----State Highway Commissioner Black will open bids on August 14th for the rebuilding of south Water street in this place. The specifications call for a roadway of vitrified brick, 2454 feet long and 16 feet wide. This indicates that the road may yet be built this summer.

-A flag raising will take place at the United Brethren church on Sunday afternoon at three o'clock. While the entire program has not been definitely arranged pastor Mac-Leod has given assurance that patriotic speakers will be present and all the exercises in keeping with the solemn occasion. The public is invited.

----When you come to Bellefonte in the evening for a little diversion try the Scenic. You will get as much if not more for your money there than anywhere else in town. The pictures manager T. When the delegation of Philadelphia physicians were in Bellefonte last week recruiting physicians for the medical reserve board for service in the army the Bellefonte hospital staff made a tender of the Bellefonte hospital for government use, if the occasion ever comes that it is needed.

Since then it has been learned that the government has asked for a survey of Centre county with regard to available sites for government hoslast week visiting with friends in Potts- pitals and internment camps. In the above connection a number of sites might be found in Centre county available either for a hospital or internment camp, and in due time report of same will probably be made to the proper government authorities.

The only persons specially interested were the various employees of the borough and their wages were paid as usual on the approval by the chairmen of the various committees.

James -Raspberries are now in market and they are large and luscious. The crop is said to be an unusually large one and from the looks of the bushes at the present time the blackberry crop will be one of the largest ever grown in this section. The bushes are all loaded with the fruit and the berries are already almost full grown and large as to globules. The only question will be the picking and marketing of the same.

-----Up to yesterday afternoon nothing definite had been done regarding the extension of the Titan Metal company plant. The board of directors had a meeting on Tuesday evening and the proposition or taking additional ground where the plant is now located and the tender of the glass works meadow site was considered but no definite conclusion was reached. Another meeting of the board will be held next Tuesday even-Edward Sunday ing when it is possible some decisive action will be taken.

-Milton R. Johnson, in his big motor truck took a party of eight or ten Bellefonte gentlemen over to Walter Gherritys in the Seven mountains on Sunday to spend the day. Having been notified that the men were coming Walter had a big chicken dinner for them, with new peas out of his own garden, sweet potatoes and everything that went to make up a big meal. For supper he gave them some of his -home-cured ham and chicken-laid eggs. The party returned home between nine and ten o'clock, each man well satisfied with the little outing.

-It is said that the Pennsylvania railroad company is viewing with more or less alarm the establishment of that silica brick plant at Port Matilda. In the entire history of Bald Eagle valley in the past forty years there has never been a manufacturing plant of any kind save small sawmills between Tyrone and Milesburg and the result has been that it is a fruitful field for the railroad company from which to draw men for its employ. In fact there is probably not another little valley in the State of Pennsylvania that is more largely represented in that vast army of railroad employees than Bald Eagle valley, and now the fear is that with the establishment of the new brick plant at Port Matilda the young men will seek employment there in lieu of going to the railroad.
