Required for Health and Beauty.

It is surprising that it is necessary to repeat again and again that the health and beauty of the skin require that the blood shall be pure. If the arteries of the skin receive impure blood, pimples and skin eruptions appear, and the individual suffers from humors. Powders and other external applications are sometimes used for these affections, but will never have the desired effect while the causes of impure blood remain. The indications are very clear that Hood's Sarsaparilla is the most successful medicine for purifying the blood, removing pimples and blotches, and giving health and beauty to the skin. It gives tone to all the organs and builds up the whole system. Insist on having Hood's Sarsaparilla when you ask for it. Don't take anything else. 63-10. —They are all good enough, but the "Watchman" is always the best.

NATIONAL BATTLE SONG.

By Alfred Bely. Dear country, the fairest, so glorious and free! The brave and the noble bear homage to thee; Thy standard of right is a boon to the world, Thy flag is the fairest that e'er was unfurled. When tyrants or traitors rise up to annoy, Gird on your strong armor the foe to destroy! In war's trying conflict be valiant and brave! March forward to battle, your country to save! Though dim are the watch-fires throughout our domain, Arouse be ye for the loss to regain! Stand firm and be true, like your sires in their might Who battled for freedom, for justice, and right. True hearts of our Nation, so gallant and brave, Repel every foe that our land would enslave! On you, strong and loyal, this people depend, Then strike in your might, and your country defend!

Air Mail New York to Washington.

Washington, D. C.—An aerial postal service between Washington, Philadelphia and New York is to be inaugurated not later than April 15, 1918. By arrangement between Postmaster General Burleson and the Secretary of War the aerial postal route between these points will be conducted for the first time as a part of the aeronautic training service of the War Department. All bids submitted in response to the advertisement of the Postoffice Department for construction of aeroplane planes for this service have been rejected and the War Department will provide the Postoffice Department with six powerful army aeroplanes, with two in reserve. One trip each way will be made daily, except Sunday, on a fixed schedule. These flights will be under the control and operation of the War Department, which will furnish the expense of gasoline and upkeep of machines and the necessary motor trucks and clerical forces in connection with the service. The Washington landing fields and hangars will probably be on the polo grounds in Potomac Park; but the Nacostia Flats are tentatively under consideration. In Philadelphia, the field and hangars will be at League Island. In New York the selection lies between Van Cortland Park and Mineola. Van Cortland is preferred unless air currents there are such as to render it undesirable. If the Mineola site is selected, arrangements will probably be made for dropping mail bags into nets. Not to exceed 300 pounds of first class mail, occupying a space of not more than 25 cubic feet will be carried each trip. It is expected that the trip between Washington and New York including the stop at Philadelphia will be made inside of three hours.—Christian Science Monitor.

Medical.

Women Give Out Housework is hard enough when glad to heed this Bellefonte woman's who is having backache, blue and nervous spells, dizzy headaches and kidney or bladder troubles, should be glad to heed this Bellefonte woman's experience. Mrs. J. F. Thal, 23 W. Thomas St., says: "I suffered from backache and severe pains across my loins. I also had headaches and dizzy spells, when I got up in the morning. Bladder disorders caused me a lot of annoyance. My attention was called to Doan's Kidney Pills and I began taking them, getting my supply at Green's Pharmacy Co. One box removed the backache and relieved me of the other trouble from my kidneys. Doan's Kidney Pills helped me a lot and I always have a good word for them." Price 60 cents at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Thal had. Foster-Milburn Co., Mrs. Thal had. Foster-Milburn Co., Buffalo, N. Y. 63-10

Second Big Draft in June, Provost Marshal Decides.

The second big draft will be made in April, according to present plans. The number to be included in the call and mobilization is to be determined by the war council of the War Department, it was stated. Unless some great emergency arises, no nation-wide calls for men will be made under the second draft. The present plan provides for a continuous stream of men moving from civilian life to army camps and from the camps to France. Comparatively small numbers of men will be ordered from certain districts to camps just as rapidly as men now there start across the sea. The formal call authorizing some definite number will be made merely for the purpose of locating the district quotas. Many more special and industrial calls, such as the present ones for bricklayers with Pershing's forces and accountants, will be made under the second draft, it is believed. For this purpose an elaborate card index system, showing the occupations of all registered men is being compiled. Commencing last Monday 75,000 men of the first draft were sent to the training camps. On March 3 about 10,000 more were sent and this will leave only about 6 per cent.—approximately 40,000—of the first draft who have not been inducted into service.

Heard on Summer Street.

"Hallo! What's your rush?" "I want to catch the 5:40 train." "But you've got twenty minutes." "I know, but I've got to count on being held up this way by three or four idiots who want to know what's my rush."

A Combination that Makes for Better Health This Spring. Every man and woman who would enjoy good health this Spring, and would have such life and strength as not to be a slacker, but equal to anything, must have an abundance of iron in the blood.
