Horned Rattler a Fake.

New York, Oct. 26 .- Toomay, the black rattlesnake, and his cagemate, known as the "horned rattler," a freak snake, were found dead in their cage at the Reptile House in New York Zoological Park today. The famous horn of the horned rattler was Monday taking orders for the winter found on the floor of the cage. It was made of wood. Both Toomay and the horned rattler were snakes with a na-

tional reputation. The fact that the horn or cone on the top of the horned rattler's head was found on the floor led to an investigation, and the horn was found to be nothing more than a piece of W. H. Roush, of Altoona, and J. C. Dunlap, of Cresson, were home to cast their vote for Wilson and the entire Democratic ticket.

Harry Rager, of Mill Creek, motored the work of some circus man to create a freak snake.

"ANURIC!"

THE NEWEST

DISCOVERY IN CHEMISTRY

This is a recent discovery of Doctor

Pierce, who is head of the Invalids' Hotel and Surgical Institute at Buffalo, N. Y. Experiments at Doctor Pierce's Hospital for several years proved that there is no other eliminator of uric acid that can be compared to it. For those easily recognized symptoms of inflammation — as backache, scalding urine and frequent urination, as well as sediment in the urine, or if uric acid in the blood has caused rheumatism, it is simply wonderful how surely "Anuric" acts. The best of results are always obtained in cases of acute rheumatism in the joints, in gravel and gout, and invariably the pains and stiffness which so frequently and persistently accompany the disease rapidly disappear.
Go to your nearest drug store and simply ask for a 50-cent package of "Anuric," manufactured by Dr. Pierce, or even write Doctor Pierce for a free sample. If you suspect kidney or blad-der trouble, send him a sample of your water and describe symptoms. Doctor Pierce's chemist will examine it, then

Dr. Pierce will report to you, without fee or charge.
Note: — French scientists affirm that "Anuric" is thirty-seven times more active than lithia in eliminating uric acid, and is a harmless but reliable chemical compound that may be safely given to children, but should be used only by grown-ups who actually wish to restore their kidneys to perfect health, by conscientiously using one box—or more in extreme cases—as "Anuric" (thanks to Doctor Pierce's achievement)

is by far the most perfect kidney and

Proper Road Oiling.

The Highway Department of Illinois gives these suggestions about applying oil to earth roads. Roads should not be oiled until they have a permanently established grade. Low, flat, undrained roads should not be oiled until proper drainage has been attended to.

Roads that are used chiefly for heavy hauling should, not be selected or oiling. The main purpose of oiling earth roads is to suppress the dust and aid in the maintenance of a

smooth waterproof surface.

It is very important that the road surface be oiled when it is free from dust yet dry enough to absorb the oil. Best results may be expected when the road is reasonably dry for about two inches on the surface.

The oil should be applied at the rate of from one quart to half a gallon per square yard of surface. If the road has never been oiled before, use half a gallon, but if it has been oiled regulargely in the past, a puart per square yard a year will generally be suffi-

Sanding the road after the oil has been applied is beneficial. The sand should be applied as a light dressing, using one cubic yard for about 150 square yards of road surface.

Criticised as Poor Bargain.

When the United States, on the advice of Secretary Seward, paid Russia \$7,200,000 for Alaska in 1867, there were many persons who criticised the transaction as a poor bargain. One member of Congress sneeringly spoke of Alaska as the "refrigerator of the United States." But as our annual dividend on the investment is about 900 per cent. at present, and the margin is growing all the time, nobody now seems inclined to question the judgment of Mr. Seward. This is what we received from Alaska during the fiscal year ending last June: Copper, valued at \$26,500,000; canned salmon, at \$18,000,000; gold at \$16,000,000; silver at \$1,000,000; furs, etc., at \$5,500,000. Besides all this, account must be taken of the rich coal deposits, worth far into the mil lions, as well as other valuable re sources, such as petroleum, tin, etc Alaska came high in 1867, but it was worth all it cost—and much more. But—such is the perversity of human nature—there are many good citizens who are wondering whether it is worth while for us to pay \$25,000,000 for the Danish West Indies, for which we have been negotiating through several administrations.

Truth Triumphs

BELLEFONTE CITIZENS TESTIFY FOR THE PUBLIC BENEFIT.

A truthful statement of a Bellefonte citizen, given in his own words, should convince the most skeptical about the merits of Doan's Kidney Pills. If you suffer from backache, nervousness, sleep-lessness, urinary disorders or any form of kidney ills, use a tested kidney medi-

A Bellefonte citizen tells of Doan's

Fred Scott, 247 E. Lamb St., Bellefonte, says: "I have to drive quite a bit over rough roads and the jolting had a bad effect on my kidneys. The trouble started with pains across the small of my back and if I stooped, I could hardly straighten without sharp pains across my loins. Doan's Kidney Pills were recommended to me by friends and I got a box at Green's Pharmacy Co. They brought me relief from the first. One box made a cure and I have not had the

slightest backache since." Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Scott had. Foster-Milburn Co., Props., Buffa-

IT REQUIRES A BLOOD REMEDY-HOOD'S SARSAPARILLA IS THE BEST.

Catarrh is as much a blood disease as scrofula or rheumatism. It may be relieved, but it cannot be removed by simply local treatment. It causes headache and dizziness, impairs the taste, smell and hearing, and affects the voice, hurts the stomach, deranges the digestion, and breaks down the general health, One of its worst effects is the weakening of the delicate lung tissues, which leads to con-

Old reliable Hood's Sarsaparilla is found to be of great service in the treatment of catarrh. It goes to the seat of the trouble, purifies the blood, and is so successful that it is known as the best remedy for this common dissease.

Hood's Sarsaparilla strengthens and tones the whole system. It builds up. Ask your druggist for Hood's, and get it today.
