PINE GROVE MENTION.

Mrs. Elsie Meyers spent Saturday visiting her mother, Mrs. Peters, on east Main street. Clem Fortney, of Altoona, spent the early part of the week among relatives in the valley. Mr. and Mrs. C. M. Dale and Mr. and Mrs. J. F. Kimpfort spent Saturday with friends in town. Riley Hunter went over to Mount Union on Friday to accept a job at the new power plant. Jackson, taking possession April first. James P. Aikens, proprietor of the Nittany Inn, spent several days last week renewing old acquaintanceships at Harrisburg. The Stork visited the Hershell and Albert Harpster homes last week leaving a daughter at the former's and a son at the latter's. The venerable Peter Cori went to Philadelphia on Tuesday to continue the treatment which has already benefited him very much. John Garner is carrying his arm in a sling on account of a broken bone sustained when his auto back-fired and the crank struck his arm. Mrs. Frank Strouse and daughter Edna, of Baltimore, returned home on Monday after spending ten days or two weeks at the well known Strouse home. Rev. Victor Nearhoff, the new supply pastor on the charge here, very ably filled the pulpit on Sunday evening. Though quite a young man he is a fluent speaker and his various congregations like him very much. Mr. and Mrs. Frank Yetter and two interesting children of Mt. Union, are visitors at the A. L. Weiland home, and taking in the sights at State College. As this is their first visit to that big educational institution they are naturally much impressed with it. Frank Smith, who had charge of the Star mail route from this place to State College, sold his personal effects on Friday and went to Altoona to engage in painting. George Keller is the sub-contractor and is delivering the mail with clock-like regularity. Saturday evening was installation night for the newly elected officers of Pennsylvania Lodge No. 276 I. O. O. F., and while there was a large turnout to witness the services as performed by Past Grand R. M. Krueger, a few of the new officers were absent and they will be installed next Saturday evening. AARONSBURG.

Mrs. Daniel Stettler has returned home after spending the winter in State College. Clinton Stricker spent Sunday with his family, returning Monday to his work in Lewistown. Willard Burd is visiting for a few days with his mother, Mrs. Mary Burd, in State College. Earl Cummings left on April 1st for Akron, Ohio, where he expects to find employment. Mrs. J. G. Meyer, who for the past week has been quite ill, is not much improved at this writing. Miss Alma Miller, of near Rebersburg, is visiting Miss Nellie Burd, in her new home on north 2nd street. Mrs. Bartlett and baby Elinor on Monday went to State College, where they expect to remain for some time. Miss Lizzie Yarger, who has been staying with her sister, Mrs. A. S. Stover, has gone to Centre Hall for an indefinite time. James E. Lenker, of Lemont, paid his mother and sister a few day's visit. Mrs. Lenker has not been in good health for some time. Mrs. George McCormick and two children, of Potter's Mills, spent a week very pleasantly with Mrs. McCormick's parents, Mr. and Mrs. E. G. Mingle. L. J. Bartlett on Saturday went to Lewisburg, where he will resume his studies in Bucknell University, from which institution he will graduate in June. Mr. and Mrs. Eben Bower, of Bellefonte, spent Sunday with Mr. Bower's parents, Mr. and Mrs. E. A. Bower. Their many old friends are always delighted to greet them. Walter Orwig and Mrs. C. G. Bright left Monday morning for Akron, Ohio, where Mr. Orwig will again seek employment and Mrs. Bright will visit John Bright and other friends.

NITTANY ITEMS.

Paul Emerick has returned home after completing his course at the Williamsport Commercial school. A. R. McNitt and Miss Lulu McMullen were welcome callers at the J. H. Beck home on Sunday evening. Malcolm Emerick, a student at Bucknell, returned to Lewisburg last Wednesday after spending his vacation with his parents. Mrs. Anna Frain came home from Jersey Shore on Saturday evening, where she has been working for some time. Her health has not been good of late and she means to take a short rest. William Beck has sold his famous bay team to George Wilson, who expects to use it at the McNitt lumber yards. The team was a little too spry for the farm. William is talking of trying a tractor. The graduating class of the Walker township high school with their teacher, Mr. Markle, were invited to the home of school director James Nolan, at Huston, on Friday evening of last week. The class were all present and much enjoyed the splendid supper and the kind hospitality of their host and hostess. Miss Lenora and Mr. Mervin Nolan are members of the class. A pleasant evening was spent and the late train came all too soon to carry the class to their homes. Among the movings down the valley that of Charles Emerick, on Thursday, to the J. H. Long farm near Nittany, was one of the largest and most enjoyed. Everything was moved and put in place with little breakage, and we trust the family may long enjoy their new farm. A number of their neighbors helped them move. Mrs. Emerick had invited her pastor, Rev. W. J. Shultz, and the members of the Missionary society of St. Mark's church, of which she is president, to enjoy the bountiful dinner which was served, and from all reports they did justice to the meal. Every one present enjoyed the occasion and join in returning thanks to Mr. and Mrs. Emerick for their kind hospitality.

LEMONT.

Moving is all the go now. Mrs. Walker visited over Sunday with her son Roy. Jacob Ray and wife are visiting among friends in Selinsgrove. Charles Coble and family spent Sunday at the home of John M. Coble. A large flock of wild-geese passed over here on their way to the north-land. Orin Williams and family are at Dewart, where he is employed in the creamery. Samuel Swann, who spent the winter in the west, came east, landing Wednesday. The warm days last week seemed like spring, but this week opened cold and snowy. The schools of College township have

all closed, excepting the Centre Furnace school. The frogs are busy croaking these evenings to enliven the people and make them think of spring. James E. Lenker was called to Aaronsburg the latter part of last week on account of the illness of his mother. Jacob Murray had the misfortune to run off the state road near the bridge that crosses Spring creek, west of town, and wreck his automobile, on Monday.

REBERSBURG.

Schools Close—About all the township schools have closed with the exception of the High school, which will end during the last week in May. The teachers are now looking out for another job to teach next winter, except those who got married or will be married. The Stork.—The stork visited our valley last week and made three families very happy. Paul Hackman is all smiles, as this is something new for him. James Confer is also smiling, but the second time, so that the feeling is not so novel. Mrs. John Zeigler was also the happy recipient of a baby. From what we are able to learn, they are all girls. A large number of people have been moving from out this valley. We have added some new citizens to our valley, and lost others. It would make a long list if we would have a complete list of them. Suffice to say that they are about done moving their earthly goods from one point of the earth to the other for this year, as all will be glad when each of them has things fixed up once more in good working order. Miles township now has a new Buffalo Pitt Steam roller to its credit, and is now able to make as good road as the state highway wherever the state highway does happen to build roads for political purposes. If the state highway does not get a move on "quickly the township will get far ahead and give it a few samples of quickness and pep. Plans are being made to use it first, so it is doing work over there first by way of earning something on the way coming here. Great excitement is at present prevailing in our peaceful little town on account of a few widowers expecting to become married at any time when no one is supposed to know. There is being some watching done, however, for the happy time which will also be made very lively ones it is reported. These older folks are going to show the rising generation "how to do things" in the line of making noise and keep the newly married people from sleeping and giving them a needed rest. Hotel License Secured.—Clarence Long secured license from Judge Quigley to continue selling whiskey at the Rebersburg hotel and Clarence is doing a good business, too. The Rebersburg hotel is the only near place where whiskey can be secured. They come a long distance to have that aching thirst satisfied, and it is generally well satisfied before leaving the hotel. George Miller, has already brought a few loads from Coburn during the last few days, and still a great deal more is ordered. Just how long the selling will continue depends upon the decision of the higher courts, we are told. There will be plenty time to get several more drinks if gotten without great delay.

HORSE SALE—Last Tuesday Mr. Yoder had another one of his sales of western horses at the Rebersburg hotel. The sale was very largely attended by people from Centre, Union, Clinton, Snyder, and other counties. Mr. Yoder has a reputation for being perfectly honest in all his dealings and has the confidence of the people. This lot of horses was an exceptionally fine selection and all of them sold at

good prices. Our valley has a good reputation as a place to sell horses, which is gradually improving our supply of horses in this valley. Between three and four hundred people attended the sale. Mr. Yoder announced that in a few weeks there will be another sale near here. The engine, boiler and some other machinery was moved to some other place last week and all that is now left to tell the story of the attempt to find oil and gas in this valley is the large derrick and some machinery belonging to it. No one knows when, if ever, it will be returned to complete the drilling. They drilled not quite nine hundred feet, not yet sea level, which at that point is about twelve hundred and fifty feet. Mr. Beyer after waiting a long time on the gas which was once reported to have been found, had finally to buy a gasoline engine. Garrett could also wait no longer. The oil business has a somewhat tricky history, as few know the inside workings of it, especially not those who have land to lease.

TRAITS OF ANIMAL CREATION Even the Most Famous Naturalists Have Been Unable to Explain Satisfactorily. There are a great many strange facts about animals and insects that seem to defy explanation. Here are a few, an exchange says: A fly will crawl to the top of a window pane, fly back to the bottom and crawl up again. Hardly ever does it fly up and crawl down. It has been known to repeat this former act over thirty times before stopping. Hens always scratch for food with the sun behind them. A blind hen always manages to get the sun behind her when scratching, and she will miss but few bits of food. Cats hardly ever lie with their feet to the fire. In most cases they lie instead with their left side to it. Dogs invariably lie with outstretched paws to the fire. A mouse overlooks a perfectly safe food supply, sufficient for a meal or two, to enjoy the perilous pleasures of an unlimited store. It will hide near the food and come out to nibble when hungry, for it is not true that a mouse will seek its hole at the first alarm. If a small snake is kept in captivity and fed and cared for, it will become tame, and after a few months crawl to its captor for food, when approached. This is true especially of the small and harmless varieties. The unerring ability of the homing pigeon to find its former abode is not due to a sense of location, but rather to a natural instinct, which cats and dogs have displayed when taken from their homes.

Robbin's Peculiar Affection. A robin which Edward Beltrando, a Red Lion (Pa.) shoemaker, saved from a cat has developed such an affection for its rescuer that when other robins in the vicinity migrated it remained behind. Although the bird was never caged it does not stray far from the shoemaker's shop, coming there at intervals during the day and sleeping in the shop every night.—New York World.

City Men Better Developed. City men are better developed than country men, according to the report of a German army surgeon, who bases his statement on the result of the examination of 10,000 soldiers. He says the farmers were inferior in carriage and in development of bone and muscle, and that he found among them more cases of curvature of the spine, flat-foot and varicose veins than among the city men.

Medical. Bellefonte's Reply BELLEFONTE ACCEPTS THE EVIDENCE AND MANY BELLEFONTE READERS WILL PROFIT BY IT.

Which is the more weighty proof—a few words from a Bellefonte resident, whom we know and respect, or volumes from strangers in distant towns? There can be only one reply. Mrs. Mattie Evey, Bellefonte, says: "Off and on for years I suffered from kidney trouble. My back was stiff and sore and I had pain across my loins. I had a dull, heavy feeling in my head and black spots often floated before my eyes. Dizzy spells were common and I usually felt languid. Doan's Kidney Pills were the only medicine I ever took that did me any good. Others of the family have taken Doan's Kidney Pills and have had as quick relief as I."

How's your Blood? PIMPLES AND ERUPTIONS MEAN BAD BLOOD People who have impure or impoverished blood should be careful to take only a vegetable and temperance remedy such as Dr. Pierce's Golden Medical Discovery is and has been for nearly 50 years. Its ingredients printed on wrapper. The first day you start to take this reliable medicine, impure germs and accumulations begin to separate in the blood and are then expelled through the eliminative organs. In place of the impurities, the arteries and veins gradually get fresh vitalized blood and the action of this good blood on the skin means that pimples, boils, carbuncles, eczema, rash, acne and all skin blemishes will disappear. Then you must remember that when the blood is right, the liver, stomach, bowels and kidneys become healthy, active and vigorous and you will have no more trouble with indigestion, headache, etc.

Lewisburg, Pa.—"I had been bad for two years with stomach and liver trouble and was gradually getting sicker. I had spent a good deal of money on the doctors but did not get over my trouble. Two years ago I began using Dr. Pierce's Golden Medical Discovery. I got better as soon as I began to take it. I have had more appetite and kept more comfortable and enjoyed better health since using it than I had before in years."—MRS. JANE WEAVER, 615 St. Catherine St.
