County Correspondence

Items of Interest Dished up for the Delectation of "Watchman" Readers by a Corps of Gifted Correspondents.

PINE GROVE MENTION.

Wilson Cummings is on the rounds in quest of wood.
Paul Rupp, of Pitcairn, was a visitor in town over Sunday.
Waldo Corl and wife spent the Sabbath with friends at Pine Hall.
John Dearnitt, the popular tea man, made his rounds here this week.

Our town was well represented at the show in Bellefonte on Saturday.
Henry McWilliams has been confined to bed the past week with inflammation of the bowels.

The new arrival at the G. Mac Fry home on Sunday is a ten pound boy, making four sons all told.
Ralph Dunlap, George Louck and Earl Houck have each landed a good job in the steel works at Burnham.

George Bell and family spent Wednesday with relatives in and about town and enjoyed a spin to State College.

Grandmother Barbara Corl is confined to bed suffering with a general breakdown since the death of her husband.

Ira Corl was summoned to Akron, Ohio, on Sunday to be with his sister Pearl, who is seriously ill in a hospital there.

Ed. M. Mayes is shy a good cow that was killed by an auto on Saturday evening as he was bringing in his herd from pasture.

William Albright, a former resident of our town, moved to the William Garman farm near Hunter's Park last Thursday.

H. C. Houck, Herschel Harpster and Miss Gates, of Warriorsmark, took a spin down the pike on Monday to visit State College.

Rev. D. Y. Brouse and wife, of Houtzdale, were called here on account of the illness of J. L. Murphy, Mrs. Brouse's brother.

While at the show on Saturday George Reed was relieved of his wallet and all its contents by some smooth fingered gentleman.

Charles Parsons is over at Unionville helping his grandfather, Shadrach Parsons, who is quite aged and frail, get out his spring crops.

Dr. Hugh L. Fry, a former Pine Grove Mills boy but for the past six months located at Kendallville, Ind., has been ordered to Fort Wayne, Indiana.

The registration on Tuesday passed off quietly, every man registering a patriotic duty. The result showed 73 available in east Ferguson and 37 in the western precinct.

Prof. J. B. Reesner, of Lancaster, who is traveling in the interest of the teachers' protective association, is being shown around this section of the county by Prof. H. H. Rothrock.

E. B. Tyson was unfortunate in being mixed up in a runaway last Wednesday evening but fortunately escaped unhurt. His buggy was badly damaged, however, and his horse injured.

Four of Ferguson township's young men on Saturday joined the ambulance units at State College. They are Warren Ward, George Irvin, Wallace Archey and Thomas Frank. Earl Houck has enlisted with the Boal machine gun troop.

In glancing over the list of soldiers of the Revolutionary war published in last week's "Watchman" we noted several omissions, namely: Gen. John Patton, buried at the Branch cemetery; John Goheen, at Rock Springs; William Floyd, at Tadpole, and George W. Mark, in the Glades.

Mr. and Mrs. Elmer Rossman spent Sunday with friends in Sugar valley where they went to see their aunt, Mrs. Frank Royer, now past seventy-eight years of age, and who has been visiting friends in Centre and Clinton counties the past month. She will leave this week for her home in California.

James L. Murphy is seriously ill at his home on Water street. He has not enjoyed the best of health for some time but was able to be around. On Sunday afternoon he attended the Memorial services of the Modern Woodmen of America and shortly after retiring in the evening his wife found him helpless and unable to speak, he having been stricken with paralysis. As this is his third stroke his condition is regarded as quite critical.

Memorial Day at Pine Grove Mills. Providence provided us with a nice, sunshiny morning for our memorial day. The old veterans, citizens, boys and girls assembled in front of the O. O. F. hall at 2 p. m. and formed in line to march to the cemetery for the purpose of putting flowers upon their loved dead, who have been sleeping for years. It was a beautiful procession, headed by the Citizen's band of Ferguson township, which furnished the music so appropriate to the occasion. Flowers were distributed on all the graves. From there the crowd marched to the old Presbyterian cemetery, where the address of the day was made by Mr. J. L. Holmes, whose remarks were quite appropriate and patriotic. His remarks were well received and favorably commented upon by those present.

From every house on the main streets of the town floated the Stars and Stripes, the front yards filled with flowers. Some of the houses were decorated beautifully. Capt. W. H. Fry, an old veteran, was in command of the day's proceedings, and handled the affair splendidly, so that everything moved off in peaceful tranquility. Capt. Fry's home was decorated beautifully. The front porch contained portraits of Washington, Lincoln, Wilson, General Beaver and other of-

ficers of the Civil war; also flags, wreaths and flowers, as well as the scenes and relics of the war. Mr. Meyers' house near the cemetery was also decorated in a lavish manner, both being very pleasing to the eye. All were well pleased with the day's proceedings and went to their homes with buoyant spirits, happy and contented.

J. M. KEPHART.

PLEASANT GAP ITEMS.

Harry Armstrong, of Lewistown, spent the week-end with his mother.
Mr. Herron, of Pittsburgh, visited a few days here with his son, Mr. James Herron.

Mrs. Harry McClincy, who had been ill for several weeks, is somewhat improved at this writing.
Miss Hazel Gettig, of Zion, is spending a few days with her sister, Mrs. Gomer Dunklebarger.

Mrs. Allen, of Irwin, is spending a few days with her sister, Mrs. Charles Schreffler, of this place.
Miss Violet Irvin has returned home from State College, after spending several weeks at that place.

Mr. and Mrs. M. M. Keller and family, of Centre Hall, spent Sunday at the home of William Kossan, of this place.
Earl Rimmer, of Lewistown, is spending a week at the home of his parents, Mr. and Mrs. D. F. Rimmer.

Earl Eckenroth and Guy Wells, who are working at Ehrenfeld, spent the week-end at their homes at this place.
Mr. Oliver Hartman, of Bellefonte, and Miss Helen Grenoble, of this place, visited over Memorial day with friends in Williamsport.

Mrs. Harry Appleby and little son will return to their home at Harrisburg, this week, after spending several weeks with friends and relatives in this town.

LINDEN HALL.

Mrs. Frank McFarlane entertained the Civic club at her home last Friday evening.
Earl Motz has enlisted in the engineering corps and has already gone to Fort Slocum.

Samuel Blazer, of Lewistown, spent the latter part of last week with his brother, Clarence Blazer.
Mrs. Orin Grove, of Montgomery county, has been visiting friends in this section for some time.

Mrs. Peter Weber, of Huntingdon, spent last Sunday with her sisters, Mrs. Swabb and Mrs. Tressler.
Mr. G. M. Hall and family, accompanied by Miss Boring, Mrs. Taylor and Miss Florence Fogel, spent Sunday at the F. E. Wetland home.

Mr. and Mrs. Howard Frazier returned from their wedding trip Monday evening. They were married at Aaronsburg last Friday evening. The bride is the youngest daughter of Mr. and Mrs. Jacob Zong.

At a recent meeting of the school board of Harris township, the teachers were elected for the ensuing year, as follows: Miss Margaretta Goheen, principal of the township High school; Miss Ruth Smith, assistant principal; Miss Rosalia McCormick, grammar; Miss Guthrie, primary; Arthur Burwell, Shingletown; John Patterson, Walnut Grove; and Prof. G. W. Johnstonbaugh, Linden Hall. All of the teachers are College or Normal school graduates, except two.

LEMONT.

A few from town attended the show on Saturday.
B. Franklin Steele was seen on our streets on Saturday.

Robert Brennan purchased a new Oakland car on Monday.
A big son came to the home of Ernest Johnston to brighten it.

John Waite and daughter transacted business in town Monday.
Mrs. Rhykard and son Guy, of Altoona, visited among friends in town last week.

John Fishel and family attended Decoration at Boalsburg, and all seem to be improving in health.
C. D. Houtz spent from Friday until Monday visiting with his brother, Rev. Thomas C. Houtz, at Selinsgrove.

The United Evangelical Sunday school will hold children's day services on Sunday evening. All are invited to come and enjoy the good things.
The warm days have come to make all vegetation spring forth and it has responded, as can be seen by looking at the fields of wheat, corn, oats, potatoes, and fruit.

The Lemont P. O. S. of A camp purchased a beautiful 8x16 foot flag and have planted a sixty foot pole on which they will fly Old Glory to the breezes on Saturday afternoon.

The approach of the summer season brings thoughts of the vacation. Those contemplating a trip to the seashore, the mountains or a lake resort will be interested in two illustrated folders just issued by the Pennsylvania Railroad company, "Forty Beaches of New Jersey" and "Mountain and Lake Resorts." The "Forty Beaches of New Jersey" folder gives a detailed description of the resorts along the coast of New Jersey from Cape May to Long Branch and of resorts near the water in Delaware, Maryland and Virginia, and on Long Island. The "Mountain and Lakes" folder gives a description of resorts in the Pocono and Allegheny Mountains, Mt. Gretna, Chautauqua Lake, the Finger Lakes of New York and Soda Bay, with a complete list of hotels at each resort. Copies of these folders may be had for the asking of any ticket agent of the railroad or on application to passenger Department, Pennsylvania Railroad, Philadelphia.

CASTORIA

Bears the signature of Chas. H. Fletcher. In use for over thirty years, and The Kind You Have Always Bought.

Economy in Leather.

War demands leather—leather for soldiers' shoes, leather for harness, leather for equipment of many kinds. In this country there is no such surplus that we can afford to waste any of it; and it is wasting leather to put the army and navy out, we all wear shoes. If we manage them rightly, they will last longer, we will not need so many new ones, and there will be more left for others. The following suggestions from the Leather and Paper Laboratory of the United States Department of Agriculture can be utilized by everyone who walks.

TO SAVE SHOES.
Shoes should be oiled or greased whenever the leather begins to get hard or dry. They should be brushed thoroughly, and then all the dirt and mud that remains washed off with warm water, the excess water being taken off with a dry cloth. While the shoes are still wet and warm, apply the oil or grease with a swab of wool or grease about as warm as the hand can bear, and it should be rubbed well into the leather, preferably with the palm. If necessary the oil can be applied to dry leather, but it penetrates better when the latter is wet. After treatment, the shoes should be left to dry in a place that is warm, not hot.

Castor oil is satisfactory for shoes that are to be polished; for plainer footgear neat's-foot, fish oil, or oleum may be substituted. If it is desired to make the shoes and boots more waterproof, beef tallow may be added to any of these substances at the rate of half a pint of tallow to a pint of oil. The edge of the sole and the welt should be greased thoroughly. Too much grease cannot be applied to these parts.

A simple method of making the soles more durable, pliable, and water resistant is to swab them occasionally with linseed oil, setting them aside to dry over night.

Many of the common shoe polishes are harmful to leather. All of which contain sulphuric, hydrochloric, or oxalic acids, turpentine, benzene, or other volatile solvents, have a tendency to harden the leather and make it more liable to crack.

It is poor economy, too, to wear a shoe with the heel badly worn on one side. This throws the weight out of balance, and may result in its ruin. It is also likely to cause temporary injury to the foot.

TO PRESERVE HARNESS.

Harness leather, like shoes, can not be neglected without injury that lessens its durability. It should be washed and oiled frequently. The washing should be done in tepid water with a neutral soap and a sponge brush. After rinsing in clean water, the harness is hung up to drain a little while before oiling.

For driving harness neat's-foot or castor oil is best, but for heavy harness there may be some tallow in the oil. The applications should be light for driving and liberal for heavy harness. The oil, warm to the hand, is rubbed thoroughly into the leather. Excess oil which the leather is unable to take up should be removed with a clean, dry cloth.

Glimpse of Life on a Submarine.

It is thrilling to watch a submarine come racing toward you, her prow cutting the water sharply, her two exhaust hales far astern pouring out dense quantities of white smoke, her engines vibrating rhythmically, says Leslie's Weekly. But it is more thrilling to be aboard, to stand in the tiny conning tower, to walk up and down her echoing steel decks, to go below amid the complicated mechanism of this diving boat.

Once the command to submerge is given officers and men go below and the hatches are securely battened down. The captain takes his place at the forward periscope to direct the course of the boat. It gives one a strange thrill to know that the waters have closed above one's head, as you glide silently along amid a blaze of electric light and polished metal.

The only connection with the world above are the tiny little tubes with their magic mirrors of glass, that banish distance and carry the light of day to the observer. The periscopes are the eyes of the submarine. Without them it is blind and must run by compass.

The greatest enemies of the submerged submarines are mines or bombs exploded on or near the boat; steam crawlers, which carry drag nets; fast motor boats mounting guns, and swift destroyers which often get shots at periscopes, and last, but not least, the nets which are stretched across channels and form webs from which the boat cannot extricate itself.

The aeroplane is also an inveterate enemy of the submarine, for it searches out the shallows where the undersea boats lie near the steamer lanes, and as the waters are clear, easily locates the boats and informs the nearest patrols, which surround the spot and wait for the submarines to rise.

Many schemes have been tried to give the submarine commander an opportunity to "look the sea over" without exposing the periscope to a chance shot. The most common practice is to "porpoise" or rise, take a quick look and sink immediately. Often the periscope is projected through what appears to be a drifting box.

While the torpedo is the most effective weapon of the submarine, limited space allows each boat room for only a small number. Therefore, small guns, usually two in number, are carried that the crews may destroy by shell-fire such ships as surrender without making a fight or a race; thus conserving the supply of torpedoes. The lighter gun is mounted in a well and works on the principle of the "back and box." As its compartment cannot be made water-tight the gun is built of nickel-steel to prevent rusting. The heavier gun is carried below and considerable time is required to mount it.

Japanese Bait Diggers.

An extraordinary occupation that many of the very poor follow in Japan, is that of the esatori, or bait catcher, who spends his days gathering anguiform worms. We say "anguiform" because the worms are as long as the account in the Japan Magazine, but the bait diggers are as often women as men. The Japanese anguiform worm is not taken from the soil, as is the case in Occidental countries, but from the black mud of the rivers and canals.

Tokyo is a great place for this calling. Near it has numerous streams and canals connected with tides, and as soon as the tide begins to ebb you can see women with their baskets and their mud forks climbing down the stone facings of the canals, plunging their legs into the deep mud, and picking up the wriggling red and white worms that they dig out of the mud.

These worms are a somewhat different species from the earthworm. They are slightly stouter, with jointed bodies and peculiar moustached mouths. The receptacles for the captured worms are baskets or tubs with covers that contain small square openings through which the women prop the worms as they pick them up. As soon as the bait baskets or tubs are full the women take them to the shop and sell them. The bait shop deals in bait only, and from these establishments the fishermen buy worms for their hooks.

The amount that the anguiform worms can make daily is very small—not more than forty sen for each worker; but it helps out in the household expenses. In the summer weather the work is not hard, although it is certainly hot, with the sun beating down on the stooping form and reflected from the wet mud and water. In the colder weather, for the bait catcher has to stand for hours in the freezing mud.

Diseases that are the result of their calling are frequent among the bait women, especially beriberi and dropsy. The Japanese regard bait digging as the most miserable way of getting a living known to mortal man.

Points About the Flag.

The American flag was first displayed in a foreign port from the mast of the American schooner Bedford, of Massachusetts, which arrived in the British Downs February 3, 1783.

The resolution for the adoption of the Stars and Stripes as the American emblem was passed by the Continental Congress June 14, 1777. An American ship, the Columbia, carried the American flag around the world in 1791-1795.

The first American flag for the United States Navy was designed by the breeze by John Paul Jones, the first American naval officer to engage a foreign foe. This flag had but twelve stars on it and it flew at the topmast of the good ship Ranger.

Few who explore Westminster Abbey are aware that there are many parts of which they have never had a glimpse. For instance, in the eastern cloisters there is a door so guarded against unauthorized intrusion that it can only be opened by seven keys, which are in the jealous custody of as many Government officials. Five of the keyholes of this wonderful door, which is covered with human skins, are concealed from view by a stout iron bar which traverses it. This door gives access to a vaulted chamber, known as the chapel of the Pyx, the walls of which were standing as they stand today before even the Norman conquerors landed in Sussex. The chamber was once the treasury of England to which were brought "the most cherished possessions of the State."

The Blood and the Brain.

Among the many important physiological facts that should be as well known by people generally as they are by physicians, is the dependence of the brain for its proper action on the vitality of the blood. If this is impaired, the blood affords an imperfect stimulus to the brain, and, as a necessary consequence, languor and inactivity of the entire nervous system follow, and a tendency to headache or faintness makes its appearance.

It is probable that no other medicine ever produced has done more in the way of revitalizing the blood, making it pure and rich, than Hood's Sarsaparilla, which should certainly be given a trial where there is any reason to believe that the blood is defective in quality or deficient in quantity.

Will Be Devoted to Dairy Products.
R. M. Washburn, in the new Lippincott Farm Manual, "Productive Dairying," predicts that in a short time the United States will be largely devoted to dairy products, instead of beef production. For he tells us the food value produced by May Rima, the Guernsey cow, equalled in one

Year that of 30 steers weighing 500 pounds apiece. It would take, he assures us, eight acres of good wheat land to produce an equal food value to the year's production of Duesse Skylark Ormsby, and this is coming to be typical of the value of the dairy cow. Now the cow does this by working over hay, corn, ensilage and various rough or by-product grains.

Coral Beds of Japan.

The coral beds of Japan are worked by divers in the employ of a master diver who receives the take as it comes in, grades it, and when a sufficient quantity has been obtained, asks for bids on the lots of each grade. Representatives of the leading exporting and wholesale firms are always at hand during the season the best coral is taken, to inspect the take and proffer bids. The total annual take is about 65,000 pounds, valued at \$700,000. The color of the coral has a great deal to do with the value placed upon it. The most expensive is "boke," a pale quince color. Singre heads of this color, suitable for manufacture into ornamental hairpins, bring from \$10 to \$50 each. The next color in value is pink, followed by white, light red and dark red.

Hood's Sarsaparilla.

Nux Iron Pepsin and Sarsaparilla—Effective Combination. As comprised in Hood's Sarsaparilla and Pepton Pills, these valuable remedies possess unequalled normal value, for the alleviation and cure of a long train of ailments common among our people in this 20th century.

In these days of rushing and pushing, nearly every man and woman needs the aid of the health-giving powers of this combination of medicines to support and sustain normal health tone. If it is not supplied, the depletion of the blood and the broken-down nerves will soon give way to permanent invalidism and ruined health.

The very best remedies for blood-purifying and nerve-building are found in Hood's Sarsaparilla and Pepton Pills. You know well the great tonic properties of iron. They are much increased and improved in this combination—Hood's Sarsaparilla before meals, Pepton Pills after.

JOHN F. GRAY & SON, Bellefonte, 43-18-ly State College

THE VERY BEST FLOUR That Money Can Buy

Geo. Danenhower & Son Wholesale Distributors, Bellefonte, Pa.

Get the Best Meats. You save nothing by buying poor, thin or gristly meats. I use only the LARGEST AND FATTEST CATTLE and supply my customers with the freshest, choicest, best blood and muscle making Steaks and Roasts. My prices are no higher than poorer meats are elsewhere.

—DRESSED POULTRY— Game in season, and any kinds of good meats you want. TRY MY SHOP. P. L. BEEZER, High Street, Bellefonte, Pa.

FINE JOB PRINTING —A SPECIALTY— AT THE WATCHMAN OFFICE. There is no style of work, from the cheapest "Dodger" to the finest BOOK WORK, that we can not do in the most satisfactory manner, and at prices consistent with the class of work. Call on or communicate with this office.

Why Suffer So? Why suffer from a bad back, from sharp, shooting twinges, headaches, dizziness and kidney and bladder ills? Bellefonte people recommend Doan's Kidney Pills. Could you ask for stronger proof of merit?

Mrs. C. Young, Potter St., Bellefonte, says: "For more than a year I suffered from a dull ache in the small of my back. My back was sore and lame and when I bent over I could hardly get up again. I never felt able to do any house work. I had a languid feeling all the time and mornings I didn't feel like getting at my work. I was troubled a lot by dizzy spells. Doan's Kidney Pills had helped so many people around here with the same trouble, I began taking them. I got my supply at Green's Pharmacy Co. The first box cured me. It has been three years now since I have had any trouble from my back or kidneys."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that cured Mrs. Young. Foster-Milburn Co., Mfrs., Buffalo, N. Y. 61-23
