A Call for the Armenians.

75,000 children are dying in Armenia. Two and a half millions of Armenians and Syrians have no home and no food. An American consular agent reports that in his daily walk from his house to the consulate he counted twelve persons who died the night before. Many villages have been entirely depopulated. In one of them an American saw only one house open and sitting in the doorway was one little girl, apparently alone in the world, saying over and over, "I'm hungry." Last year it was estimated that America must send for the relief of those people, to keep them from dying out entirely, \$30,000,000. Bellefonte's share of that would be about \$240 a month. We have not given much more than \$240 a year.

The American committee for Armenian and Syrian relief is able to forward funds directly, not one cent for expenses; thus a hundred per cent. charity. The committee is especially anxious to have monthly contributions. Should forward money the first of every month and shall be very glad of every amount given, from five cents upward. Remittances are cable twice a month. Within two weeks your money will reach the people. 10 cents will keep an Armenian alive for one day. Don't let your energy be entirely spent in calling vengeance on the Turks and Germans. Go further and show substantial feeling. Contributions will be credited to the town or to any church or organization named by the sender.
