Borough Council Held Lengthy Session.

Eight members were present at the regular meeting of borough council on Monday evening and the result was the first business was transacted since January 21st. There were no verbal or written communications and the only thing the street committee had

to report was a general cleaning up. Mr. Seibert, of the Water committee, reported the thawing out of a large number of water pipes, and still have a few to open up. He also stated that the pump at the Phoenix mill plant is now pumping 501,120 gallons every twenty-four hours when it should pump 1,244,160 gallons.

The Finance committee reported a balance in the hands of the borough treasurer on March 4th of \$3,242.51. The special committee recommended that the gravity pump at the Phoenix mill plant be repaired and put in first-class condition, and on motion of Mr. Richard the Water committee was instructed to have the work done

at once. Mr. Harris presented the plans for a new concrete bridge over Logan's branch near the Phoenix mill. It calls for a structure with a twenty foot roadway and a four foot walk on the side and has been planned to conform with the state-aid highway on that street for which bids will again be opened March 12th. No estimate of the cost of the bridge was submitted, and inasmuch as the bridge is to be built jointly by the borough and county the committee was instructed to sereport at next meeting.

The resolution

passed. Mr. Flack, of the Fire and Police committee, stated that there is considerable complaint about the policemen leaving town and being away from one to three days at a time, and upon his recommendation the chief of police was granted an increase in salary of five dollars a month, and the officers are to be instructed to remain in town, at least during the time when they should be on duty.

Secretary Kelly presented a communication from Burgess W. Harrison Walker enclosing a resolution passed by the Board of Trade in connection with the relief expedition to Lock Haven, and the same was accepted and approved by council.

Secretary Kelly also presented the report of the Pruner orphanage for the year 1917, which showed a balance in the general and sinking funds aggregating about six thousand dollars, and the same was accepted and ordered filed.

President Walker's appointment of A. Miles Barr as an auditor of the Pruner orphanage accounts was approved by council.

A note of \$2,000 dated February 2nd was authorized renewed for a period of six months after which bills accumulation of six weeks, were approved and council adjourned.

Flour Hoarders Arrested.

Getting wise to the fact that flour hoarding was being done at Chester Hill, near Philipsburg, John F. Short, food administrator of Clearfield county, sent constable Reilly there last Friday to make an investigation and the latter with chief of police Sankey, of Philipsburg, and two members of the state constabulary made the

-Mr. and Mrs. Harry Clevenstine moved yesterday from the Pruner orphanage to the Cole property on Bishop street, recently vacated by the Hart family. Mr. and Mrs. Clevenstine have had charge of the orphanage ever since it was established and proved most careful and competent managers in every particular. In fact they took such good care of the children that the four inmates now there want to go with Mr. and Mrs. Clevenstine, but so far the matter is undecided. The Clevenstines have been succeeded at the orphanage by Mr. and Mrs. James Kellerman, and they will no doubt give the orphanage good

service. -Mrs. Sommerville Bond, of Baltimore, has announced the engagement of her daughter, Miss Julia Valentine Bond, to Lieut. William Edgar, U. S. R., son of Mr. and Mrs. and Dobbs Ferry on the Hudson.

If anybody thinks that an exemption board has little to do outside of examining men when called for service they are very much mistaken. The local board has been busy almost continuously since last September. Inasmuch as there is no special examining board here the local board has been delegated with the authority of induction in four ways, namely: General induction into national ar-

my at Camp Meade on draft call. Special induction on application from department commander. Individual enlistment induction into service.

Special induction calls made by the government. In the exercise of their duties they

have been called upon to examine men for induction into the service from eleven different States, the applicants being young men who are either working in Centre county, attending State College or taking the ordnance course, and to complete the work of examining the 1190 class A1 men will take almost a month.
