Hood's Sarsaparilla.

Get Rid of Humors

HOOD'S SARSAPARILLA, IS THE MEDICINE TO TAKE-MAKES PURE BLOOD.

Dry, moist, scaly tetter, pimples, boils, and other eruptions come from humors, which may be either inherited, or acquired through defective digestion and asimilation

To treat these eruptions with drying nedicines is dangerous.

Hood's Saraaparilla, the old reliable medicine, helps the system to discharge the humors, and improves the digestion and assimilation.

Get Hood's Sarsaparilla from your druggist. It may be confidently relied upon to do its work. It purifies the blood, tones the stomach, and builds up the whole system. It goes to the roots of diseases, and its beneficial results are permanent. It sets things to rights in the system. Remember to ask for Hood's

Sarsaparilla, because nothing else acts like it and nothing else can take its place.

Why "Anuric" is an

Miss Grace Dale departed for a outward appearances, vitality and partment of experimental pomology month's visit among friends in the diseases, in selection of breeding at the Pennsylvania State College

As a guide to fruit growers the de-partment of experimental pomology stock. e The first requisite for birds intend-ed for breeding, according to The Pennsylvania State College is strong vitality, which is shown by activity in all birds, by the cackle and song of the females and by a lusty crow and gallantry in males. A cock should never be mated to a hen which has the same weak points as his own. For instance Company will take a risk on your life the examining physician will test the urine and report whether you are a good risk. When your kidneys get sluggish and clog, you suffer from backache, sick-head-ache, dizzy spells, or the twinges and pains of lumbago, rheumatism and gout. The urine is often get sore and sleep is disturbed two or three times a night. This is the time you should consult some physician of wide experience—such as Dr. The

as his own. For instance, a cock nearly ideal in size and shape of back but slightly deficient in breast Buffalo, N.Y. Send him 10 cents for sample package of his new discovery, "Anuric." Write him your symptoms and send a sample of urine for test. and send a sample of urine for test. Experience has taught Dr. Pierce that "Anuric" is the most powerful agent in dissolving uric acid, as hot water melts sugar; besides being absolutely harmless it is endowed with other properties, for it preserves the kidneys in a healthy condition by thoroughly cleaning them. Being so many times cleansing them. Being so many times more active than lithia, it clears the heart valves of any sandy substances which may clog them and checks the degeneration of the blood - vessels, as

contain approximately eleven mole-cules of nitrate to the quadruple of man or woman who works is more cellulose, as shown in the formula, or sympathetic to the troubles of others a content of nitrogen that ranges between 12.93 and 13.05 per cent. than he or she who does nothing. The girl who works finds time to help her The process is delicate and com-plex, for the proportions of acids and water must be exact and all must be chemically pure. Besides this, the cellulose must be of uniform grade,

George Bell and wife and aunt Margaret Brown motored down from Spruce Creek and spent Sunday in town.

H. H. Goss and wife and S. E. Ward and wife autoed to he Mountain city on Saturday, returning home Sunday.

M. G. Harpster, William Miller and Isaac Harpster, three of Tadpole's progressive farmers, were here Saturday evening.

J. W. Keller, of Linden Hall, with his son, J. W. Jr., were Sunday visitors at the J. H. Williams home on Main street.

Rev. Mr. Fleck will preach the an-nual sermon to the Odd Fellows on June 4th, in the Lutheran church. Everybody is invited.

The venerable Amos Koch, who has been quite ill most of the winter, is now visiting friends in the valley, though still quite frail.

Misses Mary Goss and Margaret Cree are now enrolled as students at the Ladies College, at Kent, Ohio, taking a teacher's course.

Prof. C. A. Weaver, who has been working in a munitions factory at Milton, is home on a vacation, which he is spending at digging garden.

Mrs. Mary Pifer, after a month's stay at the J. I. Reed home, returned to her home in Lock Haven last week. Mrs. Reed's health is some improved.

A home coming of their children and grand-children gladdened the hearts of grandpa and Mrs. John E. Reed at Rock Springs on Sunday.

Mrs. Sadie Everts, Miss Athalia Ward, Albert Reed and W. E. McWilliams attended the Sunday school convention at Howard Tuesday and Wednesday.

After a month's visit at the old family home Mrs. Florence Kepler Meade, with her little son, DeVoe Meade, has gone to her home in Ithaca, N. Y.

Mrs. Ida Williams is at Linden Hall this week looking after the store of her sister, Mrs. J. W. Keller, who is attending the commencement exer-cises at Franklin and Marshall College, Lancaster; her son graduating for the ministry.

Arrangements have been completed for Memorial day exercises on May 30th. Details from Capt. J. O. Campbell Post No. 272 G. A. R., will hold services in the forenoon at Tadpole, Goheen, Aulsworth and Meek cemeteries, and with the aid of the school children decorate the graves of soldiers who have answered the last roll call. The services in this place will be at two o'clock in the afternoon and the Post will be assisted by the Citizen's band, civic societies and the Sunday schools. Rev. J. McK. Reiley will be the orator of the day. Memorial services will be held at the Pine Hall cemetery at six o'clock in the evening. There the Post will be assisted by the Pine Hall band, the P. O. S. of A., of State College, and school children. Rev. Mr. Horner will deliver the Memorial address. The public is uncertainty of the source of the public is urged to take part in all of these exercises.

New Family Remedy.

European war iodine is now being erging, as determined by cage obser-used for wounds almost to the exclu- vations in the orchard. Materials sion of other antiseptics. A single shipment of 300,000 pounds of the pure crystal was sent to one government for hospital use, he said.

"Iodine should be used around the barn," also he added, "for dressing wounds on live stock. It is especially valuable to prevent development of 'lockjaw' from wounds containing sta-ble and howmand dirt" ble and barnyard dirt." -Have your Job Work done here.

Dr. Forsythe advised using the tincture of iodine at one-half the usual strength, i. e., five per cent, or weaker. He said it should be kept in bottles having glass or rubber stop-A Woman's Back pers. He recommended painting the wound and around it without previous

washing, and said the wound could then be left uncovered or bandaged with a clean cloth. He warned against using the so-called "colorless iodine" as a substitute for real iodine.

Feather Beds.

Do you know what the boys and girls of far-off Norway sometimes think when they see the dainty, feath-ery snowflakes flying through the air? If we were there when they have the first snowstorm of the season we could hear them shouting gleefully to

each other, "See, O, see! Mother Hulda is shaking her feather bed." There is a story about this Moth-er Hulda and her feather bed that is told to the little ones there. She lives, it is said, far, far above this busy world, with the clouds for her home, the sun for a lamp and fire. She is always very busy, and es-pecially so at the beginning of wingreat feather bed, and after that is done she spends all of her time in shaking it. Indeed, she shakes it so much that she wears many holes

in it, through which the feathers fly in all directions. The wind catches them up and carries them gently to the earth, where they cover the bare limbs of the trees, making them beautiful, and where they spread lightly on the ground and protect the roots of the flowers. Scloated roots of the flowers .- Selected.
