Monday, feast of St. Barnabas, 10 a. m., Holy Eucharist. Friday, 7:30 p. m., Litany and address. Visitors welcome. Rev. M. DeP. Maynard, Rector.

#### Death of P. R. R. Superintendent.

Altoona, Pa., June 6.-George W Creighton, of Altoona, general superintendent of the Pennsylvania railroad divisions between Altoona and Philadelphia, died in a Philadelphia hospital on Saturday after a long illness, aged 61 years. Mr. Creighton was widely known in railroad circles, and had many friends in Bellefonte. The remains were taken to Altoona where havial was made on Tuesday. where burial was made on Tuesday. George W. Creighton was born in Philadelphia, June 22, 1856, and entered the railroad service January 18, 1878, as a rodman in the engineering department of the Madiro & Mamore road in Brazil, a pioneer railroad enterprise in which many Pennsylvanians had a part. He continued in the service of that company for one year, after which he became connected with the Pennsylvania railroad. In 1895 he advanced to superintendent of the middle division of the P. R. R. and in 1899 became general superintendent of the Northern Central and the Philadelphia & Erie. He was made general superintendent of the Buffalo and Allegheny Valley division of the Pennsylvania and three years later he became general superintendent of the Pennsylvania railroad. Four years later, when the system in Pennsylva-nia was divided into the Eastern and Western Pennsylvania divisions, he was made general superintendent of the Eastern division. The Eastern division comprises the Middle, Philadelphia, Cresson, Tyrone, Bedford Schuylkill and Bellwood divisions.

Centre County Y. W. C. A. Notes. The Commonweal club of Spring Mills and Penn Hall has the honor of having the first members in the county to obtain the recognition seal for the earning of Commonweal credits. Canning demonstrations were giv-

en last week by the Senior girls of State College at Port Matilda, Oak Hall, Dale's Summit and Howard. The Wabun Annung Commonweal

club of Oak Hall is making bandages for the Red Cross.

Registration for the camp at Eagles Mere in July should be in the hands of the secretary by June 15th.

—A splendid musical entertainment will be given in the Schwab auditorium at State College tomorrow (Saturday) evening, beginning at 7:30 o'clock, by the combined Glee and Mandolin club and the College orchestra. This will probably be the last opportunity to hear these highclass musical organizations in their entirety, as many of the boys expect to go to the front and may not return to the College next year. Reserved seats for the entertainment can be secured by the Bellefonte people at Blair's jewelry store in the Brockerhoff house block.

-Some time ago Orlow Kent, a student at the Bellefonte Academy, left Bellefonte to go to his home in Binghamton, N. Y., to see his brother who was shortly to sail for France as a member of an ambulance unit. A few days after his arrival there he telegraphed headmaster James R. Hughes that he would not return to school as he intended going with his brother to France, and it is just possible that both young men have already arrived in that country.

-While assisting in switching cars onto the paper mill siding at Lock Haven on monday morning Charles Withee, a brakeman on the Bald Eagle Valley railroad, was squeezed between two cars. He was taken in an ambulance to the Lock Haven hospital, where it was found that his injuries consisted principally of contusions and were not serious.

-Invitations have been issued by Rev. and Mrs. John Allen Wood, of Los Angeles, California, for the marriage of their daughter, Miss Alice Margaret Wood and Dr. Arthur Alfred Morse, on Wednesday, the twenty-seventh of June.

-The big picture, "Civilization," failed to reach Bellefonte yesterday but it will be shown at the Scenic this (Friday) afternoon and evening. Don't fail to see it.

-Men's suits at \$10.00, \$12.00, \$15.00 and \$17.00, all splendid suits for their price.—Cohen & Co. 23-1t

What the Allies Mission Accomplished Here.

In the six weeks spent by the British and French war missions in the United States the following are among the most important items of business trans-ACTUALLY ACCOMPLISHED.

Loans to the allies already totalling \$745,000,000.

Decision reached to send a division of United States regulars, a regiment of marines and nine regiments of engineers under command of Major General Pershing for service in France as soon as possible

A joint allied buying commission decided upon, with headquarters in Washington.

Full co-operation with the British blockade system, including employment of United States consuls in Holland and Scandinavia to oversee the rationing of those countries. A definite understanding between the United States and Can-

ada for controlling the wheat market. Expediting of the American shipbuilding program, consequent upon the admission that submarine losses in April approached the fatality line. The turning over of seized German ships to the French, Italians and Russians.

TENTATIVELY DECIDED. Legislation dealing with embargo, trading with the enemy, control of cargo space (including prohibition of export of luxuries), etc., to be asked from

Legislation to be asked for providing for a system of joint food control with the allies, particularly Canada. DIPLOMATIC ARRANGEMENTS.

The United States to give the allies preferential treatment in commerce. The United States to act harmoniously with the allies for the dismemberment of Austria-Hungary, this including the constitution of an independent Bohemia and the restoration of Roumania, Servia and Montenegro, with Transylvania to be given to Roumania, Bosnia and Herzegovina to Servia, and the Trentino and Trieste to Italy. Harmonious action to be taken by the allies to impress Russia with the prospects of future world peace afforded by this program. The difficulties in the way of an independent Poland were impressed

upon the president. President Wilson's scheme for a league of nations is left for future dis-

# DISCOVERS GLASS PROCESS.

Government Plans to Supply Army and Navy Needs.

The secret of making optical glass of the sort used in fieldglasses, range finders and periscopes, a product for which this country hitherto has been dependent on Germany, has been discovered by the bureau of standards.

In announcing the discovery Secretary Redfield said it was one of "essential importance to the military services of the nation." Experts of the bureau have been at work for two years and a half trying to find the right process, and additions will be made to the bureau equipment immediately so that the product can be supplied in sufficient quantities to meet the government's requirements.

# DIVORCEES NOT DEPENDENTS.

Even Payment of Alimony Won't Bar

Man From Draft. A divorced wife, even though drawing alimony, will not be considered as a dependent relative under the selective draft army registration law, according to a statement by Brigadier General Crowder, provost marshal gen-

eral of the army. Information with regard to whether the individual has a wife now is what is desired. The fact that he is a widower or has been divorced has no bearing on the question.

He Takes a Chance.

Having survived seventeen civil war battles and an inventor's ups and downs, a Freeport (N. Y.) man of seventy-five thinks he is now able to brave matrimony and appeals for a wife.

### BOALSBURG.

Mr. John Roush, of Madisonburg, is visiting his daughter, Mrs. A. J

Thirty-seven young men registered in this precinct of Harris township on

Mrs. James H. Potter, of Bellefonte, spent some time among friends in this vicinity on Tuesday.

Mr. and Mrs. B. F. Homan, of State College, spent Monday at the home of Charles Mothersbaugh. Quite a number of people autoed to Bellefonte on Saturday to see the

parade and attend the show.

Mr. and Mrs. Mallory, of Altoona, were guests of Mrs. Mallory's sister, Mrs. John Kimport, last week. Clement Dale Esq., of Bellefonte, delivered the Memorial day address here, to a large crowd of interested

Mr. and Mrs. Wm. Catherman and Leonard Wilson, of Linden Hall, were guests at the home of James Poorman recently.

Miss Buttless, of Newport, arrived in town on Tuesday and will spend some time at the home of her nephew, Capt. T. D. Boal.

Mary Hazel. Mr. and Mrs. Calvin Wieland, of

Mt. Union, spent the week-end among friends in town. Miss Hester Lonebarger accompanied them to their home for an indefinite visit. Paul Rupp went to Philadelphia on

Tuesday morning to report for duty, he having enlisted in the mechanical engineer corps, expecting to be sent to France in the near future. Mr. and Mrs. John S. Dale and

of State College, with their guest, Miss Erhart, of Johnstown, visited friends in town on Saturday. Mr. and Mrs. Luther Dale and children, of Oak Hall, and Mr. and Mrs. Bowersox and children, of Pine

daughter Mildred, and Miss McBride,

Mr. and Mrs. Calvin Stamm, of Lewisburg, visited at the latter's home recently.

Mr. and Mrs. George Houser and children, of State College, are visiting at his home. The State-Centre Electric company is busy building their line from Lemont to Oak Hall.

Mr. and Mrs. James Houser, of Lemont, spent Sunday afternoon at the home of Lloyd Tate.

A canning demonstration was held at the school house, Thursday evening, by the Commonweal club. Mr. and Mrs. W. W. Tate and fami-

ly, of Pleasant Gap, spent Sunday at the home of Charles Whitehill. Mr. and Mrs. Bert Fetterolf, of Potters Mills, spent the week-end at the home of Mr. and Mrs. C. L.

The custom of lifting the hat is traced back to the age of chivalry, when it was customary for knights never to appear in public except in armor. It became a custom, however, for a knight, upon entering an assembly of friends, to remove his helmet, signifying, "I am safe in the presence of friends." The age of chivalry passed away with the fifteenth century, but among the many acts of courtesy which can be traced to its influence none is more direct in its origin than the lifting of the hat to acknowledge the presence of a friend.

# STEAMER SANK SUBMARINE

American Vessel Sent U-Boat to Bot

tom After Running Fight. Washington, June 5.—In an hour and a half running fight between an armed American merchantman and a German submarine, the merchantman sank the submersible, according to official advices to the State Department

to-day. The submarine, flying no flag, fired thirty-five shots and the steamer but twenty-five. According to State Department reports the last shots pierce ed the U boat, which reared out of the water, stern up, standing upright for a few seconds, then disappeared from

The steamer's captain and the commander of the armed guard believe the submarine was sunk and the navy department is convinced that in this case there is no question the U boat was bagged.

The State Department official an nouncement of the engagement said: "The Department of State is advised by telegraph of an engagement between an armed steamer and a submarine. The guns of the steamer were manned by an American naval crew. The submarine was first seen at about seven thousand yards. She Wesley Hackenberg, of Rebersburg, had a six-inch gun forward and anothhad a six-inch gun forward and another aft. She flew no flag. Upon sight of the submarine, the steamer hoisted the American flag and waited ten had a six-inch gun forward and another aft. She flew no flag. Upon sight minutes. As the submarine approached the steamer fired. The submarine responded. The steamer kept a speed

that would permit the submarine to come within range. Then followed a fight lasting for an hour and a half. "The submarine came to a distance of about 2,300 yards. By that time the submarine had fired thirty-five shots and the steamer twenty-five. The last shot of the steamer apparently struck the submarine, which raised clear out of the water and stood stern end up for a few seconds. Then she disappeared. The captain of the steamer and the commander of the guard believe that the submarine was sunk. The steamer suffered no dam-

The name of the steamer is with-Grove Mills, were visitors at the home held by the State Department, but it of Austin Dale on Saturday evening. is known that the vessel referred to

The Mongolia, it was believed here, was singled out for German retribution because of her attack of a previous voyage against a submarine, so the name of this second ship is suppressed lest Germany try its fright fulness on this ship.

The Department report came from consul abroad who ascertained his facts carefully before reporting in.

### State Highway Appropriations to be Reduced.

Harrisburg, June 5.—The Appropriations committees of the Senate and the House of Representatives have agreed upon the appropriations for the State Highway Department for the next two years, with the result that a substantial reduction in the original budget is contemplated.
As introduced in the House of Representatives, the bill made an appropriation of twelve million dollars for state highway construction in townships and two million dollars for state highway construction in boroughs. These items have been reduced to seven million dollars for the construction of state highways in boroughs

and townships. The State-aid appropriation three million dollars, as originally planned, has been reduced to two nillion dollars.

The item of five hundred thousand dollars for the purpose of condemna tion of turnpikes remains unchanged and the township bonus for earth roads, which is disbursed through the State Highway Department, is substantially the same as in the original

State Highway Commissioner Frank B. Black, says: "The Department is opposed to the building of any other than high types of permanent highways, and we are inclined to believe that concrete should enter into the foundation of every road, as in the construction of the more permanent types of wearing surfaces, such as brick, concrete and bituminous concrete, it is very essential that the foundation be of an unyielding character, such as concrete. I think that the construction of waterbound macadam roads should be abandoned

entirely, especially on main arterial routes, on account of the heavy maintenance expense."

-In the United Kingdom there are almost 2,225,000 men and women engaged in making cannon and projectiles. The supply in some lines, such as the eighteen-pounder field gun, is now greater than the need, and production is slackening. If the war is not won, lack of munitions will not longer be a valid excuse.

-Lewis Rideout, a colored barber of Philipsburg, attempted suicide on Tuesday morning by slashing his throat with a razor, but he didn't cut deep enough, and he will be around in a few days.
