## Hard at Work Training Their New Mounts. Pay Day Welcomed in Camp. Men All in Good Health but Getting Anxious for Home. Boal Troop Leaves for Mount Gretna.

By Corp. Harry J. Cohen.  
Camp Thomas J. Stewart,  
El Paso, Texas, August 19

Another week has passed and we are still at the same old stand. Although the time passed without any real happenings there were a few moments that will be remembered by all, in connection with the workings of mother nature. On last Tuesday, about 7:30 in the evening, it seemed as if a storm was about to break upon us. The boys got busy, tacked and secured their tent in preparation for it. But what was our surprise, in emerging into the open to see the stars and moon shining, thunder clapping, lightning flashing, and across the entire sky was stretched a most beautiful colored rainbow. All the time not a drop of rain had fallen, and the most wonderful part of the entire exhibition was the fact that a rainbow would appear in the sky while it was dark enough for the moon and stars to shine.

The hardest storm we have witnessed was on Thursday evening about seven o'clock. At the approach of it my bunkie and I lay down on our cots to talk over things in general. About fifteen minutes later I thought I noticed my water basin, which was on the ground at the time, move around. I made a grab for it and you can imagine my surprise when I found we were in six inches of water. Well, there was nothing to do but turn in and sleep, and in the morning the entire camp was one huge mud puddle. The infantry, which is located about a half a mile from us were the real sufferers, as the water at their place was between two and three feet in depth. Drill was suspended for the day and on the following morning the dust began to fly.

Here is some real news. On Monday we sent a detail to El Paso and they brought back fourteen horses. On Wednesday and Saturday other details brought twenty-eight more from the corrals at Fort Bliss, so that at this writing we have a total of forty-two horses, with prospects of getting our full quota the coming week. They are a pretty good collection, although a good many are man-shy. They are being handled very carefully, so we do not expect real serious trouble in breaking them. Here's where Lester Gordon, our ex-cow puncher shines.

The main question of the day is, when are we going home? and I know a good many of us would gladly give up our last bite of corned beef to the one who has the coveted solution to the puzzle.

The South Carolina troops arrived at Fort Bliss the early part of the week, and that's what started the boys a guessing. Can't understand why they are still sending them down here, when we think it's time to go back home.

Thursday morning was division inspection. Gen. Clement and staff were the officers who did the job on the field, and then we were inspected in quarters. Everything that belongs to us were spread out in a uniform manner in our tent and on the shelter-half in front of the tent. It is needless to say that in this case as well as in all others our Troop, as usual, was among the top-notchers at the final test.

Immediately after the inspection, when the equipment had all been put back into place, we were lined up from Captain Curtin down to private Young in alphabetical order and marched past the paymaster, where each man received his pay according to his rank and complexion. Of course we weren't a bit surprised at Retreat to find that only about one-third of the men answered to the roll call, as they were all busy in town, either at the famous Sunset, feeding their faces, or else at the postoffice sending home their hard earned cash in the form of a money order.

John W. Kremer, of east Lamb street, stopped off to visit with us over Friday and Saturday on his way to Denver, Col. from Douglas, Arizona, where he is employed as a pattern maker. John looks real well and admits the climate is very beneficial to his health.

Clyde "Buck" Johnson has been doing so much guard duty of late that he thinks he will apply for a position as guardian of the law when he gets back home, and wants to know whether Dukeman and Johnson will sound just right.

The weather continues real warm, with steady, cooling breezes blowing and all are in perfect shape physically. The regards of all in camp to those in that pretty little town located in the very heart of the Keystone.

**Mounted Machine Gun Troop Now at Mt. Gretna.**  
With colors flying and bugles blowing Theodore Davis Boal's mounted machine gun troop marched from their camp on the Boal farm near Boalsburg to Oak Hall on Tuesday morning and left on the early train over the Lewisburg and Tyrone railroad for Mt. Gretna where they are now in the regular army mobilization camp awaiting the federal army physical examination and inspection, passing which they will be mustered into the federal service. The troop took along twenty-one horses passed by the federal veterinary inspectors out of the total of about sixty-five purchased by Mr. Boal for the use of the troop. Second lieutenant George Boal Thompson did not accompany the troop but remained in camp with two veterinary inspectors for the purpose of purchasing enough additional mounts to equip the troop throughout.

When Mr. Boal and Mr. Thompson conceived the idea of organizing a mounted machine gun troop they were spurred on by the wave of preparedness sweeping over the country, but it is hardly to be supposed that they for one minute anticipated how hard it would be to get into the army. The troop went into camp on Mr. Boal's farm early in July, expecting to be mustered into service within two weeks. They were under training by a regular army officer for a fortnight and were then inspected and informed that they would pass muster. But no mustering officer came along and as the days went by both officers and men became impatient. Mr. Boal and Mr. Thompson made a trip to Washington and New York and finally landed in Harrisburg to see Governor Brumbaugh, and the result was that they were finally informed that they would be mustered in but the Department reserved the right to appoint the captain. This right was yielded and last week the troop was formally accepted for service to date from August 15th.

On Friday Major R. G. H. Hayes received a telegram to proceed to Camp Boal at once and give the men the preliminary physical examination, and on Saturday he and Col. H. S. Taylor went up and examined every member of the troop. Out of seventy-five examined only two were turned down, so that the troop left on Tuesday morning with seventy-two men and twenty-one horses.

So far no orders have been issued appointing a captain of the troop, but the other officers are as follows: First lieutenant, Theodore Davis Boal; second lieutenants, George Boal Thompson and Wilbur F. Leitzel; sergeants, John O. Lawrence, Thomas R. Weber, D. F. Carver and G. Butterworth; corporals, Philip Shoemaker, Charles G. Cruse, Fred Harvey and William Imboden; supply sergeant, Philip D. Foster; surgeon, Dr. J. V. Foster.

As a fitting farewell to the troop the citizens of Boalsburg and State College gave them a rousing send-off on Monday evening. Prof. John Hamilton, of State College, made the farewell address and John Holmes presented the soldiers with a beautiful silk flag the gift of the people of State College. About one thousand people attended the reception and a large crowd was at the Oak Hall station on Tuesday morning to see the soldier boys off.

**Recruiting Stations to be Opened.**  
With Troop L at the border and the new Machine Gun Troop from Boalsburg on the way, an outsider might think that all the patriotic young men of Centre county had enlisted into the service. But to one who knows Centre county intimately, there is no such thing as a full quota while there is a vacancy in the ranks of any organization from this region.

In order to provide for the vacancies now existing in Troop L, as well as in all the other organizations now in the United States service, Lieutenant B. A. Zentmyer, recruiting officer for this district, will open temporary stations for recruiting at Belleville and State College, the office at the former place being at the Brockerhoff house, at the latter the Nittany Inn, and will be found at these places during the afternoon and evening of the following days:

Belleville, August 28th, September 7th and 14th.  
State College, August 29th, September 8th and 15th.

Lieutenant Zentmyer will be glad to meet any young man who feels the call to duty, and to talk over with him just what is offered and expected.
