Firebug Given Long Sentence by Judge Quigley.

Having plead guilty to two indictments charging him with setting fire to the McGirk building in Philipsburg on March 13th, 1916, and the Odd Fellows building on October 29th, Edward Bannon, a resident of South Philipsburg, was brought into open court on Tuesday morning and sentenced by Judge Quigley to \$1,000 fine, costs of prosecution and not less than fifteen nor more than twenty years in the western penitentiary on the first indictment, and \$500 fine, costs and not less than five years nor more than ten years in the penitentiary on the second indictment, which makes a maximum of \$1,500 fine, and not less than twenty years nor more than thirty years in the penitentiary, and Judge Quigley told the man that when he was released he would probably realize that setting fire to buildings was a crime of no mean proportions.

Ever since the burning of the Mc-Girk building in March deputy fire marshall Edward J. Ryan, of Sunbury, has been at work on the case. Clue after clue was run down but it was not until after the fire which destroyed the substantial Odd Fellows building in October that the clue began to grow warm. Finally Mr. Ryan and the Philipsburg police concluded that they had sufficient evidence to arrest Bannon and he was taken into custody and brought to the Centre county jail on November 10th.

Finally last Friday he broke down and confessed to district attorney James C. Furst, sheriff George H. Yarnell, deputy sheriff Harrison Kline, E. J. Ryan and F. J. Green, of Philipsburg, that he had set fire to the two buildings for the purpose of robbery. Bannon's confession clarified the case considerably, and when he entered a plea of guilty to both indictments charging him with the crime of arson there was nothing left for the court but to sentence him.

Bannon goes by the name of "Peggy," having lost one leg in a railroad accident when he was six years old. sympathy in his behalf. When brought into court on Tuesday morndisposal W. Groh Runkle addressed the court and stated that he had been retained by the young man's mother to look after his interests. But inasmuch as he had entered a plea of guilty there was little for him to do. That he had gone to the jail to see and it was his impression that the man was not sound mentally, and he would ask the court to take that into consideration when passing sentence.

Judge Quigley then told Bannon to whether his parents were living he stated that they were and that he was unmarried. When asked what he had started the past year and Bannon said "about four." In sentencing him the court stated that ordinarily he would take into consideration his crippled disposing of the case, but his actions were such as to prove conclusively community, and he believed it would be better for him to be put some place He also stated that it was necessary to mete out proper punishment to tery. criminals as a deterrent to others and because of that he would give him almost the maximum sentence, and sentence as above given was then pro-

That New Federal Building at State College.

Affairs have begun to move along at a very encouraging pace toward the erection of that new postoffice building at State Colege. On Thursday of last week postmaster Robert M. Foster received a letter from B. R. Newton, first assistant secretary of the treasury at Washington which read as follows:

The sketch plans for the proposed postoffice building at State College, Pa., have been approved and the working drawings will be taken up in their regular order. Upon the basis of the data sheet submitted by the postmaster at State College dated March 28th, 1916, it has been decided the only entrance to the building for the use of the public will be on that
