

Chauncey Depew's Ford Story.
If Harry Keller, the only Brumbaugh Alternate-at-Large in the Republican National convention, had very little to do while there he stored up and brought back with him the following story:

During the session of the convention on Thursday when there was considerable speech making and lots of fellows talked just to kill time there were calls for that venerable statesman, Chauncey F. Depew, of New York. Though past eighty years of age Mr. Depew responded and talked with all the fervor and vigor of his younger days when telling an after-dinner story, his voice carrying to the uttermost corners of the colosseum. In prefacing his remarks he said:

"Years ago Socrates was considered a great philosopher, wise statesman and able politician, and he told me one time that to be a success in business as well as politics a man should never make a speech—unless he had it well prepared beforehand; and should never tell a funny story. And," he added, "I have been doing just the reverse all my life."

"Now as to this much mooted question of preparedness. It is all well enough to say that after this awful cataclysm of war and destruction in Europe is over a small army, amply equipped with machine guns, will be all we will need to defend our country against any invasion, but it might not prove so."

"Then on the other hand, take my good friend sitting down there in front, William Jennings Bryan, who says that a million men could be enlisted in a few days, and equipped with Ford automobiles they would soon drive the enemy into the sea."

"Now I have nothing against the Ford machine, but it always puts me in mind of a bathtub. Everybody would like to have one, but there isn't anybody wants to be seen in them."

The families of John Porter Lyon and Charles F. Mensch opened their camps on Fishing creek yesterday, but it was a rather damp opening.

Russians Take Village Near Czernowitz.
Petrograd, June 14.—In their advance upon Czernowitz, capital of Bukovina, the Russians have occupied Sniatn village, 20 miles northwest of the city, the War Office announced today.

In addition to their previous captures the Russians have taken 20 officers, 6,000 men, 6 guns and 10 machine guns. The statement follows: Along the whole front from the southward of Polesia to the Rumanian frontier our troops continue to drive back the enemy. During yesterday 20 officers and about 6,000 men were taken prisoner. We have taken six cannon, 10 machine guns and many artillery and ammunition wagons. The total of prisoners and trophies captured during the operations amount to nearly 120,000 men, 1,780 officers, 130 cannon and 260 machine guns. Reports which have been received say the enemy abandoned at certain points quantities of various war materials of such bulk as to make it impossible to give an exact description at such short notice; as an instance, we found abandoned sufficient rails for field railways to cover 30 versts (about 20 miles.)

Swat the Fly Early.
Much discussion has made us familiar with the work of the common housefly. A few years ago there were questions sent out in all the principal cities of this and other countries which put the matter before us quite clearly. Here is the list, with a few slight changes:

Where is the fly born? In manure and filth.
Where does the fly live? In every kind of filth.
Is there anything too filthy for the fly to eat? No.
Where does he go when he leaves the vault and the manure pile and the spittoon? Into the kitchen and dining-room.
What does he do there? He walks on the bread, fruit, and vegetables; he sticks in the butter; he swims in the milk.
Does he visit the patient sick with consumption, typhoid fever, and cholera infantum? He does, and may call on you next.

Is the fly dangerous? He is man's worst pest, and more dangerous than wild beasts.
What disease does the fly carry? He carries typhoid fever, tuberculosis, and summer complaint. How? On his wings and hairy feet. What is his correct name? Typhoid fly.
Did he ever kill anyone? He killed more American soldiers in the Spanish-American War than all the bullets of the Spaniards.

Where are there the most cases of these diseases? Where there are the most flies. Where there is the most filth.
Why should we kill the fly? Because he may kill us.
How should we kill the fly? Destroy all the filth about the house and yard that we can; pour lime on the rest; kill him with a wire screen paddle or sticky paper or kerosene oil.
Kill the fly in any way, but kill the fly.
The mosquito is closely allied with the fly. His favorite breeding place is stagnant water; an uncovered rain-barrel is all he wants to grow and thrive.

Against It.
Jinks—She's decidedly against vivisection.
Jenks—I found it out the minute I tried to open my heart to her.—Club Fellow.

Democratic Convention Strong on Americanism.

President Wilson's Plank Practically Charges Conspiracy on the Part of Certain Citizens.

St. Louis, June 14.—President Wilson's plank on Americanism, for the Democratic platform, practically charging a conspiracy by some foreign born citizens to influence foreign and internal affairs for the benefit of other governments and condemning any organization countenancing such movements as well as any political party, which, by failure to repudiate such a conspiracy, receives the benefit of it at the ballot box, was telegraphed here tonight from Washington and placed before Democratic leaders. As the resolutions committee which will draft the platform and pass the plan was engaged at a late hour tonight in continuing public hearings of persons urging various declarations in the platform, the plank which has the President's approval and which promises to be the sensation of the Democratic convention, was not formally considered and probably will not be until tomorrow, when the sub-committee which makes the final draft of the platform has its meeting.

This plank would be followed by a declaration to make it clear that it is in one way to be taken as a reflection upon the great body of naturalized citizens, irrespective of their race or origin.
Representative Rainey, of Illinois, who is leading the administration fight in the house for the tariff commission bill, will draw the tariff law, it is planned to declare for a protective tariff for the dyestuff industry for a period of probably five years.

COMMITTEES AT WORK.

St. Louis, June 14.—If more than one speech seconding each nomination for vice president is made in the Democratic convention, they will all but the first be limited to five minutes by a rule adopted tonight by a sub-committee on rules.

W. A. Glasgow, Jr., of Pennsylvania, was chosen chairman of the committee. The question of changing the rule requiring the votes of two-thirds of the delegates to make a nomination was not raised at an meeting today. In previous conventions, minority has demanded a change so that a majority would not do.

The rules of the house of representatives were adopted to govern the convention.

The permanent organization committee failed to establish a quorum tonight and will meet tomorrow to organize. Senator James, of Kentucky, will be made permanent chairman.
The credentials committee tonight disposed of all the delegates' contests by ratifying the action of the national committee in overruling the contestants from the District of Columbia and from Hawaii and by dividing equally the six seats to which Porto Rico is entitled between the delegation seated by the national committee and the contestants.

BRYAN SPRINGS ONE.

St. Louis, June 14.—While the resolutions committee was in session tonight, Samuel A. King, of Utah, rose and made this statement:
"I called on William J. Bryan today and asked him if he would submit any planks. He replied:
"I have no planks to offer but one, and that is the President's. Determine what he wants and his plank will be mine. I expect to go before the people in his behalf on your report."

State Board Urges Prison Improvements.

Harrisburg, June 14.—The State Board of Public Charities today discussed with Governor Brumbaugh ways and means to have the insane now in county institutions cared for by the State in its insane hospitals and preliminary steps for the erection of the new state hospital in southwestern Pennsylvania.

Among the reports presented were many dealing with sanitary conditions in prisons and almshouses and it was stated that requests for better conditions were sent to Cameron county commissioners regarding the jail; Clinton county suggesting steps for a new prison; suggestions for changes at Lancaster, Huntingdon and Williamsport jails and for improvements at Lackawanna and Clinton almshouses and that the matter of a new almshouse was being taken up with York county.

Notes of Interest to Church People of all Denominations in all Parts of the County.

CHRISTIAN SCIENCE SOCIETY.
Service Sunday 11:00 a. m. Wednesday 8 p. m., 9½ E. High street.

Children's day will be observed next Sunday in the Lutheran church at the morning service at 10:30 o'clock. A special program will be rendered, which will consist of local and instrumental music, recitations, etc. The subject of the evening sermon at 7:30 o'clock, by Rev. W. M. B. Glanding, will be "Everyday Experiences—Reaping from Sowing." All will be welcome.

At the United Evangelical church, preaching Sunday, June 15th, at 10:30 a. m., by the pastor. At 7 p. m., the annual Children's day services will be held. A fine program is in preparation and will be rendered by the children and young people. An offering for Western missions will be lifted. You are invited to these services.

Zapata Band Near Mexico City.

El Paso, Tex., June 14.—News from Mexico City tonight was that the army of Emiliano Zapata was within 12 miles of the Mexican capital, having driven back the Carranza forces in all their suburban stations.
It is expected on the border that the First Chief and his cabinet will retire to Queretare in a few hours.

Creamed Eggs.—Cook six eggs until hard. Make a pint of white sauce, using four tablespoonfuls of flour and the same of butter; a half teaspoonful of salt and a pint of rich milk. Put six large slices of toast on a hot dish; put a layer of sauce over each after spreading them with butter, then cut the egg whites in strips and add a layer of them. Rub a part of the yolks through a sieve for a garnish; place in the oven for a few minutes and then serve hot.

5¢ NATIONAL BISCUIT COMPANY

Butter-Krust
BREAD
Insist on the Genuine

There are all kinds of imitations of this popular bread. But the title or the shape of the loaf is all they can imitate. They can't approach the delicate, appetizing flavor.

So, for your own protection, look for the label like that shown in the left-hand lower corner of this advertisement.

For that label marks perfect bread from ordinary bread.

A single loaf, ordered from your grocer today, will prove it.
