.**

Beyond the land of the Berbers, in the far south of Morocco, lies the great oasis of Taflet, famous for its vast groves of date-palms. Here, for hundreds of square miles, the land is covered with a thick growth of the tall, straight stems of the palm, and the product of these close-growing trees is enormous in quantity. They produce the finest dates in the world.

**Good and Evil.**

We often try in vain to cut up our errors by the roots, to fight evil hand to hand on its own ground, where it has us at a disadvantage, whereas our most sure way to victory is by developing and fortifying the good that is in us. We have but a certain measure of strength and activity; as much of this as is added to the good is taken from the evil.—Mme. Swetchine.

**Miniature Cattle.**

The smallest cows in the world are found in the Samoan islands. The average weight does not exceed 150 pounds, while the bulls weigh about 200 pounds. They are about the size of a Merino sheep.

**Must Be.**

A Boston professor says that a man is at his best on January 15. That must be pay day with him.

**The Medicine of Life.**  
A faithful friend is the medicine of life.—Ecclesiasticus.

**Medical.**

**Not the Only One**

THERE ARE OTHER BELLEFONTE PEOPLE SIMILARLY SITUATED.

Can there be any stronger proof offered than the evidence of Bellefonte residents? After you have read the following, quietly answer the question.

Mrs. James Rine, 239 High St., Bellefonte, says: "My trouble was a torturing pain across the small of my back. It was constant and grinding and kept me in misery. I tried several medicines without finding relief. Finally I used Doan's Kidney Pills and before I had taken one box, I was free from pain in my back. At that time I told of my experience in a public statement and I now take pleasure in confirming that endorsement. The benefit Doan's Kidney Pills brought has been permanent." Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Rine had. Foster-Milburn Co., Props., Buffalo, N. Y. 60-26-1t
