

Italy Sends Men to Balkans

Austrians Capture 12,000 Serbs in Two Day's Fighting—Bulgarians Defeated in Mountains.

The long expected participation of Italy in the Balkan campaign seems at last to be under way, as Italian troops have begun landing on Albanian territory, according to a Chiasso despatch to the Journal la Suisse forwarded by the Central News correspondent at Zurich.

It is believed that the retreat of the Serbians and advance of the Bulgarians westward has aroused Italy to the danger it involves to her pretensions to domination of the Adriatic sea and that she realizes she must aid the allies with armed forces if she is to maintain her position.

Although the Austro-German advance is pressing the Serbians hard driving them towards the Kosovo plain, a defeat of Bulgarians by the Serbians in a battle in Central Serbia is announced in an official communication given out at the Serbian legation in Paris. Five Bulgarian cannon were captured.

The communication which gives partial confirmation of recent reports that the Serbians had assumed the offensive and defeated the Bulgarians follows:

"Battles occurred recently on the old Serbo-Turkish frontier. The most important encounters were fought to the west of Velika Plana and Mount Zetovatz. We inflicted a defeat on the enemy at the latter point, capturing five mountain cannon."

Velika Plana is twenty-five miles west of Nish, and thirty-five miles northwest of Leskovatz, in the region of which an important Serbian victory has been reported unofficially.

According to an announcement of Austrian army headquarters, General von Gallwitz's army pushed back the Serbians fighting northward of Pristina to within about thirteen miles of the city and took Sunday and Monday 12,000 prisoners.

Eastward and southward the Serbians are still tenaciously resisting the Bulgarians. Austro-Hungarian forces in the Ibar valley advancing on Mitrovitz Tuesday stormed powerful positions on the north side of the valley and one to the south, and gained full possession of the valley.

According to diplomatic advices received in Athens the Serbian government has been removed from Mitrovitz to Prizrend, in western Serbia, near the Albanian border. The diplomatic corps has gone to Petch, Monte negro.

Notable progress for the Bulgarians in the region southeast of Pristina, in Serbia, with the capture of 8000 Serbians, forty-four cannon and twenty-two machine guns, was announced by German army headquarters. The Teutonic troops have taken 1500 additional prisoners and captured six cannon.

GERMAN DREADNOUGHT SUNK

A despatch to the London Daily Mail from Rotterdam says: "One of Germany's newest dreadnoughts struck a mine Friday in the Baltic sea and went to the bottom. All the members of the crew were saved except thirty-three, who were drowned."

A despatch from Copenhagen says the German ship Markgraf has been sunk, and it is believed this vessel may be the dreadnought referred to by the Amsterdam correspondent.

The Markgraf has been placed in commission since the war began. It displaced 25,575 tons, was 530 feet long and carried 1100 men.

A GENERAL SURVEY OF THE WAR

THURSDAY.

Italy has landed an expeditionary force at Salonika to aid the French and English forces in Serbia. Bulgarians in the meantime, have captured Prilip, and are moving upon Monastir. The Serbian force which was dislodged at Babuna pass is supposed to have been driven into Albania. In a new offensive the British have gained 280 yards of Turkish trenches on Gallipoli peninsula.

Petrograd official reports say the Russians are pushing their campaign in Courland, that they have captured trenches south of Dvinsk and that there is heavy fighting along the Sty river. The Russian council of ministers has closed down 1000 industrial plants owned by aliens, throwing 30,000 men out of work.

Violent cannonading in the forest of Clivenchy, and artillery engagements along the Aisne and Somme rivers, are reported by the Paris war office. Berlin says a British surprise attack between Messines and Arras failed.

FRIDAY.

Germany announces the conquest of all Serbia, as she existed before the Balkan war. Bulgarian troops are pressing on toward Monastir, in south Serbia.

Berlin announces that German submarines have sunk two British warships and a British auxiliary cruiser off the north coast of Africa. A bitter struggle for Gorz, Austria is in progress, and Italy is said to be preparing to hurl 500,000 men against its fortifications.

Austrian airmen again have raided Venice, 1 German air raids against Poperiahe and Luneville, on the western front, also are reported. Petrograd officially announces the Germans have been driven back, south of Riga, and repulsed in their offensive efforts, near Dvinsk. The Germans are said to have lost 200,000 men on the eastern front during October.

SATURDAY.

Monastir, in southern Serbia, is reported captured by the Bulgars. Farther north, the main Serbian army has been forced back nearer to the Montenegrin frontier. Berlin announces the capture of 2800 Serbs.

Geneva hears that Austrians admit the capture of Gorz by the Italians is inevitable. Austrian airmen have raided Udine, Verona, Vicenza and Grado, in the Province of Venetia, killing twelve persons.

Petrograd reports that 700,000 new Russian troops will be ready for the front in a month, and that by spring 2,000,000 new and well equipped men will be prepared to take the field. Snow and cold weather have interfered with operations in Russia. London hears the Russians have retired to the east bank of the Sty, in Gallicia.

SUNDAY.

The Austrian forts at Gorizia have been smashed by the Italian guns, a Geneva despatch says. Italian gains are announced in the region of Oslava and Monte San Michele. Five hundred delegates of British trade unions passed a resolution pledging resistance by revolt if necessary of the regulations shortening the hours for the sale of liquor.

Join the allies or demobilize is the demand made by the entente allies to Greece, says an Athens report. A commercial blockade of Greece also has been proclaimed, the despatch also declares.

By fiercely opposing the Austrian advance, Montenegrin troops have apparently saved the retreating Serbian army, giving it time to escape the quickly closing net drawn about it by the Austro-German and Bulgarian forces.

MONDAY.

The allies have declared a blockade against Greece in an attempt to compel assurances that Serb troops will not be interned if driven beyond their own borders, as the Germanic powers insist they shall be.

Serb successes are reported from Macedonia, where it is said the Bulgarians have been forced from Prilip. English troops have reached Monastir, Serbia, and Serbian forces are moving to form a junction with them. Berlin reports the capture of 2000 Serbians in north Serbia.

Italian operations against Gorz, Austria, progress, and its fall is expected momentarily. Operations along the Riga-Dvinsk front, in Russia, temporarily are in abeyance. Petrograd reports heavy fighting along the Sty river, and the recapture by the czar's troops of Tchartorysk, in that region.

Heavy artillery action by the allies along the battle front in France is regarded by the Germans as a prelude to another general offensive.

U-Boats Sink Two British Ships

The British steamships Hallamshire, 4420 tons gross, and Merganser, 1905 tons, have been sunk. Their crews were saved. The British steamship Salsette, from London for Bombay, is ashore south of Ras Abu Boreh, in the gulf of Suez. She has signalled for assistance.

The woman rallied well from the operation. Several dozen doctors and medical students watched the operation.
