Items of Interest Dished Up for the Delectation of "Watchman" Readers by a Corps of Gifted Correspondents.

To Correspondents.

Correspondents of the WATCHMAN are again requested to get their weekly letters to this office as early as possible, preferably on Tuesday. This will insure their proper consideration at the hands of the editor and very little danger of being blue penciled. Correspondence that is received late, the day before and the day of publication, is liable to be cut down in the rush of matter that crowds the editor's table at that time. So get your letters in early.

PLEASANT GAP PICKUPS.

Winter will now proceed to storm the trenches. It's easy to be contented with your lot when you've got a lot. If common sense were a fatal disease few people would ever die of it.

Hope is like an empty barrel; it will keep you afloat, but there's nothing in it to live on. A wife may be a man's conscience, but she is not always what you'd call a still, small voice.

The most important difference between a financial genius and an out-law, is that the financial genius gets away with it. Among other things to be thankful for is that we have today the greatest, grandest, most peaceful and most prosperous nation in the world.

Henry Noll, a student of the Williamsport Dickinson Seminary, is spending his Thanksgiving vacation with his parents, Mr. and Mrs. Abner Noll.

The woman's peace party—or some of the party—oppose military toys for children. But what are they going to do with the little boys' fists? A good, kind, generous and lovable man will never ask his wife or children what they did or how they spent the nickel or dime he gave them last month.

Mrs. Elmer Musser disposed of her household goods on Saturday last at public sale and left on Wednesday of this week for Wilmerding, her future home. We have some people about the Gap who are working their mouths overtime. It's to be regretted that there's no penalty for such offences, but it seems there isn't.

Our neighbor, the venerable Abram V. Miller, left a few days ago to spend his annual winter vacation in Philadelphia. He expects to be absent from home at least six weeks. Mrs. Frank Weaver and daughter Freda, returned from a week's sojourn in Williamsport. They combined pleasure with business, and report having had a most enjoyable time.

Fred Dunzig has opened an attractive ice cream and confectionary parlor in his new building in the Leather's Addition. Among other attractions is a thousand dollar soda fountain. D. N. Yoder, one of the new penitentiary officials, has joined the Kerstetter-Horner hunting club and is now enjoying a much needed recreation with the boys in the Seven mountains.

Talk about what is going to happen to us after the war doesn't scare anybody. Show the American people some sign of approaching peace, and they'll take care of the resulting complications. Bryan objects to a quotation from Ezekiel about a watchman blowing his trumpet, which is passing strange as a political watchman who spends a large portion of his waking hours in blowing his own horn.

The ladies of the M. E. church are jubilant over the fact that they were so liberally patronized on the occasion of their festival on Thanksgiving evening. They realized forty-five dollars over and above all expenses. We have a hen-pecked husband over in Horntown who says he is possessed with a wonderful faculty of standing alone. But, then, as a rule the people who can stand an over-production of abuse generally have it.

Raymond Milroy, student of the University of Maryland, is spending a few days with his parents in Huntingdon county, and incidentally took advantage of a brief stop off at Pleasant Gap to visit a near and dear friend.

Mrs. Rachael Miller, after a few days visit to Bellefonte last week, returned home all broke up. Something unusual for Mrs. Miller, as she is proof against the most inclement weather, and usually looks at the bright side of all conditions—and is seldom known to complain. The time has arrived when about all sensible and honest people believe that we are safely past the likelihood of becoming involved in a war with Germany. Notwithstanding this fact, a few of the supposedly bright intellects of Pleasant Gap have conceived the imaginary bright idea of sneering at Woodrow Wilson for upholding the policy that kept us out of it.

The butchering season is now fully on at Pleasant Gap and vicinity. Butcher Frank Keen, who is quite an expert as a family butcher, has had a butchering for the past two weeks, barring Sundays, and has dates ahead up to December 24th, while Mr. John Uhl is likewise following the same vacation daily and is obliged to decline dates, at the same time Mr. John Eckel, proprietor of our new, up-to-date meat market, also slaughtered twenty-seven hogs in the last two weeks. This pork product is no doubt responsible for the high prices asked for corn by our farmers. The Kerstetter and Horner newly reorganized hunting club of Pleasant Gap left for the Seven mountains on Tuesday. Three automobiles and thirteen hunters constituted the procession. The team consisted of W. W. Kerstetter, A.

M. Kerstetter, Harold Kerstetter, Robert Kerstetter, George Horner, Walter Dunkelberger, Gomer Dunkelberger, George Gettig, Oscar Lonebarger, D. H. Yoder, Doc. Jerry Stover, Edward Noll and Harry Horner. Among the outfit are two large tents and three American flags, the latter being evidence that the aggregation are patriotic in the extreme.

We always have strange rumors in war times. The latest and most amusing is the report from Canada that Col. Roosevelt may take a command with the Canadian contingent at the front. The rumor has it that it will be a high command, possibly an entire division. It's not plausible. To think that Mr. Roosevelt would surrender his citizenship and go into the trenches when his own people were electing a President. Roosevelt is an ambitious warrior. And Bryan stands for peace; neither will absent himself from the United States. Their ambitions won't tolerate it.

Fifty years ago the people of Pleasant Gap said that the timber of the Nittany mountain and Greensvalley was a thing of the past. The mountain at that time resembled a barren waste, nothing visible but rocks and underbrush. Little did the people think that nature would favor us with a second growth that would prove prolific and quite remunerating. It is simply astonishing the amount of timber that has been removed from the territory in question. Teams galore have been busily engaged in delivering railroad ties, mine props, chemical wood, etc., to the railroad station. The good work is progressing and no end in sight.

It is alleged that the stockholders of the Whiteerock lime quarries will at their meeting on December 1st, authorize a substantial loan; that they anticipate the construction of a railroad to penetrate their productive limestone farms down the Nittany valley, and thus develop their immense holdings. In that event it is claimed that at least three hundred employees would be added to their present payroll, and thus create a new boom for our already flourishing village. Nobody questions the ability of the general manager of these works to accomplish anything that is within the compass of human possibility. It is to be hoped that the project under contemplation will materialize into a certainty.

The Rev. J. N. McKechnie, pastor of the Pleasant Gap M. E. church, starts his annual revival here on Sunday evening next, with a view of christianizing our community. It is to be hoped that he will meet with abundant success, as religion is a most cheerful and happy thing to practice, but a most sad and melancholy thing to neglect, this being the most important subject that can interest the attention of mankind; infinitely more so than the great questions of human policy, which awaken the energies of the statesman, and arouse the wisdom of a nation; for the effects of religion are felt in this world amid all the vicissitudes of fortune, and they extend beside into the grave, into the depths of eternity. Religion adds dignity to the noble, gives wisdom to the wise, and grace to the lonely. May success crown the efforts of this noble, incessant worker and christian gentleman.

I am not the owner of an automobile, but I believe that the motor drivers should have a square deal. Not long since, when a man owned a motor car he was looked upon by everybody as a man with an abundance of money and, naturally, being king of all he surveyed, willing to pay for what damage he did. With this spirit grew another, fostered by the pedestrian generally, and the man with a horse, resulting in the ordinary man putting the fellow with a motor car in a hole at every possible opportunity. If the motorist could be held up on a narrow road or a bad street crossing nothing would better please the ordinary fellow walking or driving a horse-drawn vehicle. The day has passed, however, when the motor car is considered a luxury. The majority of cars being driven today are used in a business by the ordinary man and the general feeling that the man who drives a motor car is a money-bag is rapidly departing from the people who do not drive cars. The spirit of putting the motorist in a hole has not departed to such an extent and many instances are seen every day where drivers of horse-drawn vehicles, bicyclists and even pedestrians will do things right down mean to put something over on the man at the wheel. The expression of such a spirit often results in serious accidents and is harmful in many other ways. Why cannot the motorists and the fellow driving a horse or riding a bicycle have greater consideration for each other? They should adopt the spirit of life and let live. The man on foot, riding or driving a horse should consider that the task of driving an automobile is not an easy one, that it's hard to stop a car as you would a horse and that they are much more cumbersome than the people who can stand an over-production of abuse generally have it.

Robert Kustaborder and wife motored from Warriorsmark and spent Thanksgiving butchering at the Milton Carver home on the college farm No. 4.

Frank E. Weiland, the hustling coal and grain merchant at Linden Hall, loaded several car loads of hay at the Pennsylvania Furnace station the past week.

Editor Charles McGinney Hood spent Thanksgiving with his family in the Lumber city, which accounts for the lateness of the State College Times last week.

Amos Koch, of Aaronsburg, visited the L. O. Campbell and George and Harry Koch homes last week. Although afflicted with rheumatism he is otherwise in good health.

The chicken and waffle supper on Thanksgiving evening was a success socially and financially. Forty chickens and stacks of waffles were consumed, and the treasurer enriched by many dollars.

Mrs. Susan Fry and sister, Mrs. Esther Ritchie, of Altoona, spent several days last week at the home of their parents, Mr. and Mrs. L. H. Osman, at Pine Hall, and with their sister, Mrs. H. C. Bloom. They returned home on Monday morning.

brothers were in service and two of them killed in battle. Though three score and ten Mr. Bell is still engaged in active farming and is a whole souled, genial gentleman. Of course a big dinner was one of the features of his anniversary gathering, and he also received many tokens of esteem from his various friends.

A large gobber graced the table at the Samuel Weaver home at Lemont on Thanksgiving day, and Mr. and Mrs. James M. Williams were invited to help eat it. Mr. Weaver has been track boss at the Lewisburg and Tyrone railroad at Lemont ever since it was opened for traffic. He was given a promotion recently and in a short time will move to Watsontown. Both he and his family will be greatly missed in their old community.

J. N. Bell recently celebrated his seventieth birthday anniversary at his home near Spruce Creek by entertaining a jolly lot of friends and neighbors. Mr. Bell was born in the Glades, being a son of John and Margaret Bell. His ancestors were pioneer settlers in Ferguson township and had several thrilling experiences with Indians. Mr. Bell's wife was Miss Sadie Goss and all their married life has been spent in Spruce Creek valley excepting two years which they spent in eastern Tennessee. That was in the early seventies and the country had not yet settled down from the excitement of the Civil war. Three of Mr. Bell's

Medical. Letter Tells of Long-looked-for Prescription.

Dear Mr. Editor—I am making a personal appeal to your readers who are bothered with kidney and bladder trouble and rheumatism, to give up the use of harsh salts, or alcoholic kidney medicines and in their place take a short treatment of "Anuric" and be convinced of its wonderful virtues as I was. I suffered great pain, had a great deal of irritation, water became foul. I tried everything advised but with no results. I sent for a box of "Anuric Tablets" and soon discovered that they brought relief. I have used them since, and now the water is natural, my health good, and appetite splendid. Some of the doctors pronounced my trouble enlarged prostate. Now I have no more trouble and I most assuredly feel that this latest discovery of Dr. Pierce's is the best remedy for bladder and kidney troubles that I know of. If I can induce anyone to give it a trial, I feel that he will thank me for calling attention to this great boon that relieves this seemingly worst of all troubles that human flesh can fall heir to.

(Signed) H. H. FLEISHER.

NOTE: Up to this time, "Anuric" has not been on sale to the public, but by the persuasion of many patients and the increased demand for this wonderful healing tablet, Doctor Pierce has finally decided to put it into the drug stores of this country within immediate reach of all sufferers.

Simply ask for Doctor Pierce's Anuric Tablets. There can be no imitation. Every package of "Anuric" is sure to be Dr. Pierce's. You will find the signature on the package just as you do on Dr. Pierce's Favorite Prescription, the everlasting friend to ailing women, and Dr. Pierce's Golden Medical Discovery, proven by years to be the greatest general tonic and restorer for any one.

At any rate don't give up hope of being cured of your malady until just a few doses of "Anuric" have proven that it will make you feel like a different person.

Medical. Case After Case.

PLENTY MORE LIKE THIS IN BELLEFONTE.

Scores of Bellefonte people can tell you about Doan's Kidney Pills. Many a happy citizen makes a public statement of his experience. Here is a case of it. What better proof of it can be had than such endorsement?

Fred Scott, 247 E. Lamb St., Bellefonte, says: "Jolting over rough roads had a bad effect on my kidneys. The trouble started with pains across the small of my back and if I stooped, I could hardly straighten. I got a box of Doan's Kidney Pills at Green's Pharmacy Co., and found relief after taking the first few doses. One box made a cure and I have not had the slightest backache since."

Drice 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Scott had. Foster-Milburn Co., Props., Buffalo, N. Y. 60-48

Hood's Sarsaparilla.

Pure Rich Blood Prevents Disease

Bad blood,—that is, blood that is impure or impoverished, thin and pale,—is responsible for more ailments than anything else.

It affects every organ and function. In some cases it causes catarrh; in others, dyspepsia; in others, rheumatism; and in still others, weak, tired, languid feelings and worse troubles.

It is responsible for run-down conditions, and is the most common cause of disease.

Hood's Sarsaparilla is the greatest purifier and enricher of the blood the world has ever known. It has been wonderfully successful in removing scrofula and other humors, increasing the red-blood corpuscles, and building up the whole system. Get it today. 60-46
