Take Down the Old Flag.

Residents of Bellefonte have always shown an abundance of patriotism and in no way has this been more forcibly emphasized than in a liberal display of flags since this country entered the war. But some of the flags have become so tattered and torn, as well as covered with dirt, that they should be replaced, or at least taken down. The following excerpts on the flag from the "Flag Circular" of the War Department might be of interest: 1. Trade marks cannot be registered on the flag. 2. Penalties are provided for the desecration, mutilation and improper use of the flag. 3. On Memorial day (May 30) the flag should be displayed at half-mast from sunrise until noon and at full mast from noon until sunset. Flags is always to be first hoisted to the top of the staff before being lowered to the half staff position. 4. The hanging of the flag should be restricted to suspending it from a flag pole. Only national colors should be arranged in the form of bunting for decorative purposes. 5. If flag is used for decorative purposes it should be hung flat with union to the north and east. It should rarely be displayed in a horizontal position or laid flat. 6. Where several flags are displayed, the United States flag should always be hoisted first and hung or displayed at the top. In a parade the United States flag should always have the place of honor—at the right. 7. Old or worn out flags should not be used either for banners or for any secondary purpose. Citizens are requested to remove at once the dilapidated flags now hanging from their houses or public buildings, for they are no longer fitting emblems for display. Destroy them by some method lacking in any suggestion of reverence or disrespect due the emblem representing our country.

FARMER GETS MORE.

Forty-five Per Cent. of Cost of Bread Goes to Wheat Grower. The amount of the cost price of a loaf of bread between the wheat producer and the bread consumer is strikingly shown in a recent compilation by the Food Administration covering the period from 1913 to the present time. In 1913 but 26 per cent. of the cost of the loaf of bread to the consumer went to the farmer as compared with 45 per cent. at the present time. In 1913, 68 per cent. of the price of bread was added after the flour left the mill door, as compared with 49 per cent. at the present time. The table presented herewith is a striking illustration of the benefits derived by both the producer and the consumer through the control of wheat and wheat products:

Table showing cost breakdown of bread from 1913 to 1918. Columns include Year, Flour, Fuel, Labor, and Total. Shows a significant increase in the farmer's share over time.

The big motor bus that runs between State College and Tyrone stuck fast in the snow about a mile west of Pine Grove Mills on Wednesday morning on its first trip, and had to send for help to get pulled back to the College. The result is no mail was sent out from here that day. Another big patriotic meeting was held here on Tuesday night which was addressed by Dr. Crockett, of State College. Dr. Crockett, it will be recalled, was in Europe when the war broke out and he gave his hearers first-hand information of what might be expected if Germany should win this war. The result is that \$6,000 worth of Liberty bonds were sold in twenty minutes. Another meeting will be held here on Tuesday evening, April 16th, which will be addressed by Dr. W. K. McKinney, of Bellefonte, and others. Everybody is urged to turn out and do, not their "bit" but their utmost.
