WAR GARDEIS IN FRANCE

Hundreds of Small Plots Are Now Being Cultivated by the Stay-at-Homes.

Europe in general never stood in greater need of a bountiful harvest than now, when its greatest nations are reaping the harvest of death on the battlefield. Germany realized the pinch last year and gave orders that every rood of land available for gardens be cultivated, with vegetables taking the place of the old-time flower garden.

This year France is following suit. Taking a hint from the soldiers in the trenches who cultivate gardens not far from the battle front, M. Mellin, ex-Premier and present French Minister of Agriculture, has issued a circular encouraging the people to increase the supply of the nation by cultivating their gardens and small fields to the greatest possible extent. As a result, what are called military gardens are developing everywhere in France this summer. Refugees, children, old men and women, all, in fact, capable of labor, are called upon to aid this gardening.

Although no such pressure exists for America, this country would do well to take its gardening more seriously. It is a matter of fact that many people in the outlying districts of greater New York to whom a garden is possible have fallen into the city habit and profess that it is cheaper to buy than to raise vegetables. But even in the city it ought to be possible for the children, at least, to learn by actual experience occasionally how something of the joy of the worker who sees the fruits of his own labor. That is knowledge every boy and girl even in a great city is entitled to acquire at first hand, either in his own garden or in his special plot in a municipal garden.—New York World.

Didn't Fulfill Requirements. Once a high school principal was having a dispute with one of his teachers, a vivacious young lady. She claimed that the word "man" meant mankind as a whole, while "men" always signified the masculine gender. The principal maintained that there were exceptions and triumphantly quoted: "Though I speak with the tongues of men and of angels," but the young lady answered demurely: "That won't do, for, you see, both genders are mentioned there."—Ladies' Home Journal.

On With the Dance. A man has about as much chance to enjoy himself in Valdez, Alaska, if he doesn't dance, as a wax dog chasing an asbestos cat through the infernal regions. And that's not stretching it a bit, at that; as from one to six dances a week are staged with unceasing regularity and unflinching intervals. But our people enjoy them.—Valdez (Alaska) Miner.

Automatic Phonograph. A phonograph which changes automatically from one record to the next, is described in Popular Mechanics Magazine. Wax cylinders may be placed on the machine 12 at a time; a revolving wheel carries the records under the diamond-pointed producer. A push button controls the number of records the machine will play before stopping.

Professional Viewpoint. The gentleman and the detective whom he had once employed in a private capacity met in an elevator. "Glad to see you," said the gentleman. "How are you getting on?" "Badly, very badly," said the detective. "No thieving, no blackmailing, no divorces. The world is going to rack and ruin, I say."

Locate Fog Signals. Prof. A. G. Webster, of Clark university, claims to have made an instrument by which one can locate the direction of a fog signal. Up to this time, mariners have not been able to tell, within 45 degrees, the direction from which fog signals come.

In Doubt. "Tell me what you eat and I'll tell you what you are." "Here are some of my wife's cooking-school menus. I ought to be a human ostrich, but I fear I'm not."

Dangers of a Cold

BELLEFONTE PEOPLE WILL DO WELL TO HELP THEM.

Many bad cases of kidney trouble result from a cold or chill. Congested kidneys fall behind in filtering the poison-laden blood and backache, headache, dizziness and disordered kidney action follow. Don't neglect a cold. Use Doan's Kidney Pills at the first sign of kidney trouble. Follow this Bellefonte resident's example: Mrs. B. Holter, Pine St., Bellefonte, says: "I have used Doan's Kidney Pills off and on for about two years. Whenever a cold or strain causes a dull, constant ache across the small of my back, I use a box of Doan's Kidney Pills and get relief. I believe I did not take Doan's Kidney Pills long enough to be cured, but when I take them, a few doses always fix me up.

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Holter had. Foster-Milburn Co., Props., Buffalo, N. Y. 61-38

Profitable.

"I wish I could invent some way to beat the high cost of living." "If you could do that you could make enough money out of it so that the cost of living wouldn't bother you in the least."—New York World.

—According to experiments tried by the New York Experiment Station, lime-sulphur is not a good fungicide for potatoes. In 1915, as in four years preceding, applications of this mixture injured the plants and reduced the yields, while bordeaux mixture benefited the plants and increased the yields. In this year blight was prevalent for the first time since the test begun, and the lime-sulphur had little or no effect in controlling it.

Often Enough.

"That's a fine lawn you've got there. How often do you have to mow it?" "Whenever my wife tells me to."—New York World.

—Bowel troubles in calves are sometimes caused by milk that is excessively rich. Milk that is moderate or low in butter fat is usually better for young calves.

Suffered Great Pain!

Letter Tells of Long-looked-for Prescription.

Dear Mr. Editor—I am making a personal appeal to your readers who are bothered with kidney and bladder trouble and rheumatism, to give up the use of harsh pills, or alcoholic kidney medicines and in their place take the short treatment of "Anurie" and be convinced of its wonderful virtues as I was. I suffered great pain, had a great deal of irritation, water became foul, I tried everything advised but with no results. I sent for a box of "Anurie Tablets" and soon discovered that they brought relief. I have used them since, and now the water is natural, my health good, and appetite splendid. Some of the doctors pronounced my trouble enlarged prostate. If I can induce anyone to give it a trial, I feel that he will thank me for calling attention to this great boon that relieves this seemingly worst of all troubles that human flesh can fall heir to. (Signed) H. H. FLEISHER.

Note: Up to this time, "Anurie" has not been on sale to the public, but by the persuasion of many patients and the increased demand for this wonderful healing tablet, Doctor Pierce has finally decided to put it into the drug stores of this country within immediate reach of all sufferers. Simply ask for Doctor Pierce's Anurie Tablets. There can be no imitation. Every package of "Anurie" is sure to be Dr. Pierce's. You will find the signature on the package just as you do on Dr. Pierce's Favorite Prescription, the ever-famous friend to ailing women, and Dr. Pierce's Golden Medical Discovery, proven by years to be the greatest general tonic and restorer for any one. At any rate don't give up hope of being cured of your malady until just a few doses of "Anurie" have proven that it will make you feel like a different person. Editor—Please insert this letter in some conspicuous place in your paper.
