Lock Haven Sent Big Crowd Here for High School Game.
Lock Haven returned the compliment paid them by Bellefonte last year by sending a big crowd here yesterday for the second football game between the Bellefonte and Lock Haven High schools in the Griffin cup contest. A special train brought practically the entire Lock Haven High school, scores of citizens and the Nyren band to Bellefonte, arriving here shortly after two o'clock.
At the depot they were met by the Bellefonte High school with Our Girls band of Milesburg, and the High school band. The entire crowd then paraded to Hughes field where the doughty football warriors were already warming up for the contest. Preliminary to the game, however, the various bands kept the crowd cheerful with their music.
While the sun shone brightly during the morning the skies were overcast in the afternoon, but notwithstanding the chill in the atmosphere the crowd that watched the game was the largest ever seen on Hughes field.
Lock Haven High won the game by the score of 19 to 0, but it was a good game at that, both teams playing splendid football.

At Pittsburgh the score was Pitt 28, State College 6.
Berlin Reports Americans Made Good Fight and are Excellent Prisoners.
Berlin, Sunday, Nov. 25, via London, Nov. 27.—(A. P.)—A report received from the western front describing the American troops in action says:
"Independent American units have been thrown into the trench line. The felt hat has given way to the English fashioned steel helmet, and the whistling and bursting of shells have become familiar sounds to American ears.
"For the first time since they have been participating as independent contingents the Americans have tasted the real earnestness of war, even though it was but a minor hand-to-hand scuffle. By this time the shells did not merely fly over their heads, but into the very trenches they had selected, and presently, with an infernal noise, these things which the young soldiers believed to be a firm protection began to quake and burst.
"And hard on the heels of this a firm attack by our onrushing Bavarian reserves forced the way into the American trenches and musket shot and bursting hand grenades relieved the artillery of its burden.
"Our new opponents made a most determined defence, and desperate hand-to-hand fighting set in. Butts of guns, fists and hand grenades were freely brought into play, and many men fell to the ground before the rest gave up resistance and surrendered. After a bare hour the German storming troops were back in their own trenches with booty and prisoners.
"Here they stood before us, these young men from the land of liberty. They were sturdy and sportsmanlike in build. Good natured smiles radiated from their blue eyes, and they were quite surprised that we did not propose to shoot them down, as they had been led in the French training camp to believe we would do.
"They know no reply to our query, 'Why does the United States carry on war against Germany?' The sinking of American ships by U-boats, which was the favorite pretext, sounds a trifle stale. One prisoner expressed the opinion that we had treated Belgium rather badly. Another asserted that it was Lafayette who brought America French aid in the war of Independence and because of this the United States would now stand by France."

Needed Long Ones.
"Pair of stockings, please," announced the portly man as he puffed up to the women's hosiery counter of a department store in Herald square.
"Silk?" asked the tall girl with the queenly figure.
"Ne heavy lisle or cotton," mumbled the rotund one with an effort at an apologetic smile.

MOMENTOUS WAR NEWS.

Some of the Important Developments of the Week.

Among the week's developments in war torn Europe is the rumor that Norway is considering entering the war on the side of the allies, and the assertion that if it does so Germany will invade Denmark. It has been known for some time that a strong pro-German sentiment was fomenting in Norway and the powers in control may be unable to check it.

ALLIED WAR CONFERENCE.
The representatives of the chief nations at war with the Teutonic allies are gathering in Paris for the inter-allied conference, at which are to be discussed momentous questions for more unified action in the prosecution of the war.

The American, British and Italian missions already have reached the French capital. They are led, respectively, by Colonel E. M. House, David Lloyd George, the British prime minister, and Vittorio Orlando, the Italian premier.

RUSSIA IN DIRE STRAITS.
Inside Russia the unsettled condition of affairs daily seems to be growing more intense. All communication now has been severed between north and south Russia, even foreign embassies in Petrograd being unable to get in touch with Odessa and other points in the south. Unofficial advice are to the effect that the Russian northern army is in dire straits for food, having had no bread for several days.

BRITISH IN FONTAINE.
Around the village of Bournon and Bourlon wood and about Fontaine Notre Dame, in the region of Cambria, the British troops are keeping hard after the Germans. In both sectors General Byng's forces again have made considerable progress, especially at Fontaine, where, having been evicted by the Germans after the initial drive of last week, they again have obtained a footing in the town and have advanced almost to the main street. A heavy concentration of enemy machine guns in the Folle wood did not succeed in stopping the British advance. The southern portion of Bournon village also was entered by the British after a hot fight, but after having rescued some of their troops who had been isolated there for some time, the British withdrew to their original positions.

ITALIANS REPULSE BITTER ATTACKS.
Possibly in a supreme endeavor to break the Italian line before the British and French reinforcements enter the fray, the Austro-Germans, comprising an entire division, have attacked the Italians in the Brenta valley, on the northern sector of the Italian front. Like similar, though smaller attacks during recent days, the offensive was stopped by the Italian artillery and infantry, the enemy suffering heavy losses in men killed and made prisoner. Four additional attacks between the Brenta and Piave rivers also were put down with heavy casualties and everywhere the Italians held their original line.

THE ACTAON SUNKEN.
Another American steamer, the Actaon, a former German vessel, has been sunk by a German submarine. Boats containing twenty-one survivors have landed in Spain, but three other boats, with additional members of the crew, are missing.

TO TALK PEACE ON SUNDAY.
Sunday next has been set by the Germans as the date for a conference with the Bolshevik leaders with the purpose of negotiating an armistice. The arrangement for the discussion followed a visit of representatives of the Bolsheviks to the German military authorities on the Teuton side of the fighting front in Russia. The Germans apparently gave quick acquiescence to the proposal of the Russians for an armistice looking to an ultimate peace, for only a few hours intervened between the visit of the Russians to the German line and acceptance by the Germans of the proposition that was made to them.

While the negotiations are expected to embrace an armistice "on all the fronts of the belligerent countries," it is certain that the entente allies will give no heed to the overtures, either of the Bolsheviks, who comprise the radical section of the Russians who long have desired Russia to cease fighting, or of the Germans, who for even a greater period of time have been endeavoring to put into operation negotiations for a peace that would prove a suitable one for themselves and their allies.
