Took Her Own Life.

Residents of Pine Grove Mills were considerably shocked on Saturday morning when the fact became known that Mrs. Ida Bowersox Long had committed suicide by hanging herself to the bedpost with a trunk strap. She had not been in good health for some time and spent the last three years in New York State. Early in the winter she had a severe attack of the grip from which she never fully recovered. In February she returned to Centre county and since then had spent the time among her numerous relatives, and of late had been with her parents. She retired on Friday evening feeling no worse than usual. Some time toward Saturday morning she was heard moving about her room but the family thought nothing of it. When she failed to respond to a call for breakfast her mother went to her room and found her body already cold in death. The shock of the discovery was a severe blow to her parents, who are both past eighty years of age. Melancholy caused by poor health was undoubtedly the cause for her committing the deed.

The unfortunate woman was a daughter of Mr. and Mrs. Franklin Bowersox and was born at Millheim on March 10th, 1865, hence at her death was 52 years, 2 months and 9 days old. Practically all of her life was spent in Centre county. When a girl she became a member of the Methodist church but later was transferred to the Lutheran church. In addition to her aged parents she is survived by the following brothers and sisters: Harry and Oscar Bowersox and Mrs. J. B. Rockey, of State College; Mrs. Thomas D. Gray, of Watsonburg; Elmer, of Fort Worth, Texas; Dr. Frank Bowersox, of Millheim; Mrs. G. S. Harper, of White Hall; Edward, of Altoona; A. L., of Pine Grove Mills; John, of Baileyville, and Mrs. Charles W. Weaver, of Millmont.

Funeral services were held at the Bowersox home at ten o'clock on Tuesday morning by Rev. L. N. Fleck, assisted by Rev. S. C. Stover, after which burial was made in the Meek's cemetery.

Crushed to Death Under Ford Truck.

Sergt. Albert J. Mattern, a former member of Sheridan Troop, of Tyrone, was crushed to death under a Ford truck about four miles from Black Lick, Indiana county, on Sunday night. During the past eighteen months Mattern had conducted a general mercantile store and meat market at Black Lick. On Sunday he drove to Spruce Creek to see his wife, who has been at her old home since the death of her father. Accompanied by his brother Milton he left Spruce Creek at six o'clock in the evening. When within four miles of his home Mr. Mattern lost control of the wheel for an instant and the machine plunged over an embankment crushing him beneath it. His skull was fractured and he lived until 8:40 Monday morning.

The unfortunate young man was a son of Mr. and Mrs. John S. Mattern and was born at the Seven Stars, Huntingdon county, twenty-five years ago. His parents are well known through the western section of Centre county. Two years ago he married Miss May Miller, of Spruce Creek, and she survives with one daughter, Charlotte. He also leaves his aged parents residing at the Seven Stars and these brothers and sisters: Frank, of Altoona; Milton, of Spruce Creek; Samuel, of Seven Stars; George, of Bellwood; Mrs. Charlotte Bush, of Trenton, N. J.; Mrs. Hattie Bush, of Altoona, and Mrs. Jane Waite, of Seven Stars. The remains were buried at the Seven Stars yesterday morning.

Miscellaneous Business Transacted by Council.

Just seven members were present at the regular meeting of the borough council on Monday evening, the absentees being W. A. Lyon and W. R. Shope.

Burgess Blanchard was present and once more urged council to do something definite regarding the installation of a fire alarm. He also informed council that the newspapers were criticizing the burgess and police for dereliction in enforcing the traffic ordinance and in order to do so it is almost imperative that some kind of a traffic marker be erected in the Diamond. He further stated that M. R. Johnson has prepared a design which would be very appropriate.

Regarding the fire alarm president Walker stated that the siren recently received has not been given the proper kind of a test as requested by Mr. Stiles, and until that is done, council cannot reject it. After the matter was threshed out pretty thoroughly the president instructed the Fire and Police committee to erect a temporary support on some high point and then give the alarm a proper test.

Mrs. R. S. Brouse was present and complained about the bad condition of St. Paul street, it being almost impossible to get up and around there with a car. The matter was referred to the Street committee with power to act.

Col. Emanuel Noll was present in the interest of Gregg Post and asked for an appropriation to help pay the Memorial day expenses. He asked for \$30.00 this year, owing to the increase in the price of flags and the amount was granted.

Chairman Harris, of the Street committee had nothing to report.

Mr. Seibert, of the Water committee, reported that the pump at the Phoenix pumping station stopped running on Sunday and when he examined it he found that all that was required was a tightening of the belt. He further stated that on two occasions during the past week the State-Centre Electric company had the reservoir full of water and running over for some time, something which ought not to occur, as it endangers the wall of the reservoir and increased the cost of pumping.

The Fire and Police committee presented the burgess' check for \$12.50 for fines and licenses collected, and reported a fire out near the old Nittany furnace on the 15th, to which one fire company responded.

The Finance committee asked for the renewal of a note for \$2,000 for six months from May 22nd, which was authorized.

Mr. Harris, of the Street committee, recommended an increase in the pay of street employees to 22½ and 19 cents an hour respectively, effective May 7th, and council so voted.

The Fire and Police committee reported that they were not ready to recommend an increase in the salary of policeman Yerger, as requested at last meeting.

On motion of Dr. Brockerhoff council voted to dispense with a watchman at the reservoir for the present.

Mr. Seibert called the attention of council to the fact that some of the plumbers of Bellefonte are wilfully disregarding the ordinance which makes it mandatory upon them to make a report of any and all increased water facilities installed in any house in the town, and declared that something ought to be done about it. Borough solicitor J. Thomas Mitchell stated that the ordinance covering the matter provides a penalty of \$25 for each and every instance where a plumber fails to report such an installation, and if Mr. Seibert or any member of the council will present such a case to him, backed up by the proper evidence, he will immediately proceed to bring action against the plumber for the recovery of the penalty. So that from now on all such cases will be dealt with according to the law and the ordinance.

On recommendation of the Water committee council fixed this (Friday) evening, at 7 o'clock, as the time for hearing appeals on water taxes, same to be held in the council chamber.

The Pruner property ordinance was taken up but was continued until next meeting night in order to have all members of council present to place themselves on record either for or against the sale of the property.

M. R. Johnson appeared at this opportune time and displayed to council the drawings he had made for a proposed marker in the Diamond. The plans called for granite similar to that in the soldiers' monument. The price for a marker 23x23 feet in size and 4 feet high would be \$175.00, and for one 3x3 feet and 4 feet high \$200.00, which does not include the cost of wiring, etc. President Walker stated that the borough solicitor advised against the erection of anything permanent in the Diamond, owing to the danger of accident and the liability of the borough for damages. Mr. Walker further stated that during the past two weeks he had visited a number of towns through the central part of the State and the most of the markers he saw were temporary structures which, if run against, would simply be knocked over without doing any injury, and when stood erect would be in service again.

The Special committee was instructed to hold a meeting with the State-Centre Electric company officials and make some kind of a settlement of the various questions now at issue between them and the borough. Bills to the amount of \$405.96 were approved and council adjourned.

Mrs. Dickson has frequently visited in Bellefonte and her friends here extend congratulations. Owing to Lieut. Dickson expecting to be called to the front shortly no definite plans have been arranged for the future by the young couple.

W. E. Tyson and Harry Albright, two representative citizens of Tyrone, spent last Thursday on Fishing creek trying their luck for trout and it must certainly have been their very luckiest day, because on their way home they displayed to Bellefonte friends just two full baskets and a third one half full of as fine trout as any fisherman would want to see. The biggest one was over fifteen inches in length and most of them eight to twelve inches long.

Thomas Hanley and Fred Bryan met with an automobile accident while on their way home from Fishing creek about 9:30 o'clock on Saturday night. They were in the former's Grand car and in coming around a curve near Truckenmiller's new farm the front axle bent causing the right front wheel to drop flat to the ground. The result was the car was ditched at the side of the road and turned over on its side. Both young men were thrown about fifteen feet but aside from a bad shaking up were unhurt. Chester Barnes and John VanPelt were a short distance ahead of them and hearing the crash went back to see what had happened. When they found Bryan and Hanley all right they towed the car to the side of the road and brought the men home.

Wrecked on the Lewisburg.
Assistant supervisor Betz, of the Lewisburg & Tyrone railroad, was in Bellefonte Tuesday to see how the work was getting along on the building of the foundations for the new iron bridge south of the passenger station. He came here in his own motor railroad car and started on the return trip some time about the noon hour. He was speeding up at a pretty lively clip and when in the vicinity of his car broke and the machine literally broke itself to pieces. Of course Mr. Betz was thrown along the track with considerable force but aside from a number of superficial cuts and bruises he suffered no serious injury. The worst casualty of the accident happened to his clothes, his trousers being so badly ripped and torn that he had to hold them together while he went to a farm house for a needle and thread to sew them up and down and crosswise, otherwise he might have been compelled to go home wearing a barrel. Mr. Betz went home on the afternoon train and the section gang gathered up the pieces of his motor car.

Constables at the Country Club.

A few over half the constables in Centre county accepted Judge Henry C. Quigley's invitation to spend Monday evening at the Nittany Country club. Accompanied by the Judge, sheriff George H. Yarnell and just a few others they went to the club in automobiles, arriving there about 5:30 o'clock. Of course they had supper and after that the crowd had an informal meeting in which various questions regarding the duties of a constable were discussed.

Among them was the duty that will devolve upon these officers of the law on the conscriptive registration day, and Judge Quigley explained it to them in a very lucid manner. Another thing brought up by the constables was their obligation to kill all unlicensed dogs. One of the officers stated that last year he received a list of dogs to be killed from the county commissioners and he was compelled to drive ten miles to get a certain dog, and when he got there he found the mangy cur tagged with a tag gotten from the county treasurer after the list had been returned by the assessor. Had he found the dog untagged and killed it he would have gotten only one dollar, but as it was he had his ten miles drive and the time spent all for nothing, and naturally it is incidents of this kind which serve to make the constables seem just a little derelict in their duties.

However, the evening spent together not only proved a pleasant one socially but will undoubtedly prove a benefit to all.
