Patrons Must Pay the Tax.
Anent the notice in the "Watchman" last week that movie patrons and theatre goers would be required to pay a tax on their admission tickets beginning November first, there has been more or less discussion as to whether the tax should be paid by the patron or by the proprietor. In order to make the matter clear to the public at large we herewith publish a portion of the act as follows:

Section. One cent on each 10 cents or fraction thereof paid for admission to be paid by the person paying for such admission. One cent for each child under 12 years of age where the admission charge is made for such child. These taxes not to be imposed in the case of a place, of the maximum charge of admission to which is five cents.
The law also requires all complimentary, press, billboard and free admissions of whatever nature, to pay the patron war tax, which must be paid by the patron according to the value of the seat or free ticket held.
From the above it will be seen that there is no tax on places of amusement where the maximum charge for admission is five cents. But if five and ten cents are charged then each ticket is subject to a tax of one cent, as the law specifies this fact clearly. The only exception made in the line of amusements of any kind is in the case of fraternal and church benefits, to which the tax does not apply.

H. C. Valentine is now at Port Matilda where he is superintending the building of a narrow gauge railroad for the Superior Silica Brick company.

Ford
THE UNIVERSAL CAR
These Are Economical Days

and thus the FORD car becomes a more intense necessity than ever before, because by reason of its universal service it has become a large part in the "business of living," besides, it takes less money for operation and maintenance than any other motor car. That this is not an idle boast is proved by the fact that there are more than two million FORDS in daily service. More conclusive evidence of your need of a FORD car could not be given. Here it is, a daily necessity that is a daily economy. A variety of bodies to meet the variety of demand—from the "snappy" Runabout to the de luxe Sedan—and, buy when you can get delivery, for production is behind the demand all the time.

DELIVERY IN 1 TO 2 WEEKS.

Buy your car now, when 1 to 2 weeks delivery is possible on all models except closed jobs. Later on, lack of material and other abnormal conditions may bring a recurrence of long delay in obtaining cars. BUY NOW—immediately—and insure yourself against tedious and perhaps expensive waiting at a time when you will want the car and cannot get it.

Recently the price increased on the enclosed jobs but the price on the other models remain the same for the present.

Your order will be given prompt attention and efficient "after service," which means experienced workmen, genuine Ford-made materials and regular Ford prices.
